Jon,
I got it. Thanks. I will let you know if I have any questions.

Thanks,
Craig

Craig,

Attached are the signed and dated forms. I believe we sent the filing fee for this claim already, but let me know if I am mistaken!

Again, thanks for the superior assistance. It would not get done without your shepherding us through the process.

Thank you,
Mary and Jon Quinn-Hurst

Hey Jon,

I did get them. The one for the pond filled with ground water is missing a priority date so I was going to send it back to you, but I didn't get a chance before I had to leave town. I am out of the office currently.

I have attached it to this e-mail. You will need to decide when you think that pond was dug. If it helps, I looked at 1966 aerial photography and I don't see a pond. But I can see it in the 1998 photography. I don't have imagery between those dates. If you claimed a 1998 priority date (maybe spring of 1998 4/1/1998), then you would know that IDWR has evidence to support that date. If you want to claim something earlier, then you will need to provide

supporting evidence that the pond was in place consistent with the claimed priority date.

I don't want to tell you what to claim, but 1998 is a reasonable option.

You could print, sign, and scan the claim or take a picture of it and send it to me via e-mail if that is easier than mailing it.

Thanks,
c

Craig,

Just a follow up re: the claims. We mailed the claims with a check to your address last week. Did you receive them? Not sure what the lag time is on snail mail to Boise!

Thanks,
Jon Quinn-Hurst

Hey Jon,

Sorry for the delay. I have attached 3 claims with maps.

97-8371:

This is the claim for the renal home. When we spoke on the phone, I said I thought I would just add the pond to this claim too, but in retrospect, the pond needs to be a separate claim because it is a separate source and system. That will be claim 97-9839.

The main thing we need for this claim is the location of the well. On the map attached to the claim, please draw in the location of the well supplying water to the rental home and return it with the signed claim.

97-9838:

This is the claim for the home on the parcel next to the river.

The main thing we need for this claim is the location of the well. On the map attached to the claim, please draw in the location of the well supplying water to the rental home and return it with the signed claim.

97-9839:

This is the claim for the pond. For the quantity I put 0.5 AF. This is based on a pond with a surface area of 0.1 acres, average pond depth of 4 feet, and accounts for evaporation losses. If you feel the volume should be for more, just cross out the 0.5 af and write in what you think it should be. On your previous claim you had 0.3 af, so I think the 0.5 was pretty close to what you had before, but I calculated the pond volume to be 0.4 acre-feet with 0.1 acre-foot of evaporation losses.

These are your claims, not mine. Look them over and initial any changes you wish to make. When ready, sign the claim and return it with the total filing fee of \$75. (\$25 per claim for 3 claims).

Checks can be made out to IDWR.

You can mail the packet to:

ATTN: CRAIG SAXTON
IDWR
PO BOX 83720
BOISE ID 83720-0098

Or you can send it to our Coeur d'Alene office at:

IDWR
7600 N MINERAL DR STE 100
COEUR D ALENE ID 83815-7763

Let me know if you have quesitons.

Respectfully,

Craig L. Saxton
