12. Remarks:

Priority Date Explanation:

This is the date given with the license.

If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

After specific notification by the department, the right holder shall measure the diversion or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
