RE: Field Exam Recommendation

Permit 96-12641 authorizes 0.17 cfs for domestic use from ground water and meets the criteria for license without an in the field examination and measurement. However, the permit is for 14 homes on 13 lots in Highlands Subdivision. Systems of this size are typically regulated by IDEQ as public drinking water systems and generally more complex then domestic use systems serving less homes. Due to the tree cover, multiple homes on lots, and the total number of homes serve a field examination should be conducted.
