11. Other Water Rights Used:

12. Remarks:

Priority Date Explanation:

This is when the family had the farm and began using the springs for stockwater use. Filed with the Idaho Falls office a notice to divert the water out of the stream into troughs.

Stockwater use is for 75 cow/calf pairs (150 total).

This water right includes a point of diversion established in accordance with a notice filed under the provisions of Idaho Code § 42-113(3). Diversion and use of water from this point of diversion shall not exceed 13,000 gallons per day for stockwater use. The water delivery system established in accordance with this notice shall be fully enclosed and shall be equipped with an automatic shutoff valve or a mechanism for returning unused water to the source through an enclosed water system. The water delivery system shall be designed to facilitate measurement of the rate of flow through the system.
