IDWR/Preston

Affidavit statement for IDWR for Bear River Adjudication

In Niels Wilford Hansen's (my grandfather) life story he records that he bought the property in Mink Creek Idaho at the NE ¼ NW ¼, Section 22 of township 145, range 40 East of the Boise Meridian in the county of Franklin, State of Idaho and states while working for the Two Lakes Canal Company blasting out rock for the two cement flumes (this was 1920) he purchased the land and that it had a good water right. He records that he plowed it all that year and fenced it. It has been irrigated farmland ever since. Wilford Hugh Hansen (my father) purchased it from Niels Wilford in 1950. When Wilford Hugh Hansen died in 2007, my sister, Roxane Beutler, brother, Wesley Hansen and I purchased the land. So, it has been irrigated farmland since at least 1920.
