If NONUSE is desired for all or a portion of the permitted livestock numbers, application must be made on the face of this form and the reason stated. Nonuse may only be granted for the following reasons: (1) Conservation and protection of the Federal range, (2) annual fluctuation in livestock operations, or (3) financial or other reasons beyond the control of the licensee.

TERMS AND CONDITIONS

It is understood that the terms of and the rates of charge for the permit or license to be issued pursuant to this application will be established in accordance with the provisions of the Federal Range Code as approved by the Secretary of the Interior. If I desire any use of the Federal range different, either as to time or numbers, from that requested in this application, I will notify the Range Manager in writing of the change desired at least 30 days before the beginning of each grazing period (season) described herein. It is agreed that failure on my part so to notify the Range Manager will result in my being liable for the full grazing fee even though I make no use or only partial use of the range, provided the range is available and useable.

If the request is granted in whole or in part, I agree to accept such allowance without waiving right of appeal.

I hereby agree that I will graze my stock on Federal range within the areas specified in the permit or license; that I will obey and support all the laws and regulations governing the Federal range; and that I will pay for all damages sustained by the United States through any violation by myself or my employees of such laws or regulations or of the terms or conditions of the permit or license resulting from this application.

I certify that the foregoing answers and statements are true and correct to the best of my knowledge and belief.

Gentlemen:

In considering your application for grazing privileges, I remember discussing the matter of your sale of certain base properties last year with Elmo.

As you may or may not know, the Federal range privileges are attached to the land and if you sold these base properties, the person acquiring the base properties would be entitled to that portion of your Federal range use these lands have previously held. As I have no description of the lands sold, I cannot at this time tell whether they were originally a part of your base properties or not. If such is the case, we should meet with you and make the necessary arrangements to have this range right transferred from the ranch you sold to your new place.

I expect to be in Cambridge sometime in the early part of April and will discuss this matter further with you. However, your application for 200 cattle for a longer period of time exceeds your established use, therefore, 20 head of cattle must be rejected as shown on the attached form I-404. Any question you may have, I will be glad to take up with you when I visit your ranch.

Very truly yours,

Wilfred H. Quinn, District Grazier

Dear Mr. Edwards:

Your current grazing permit, authorizing you to graze Horse Flat Allotment #95 and Dotson Allotment #96, expires February 28, 2003. Your based property lease from Melvin Dotson also expires February 28, 2003.

The enclosed application for Grazing Permit Renewal describes your current permit. If you would like for your grazing permit to be renewed, the enclosed application must be signed (on the second page) and returned by the date shown on the application. We will also need a copy of your renewed base lease property lease agreement. We cannot process a permit renewal without a renewed base property lease. A self-addressed envelope has been included to help this new process move along faster. Once the signed application and renewed base property lease are received, we can begin the process of renewing your grazing permit.

Current Grazing Regulations require a properly authorized grazing permit plus an annual application followed by a paid grazing fee before allowing livestock to graze on public lands. Not until all documents (signed Grazing Permit Renewal Application and, if applicable, a properly executed base property lease agreement or renewal) are on file - can we begin processing your permit renewal. It is important that you maintain the timeliness in returning your application and, if needed your base property lease, if you intend on grazing your allotment this coming grazing season.

If you have any questions in regards to Grazing Permit Renewal Applications or this new process of permit renewal, please contact Mary Clark, your Rangeland Management Specialist, at 208-384-3375.

Sincerely,

Daryl L. Albiston

Good Afternoon,

I was able to find some information. Not sure if all information is what you are looking for. In the early 1900's we don't have very much info at all, in fact the very first brand book that we have a physical copy of doesn't start until 1936, so anything prior to that we would not have record of.

Melvin Dotson (Cambridge) was approved for his brand on March 22, 1949

M/D

It appears the brand was transferred to a CR Edwards (Cambridge) in 1955 before eventually being transferred back to Melvin Dotson later on down the road.

There is a brand recording for a CR Edwards (Cambridge) in our 1936 Brand Book

A

There is a brand recording for a Charles R Edwards (Cambridge) that was recorded on July 15, 1949

There was a recording for "L Braden" in our 1936 Brand Book, but it says he was located in Council ID (Adams Co)

I was **unable** to find any brands recorded with the name of "**David G. Edwards**"

I was **unable** to find any brands recorded with the name of "**Anna Edwards**"

I was **unable** to find any brands recorded with the name of "**Franklin B Hardy**"
