Hi Sandra - I left you a message earlier today and just have a few questions when you have a minute.

Attached is your image that I marked up showing the location of where the pump line is and where it is in relation to the high water mark. See small red dot.

The pump and waterline are both fully on our property. The pump line runs out under our dock into the lake.

Thank you
Mike Shinn

Subject: Water Right Claim 97-7005

Good morning, I am working toward recommending your water right claim 97-7005 (attached). The image below shows your property highlighted. Can you please identify where you divert from the lake? Is the point of diversion on your property?
