Attachment to Request for Extension of Time to File Adjudication Claims
IDWR/Preston

Claimant is a canal company serving land in the Bear River Basin. The Bear River Basin Adjudication (BRBA) Court has not yet sent a commencement notice for the place of use of Claimant's water rights.

Claimant also owns storage water in Bear Lake. The BRBA Court has issued a Commencement Notice for Basin 11, mailing Group 2, which encompasses Bear Lake.

Claimant claims equitable title to storage in Bear Lake in accordance with *U.S. v. Pioneer Irrigation District*, 144 Idaho 106 (2007). Based on that decision, PacifiCorp holds nominal legal title and Claimant holds equitable title to storage water in Bear Lake. Claimant anticipates that PacifiCorp will be the named owner of the storage water right in Bear Lake, and that Claimant's equitable title will be memorialized with a condition on the BRBA partial decree as prescribed in *U.S. v. Pioneer Irrigation District*.

Assuming Claimant's interest is memorialized with a condition, it seems unnecessary for Claimant to file a claim to a storage water right in Bear Lake. Rather, Claimant's interest can be protected by the inclusion of a condition on the claim filed by PacifiCorp.

Claimant is currently working with PacifiCorp in an effort to ensure that the claim to a Bear Lake storage right filed by PacifiCorp properly recognizes Claimant's equitable title to Bear Lake storage. Claimant anticipates that these discussions will not be completed by the December 8, 2023, claim deadline for Basin 11, mailing Group 2.

In the event PacifiCorp files one or more water right claims for Bear Lake storage that do not acknowledge, to the satisfaction of Claimant, its equitable title in Bear Lake storage, Claimant may need to file its own claim for storage in Bear Lake. In the event Claimant is required to file its own claim, the filing fee under Idaho Code 42-1414(1)(b)(i) will be calculated based on the irrigated acres within Claimant's service area. Since the BRBA Court has not yet filed a commencement notice for the place of use of Claimant's water rights, and due to the large and complex service area of Claimant's water rights, Claimant has not completed an accounting of all irrigated acreage within its service area.

Therefore, Claimant respectfully requests pursuant to Idaho Code Section 42-1409(8) that the time for filing Claimant's notice of claim for storage water in Bear Lake, if necessary, be extended to the deadline set forth in the Commencement Notice issued by the BRBA Court for the area encompassing the place of use of Claimant's water rights.
