RE: Application for water right permit no 96-16650

Mr. Staker,

On July 15, 2023, you applied for a water right permit. Your application proposes a diversion from Lake Pend Oreille to use water for “domestic” purposes. The description of the domestic use appears to be more accurately described as irrigation.

I have enclosed an amended application for your consideration. If the water from Lake Pend Oreille will only be used for lawn and garden irrigation, then this amended application is more appropriate. The only things that have been changed are the description of the water use and the diversion rate. The diversion rate was reduced from 0.02 cfs to 0.01 cfs to account for a standard irrigation rate ($0.03 \text{ cfs/acre} \times 0.1 \text{ acres} = 0.01 \text{ cfs}$).

Please let me know if you have any questions. If you agree to the changes on the amended application, please sign and return to the address at the top of this letter. Otherwise please provide additional information about the domestic use you propose.

Thank you for your time and for your attention to this matter.

Sincerely,

Cody Parker

Water Rights Supervisor
