2. Source of Water Groundwater If Ground Water (well), Date Drilled mo. See Exhibit A / yr. See Exhibit A
Drilling Permit/Tag No. See Exhibit A Drilling Company's Name See Exhibit A

3. Extent of use(s) completed as authorized by the water right permit:

Domestic (No. households) _____ Irrigation (No. acres) _____ Stockwater (No. and stock type) _____
Other Industrial

4. Total diversion rate or volume (storage only) for which proof is submitted 3.0 cfs OR 700 af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

The Wells in Section 6 are the primary sources of water for the industrial plant. Remaining wells are alternate points of diversion should the wells in Section 6 fail. All wells equipped with vertical turbine pumps, motors, and are connected with underground pipelines.

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 63-33207

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Amanda Veibell

MEMORANDUM

To: Water Right File No 63-32680, 63-33207, 63-33296, 63-34038, 63-34221, and 63-34202

Re: Annual Monitoring Report CS Development, LLC (J R Simplot Co) Review

Intro

On April 27, 2023, HDR Engineering, Inc. (HDR) submitted 2022 Monitoring Report for Water Right Permit Nos. 63-32680, 63-33207, 63-33296, 63-34038, 63-34221, and 63-34202 ("Report") with excel files containing water level data. HDR submitted these items on behalf of J R Simplot Company, the permit holder of the above-mentioned (six) rights.

Annual reports are a requirement of the Monitoring, Recording, and Reporting Plan for Permits 63-32680 and 63-33296. (A copy of the monitoring plan can be found in water right file 63-32680). On demand reports are requirements of permits 63-33207, 63-34038, 63-34221, and 63-34202.

In summary, the annual monitoring plan requires annual reporting of any physical changes to the works; monthly and total volumes diverted during the reporting period; depth to water in all wells prior to pumping and during pumping; submittal of raw data in MS Excel and hydrographic analysis of the raw data. The on-demand reporting for 63-33207, 63-34038, 63-34221, and 63-34202 require similar submittals.

Conclusions

The reporting plan for the above-mentioned permits have been satisfied. Please see the report for all specific numerical values and details regarding physical changes to the works; monthly and total volumes diverted during the reporting period; and depth to water in all wells prior to pumping and during pumping.
