If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

Stock are also watered with Water Right 13-4115.

12. Remarks:

Priority Date Explanation:

This is the date given on the license. Originally there was one home on the system and a barn. In 1997 our son built and added his home to our system. Since the license was given the amount of water the spring puts out has decreased, however we have still been able to meet the needs of the two homes and the stock without changing our system. We have replaced the original tank with a new tank, but it is the same sized tank as the old one. For this reason we feel that both homes can and should be on this license. In 2023 we replaced the barn with a shop.

The issuance of this right does not grant any right-of-way or easement across the land of another.
