Re: In-office Exam Review

The completed Proof of Beneficial Use and fee were received December 4, 2023, submitted, and signed by Nick Wenker, Vice President, Essential Oil Research Farm, LLC. In section 3 of the statement of completion the permit holder stated that the use developed is 1 domestic household and "domestic use in large and RV connections. Commercial in greenhouses."

A POU/POD overlap comparison found overlapping Domestic and Commercial rights (see table below). The proof submitted does not identify the buildings, provide details of the greenhouse water needs, or provide system details regarding the 2 wells added through the permit. The application stated that they were seeking to develop greenhouses, 15 RV hook ups, a kitchen, showers, and laundry facilities for up to 25 seasonal workers. Commercial use seems to be a better fit for all uses applied.

This permit would benefit from a field exam to gather important details of the system and use developed. A field exam would also provide details to determine how the overlapping rights, the facilities, and wells interact.
