**STATEMENT OF COMPLETION**  
FOR SUBMITTING PROOF OF BENEFICIAL USE

## FOR OFFICE USE ONLY

Amt. of Fee \$ 50.00  
Receipt No. N0443913  
Received By NS  
Date Received 2/29/24

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 95-17800 Name of Permit Holder(s) CHERYL TELOW  
Telephone No. (208) 661-8659 Email \_\_\_\_\_  
Mailing Address 536 NORTHERN SKY RD City ATHOL State ID Zip 83801
2. Source of Water GROUNDWATER If Ground Water (well), Date Drilled mo. 07 / yr. 2020  
Drilling Permit/Tag No. D0084857 Drilling Company's Name HORSLEY DRILLING INC
3. Extent of use(s) completed as authorized by the water right permit:  
Domestic (No. households) 4 Irrigation (No. acres) 4 Stockwater (No. and stock type) \_\_\_\_\_  
Other \_\_\_\_\_
4. Total diversion rate or volume (storage only) for which proof is submitted 0.20 cfs OR \_\_\_\_\_ af  
*If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.*
5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)  
PUMP IN WELL WITH STORAGE TO 4 HOMES

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

- ☐ ☒ Ground water level data, pumping information, or other diversion data  
☐ ☒ Mitigation plan  
☐ ☒ Lockable controlling works  
☐ ☒ Measuring device  
☐ ☒ Fish screen  
☐ ☒ Other requirements of the water right permit \_\_\_\_\_

☐ ☐ Reasonably Anticipated Future Needs ("RAFN") Municipal use

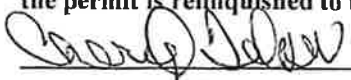

If RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No

7. Fee Enclosed \$ 50.00 or ☐ CWRE field report attached or ☐ No fee required  
*See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.*

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: CHERYL TELOW Telephone No. (208) 661-8659 Email \_\_\_\_\_  
Mailing Address 536 NORTHERN SKY RD City ATHOL State ID Zip 83801

**The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.**

# MEMORANDUM

April 01, 2024

Water Right: 95-17800

Author: Bob Howe- Water Resource Agent

Subject: In-Office Examination Attempted- Field Examination Needed

---

After reviewing the statement of completion and aerial imagery I reached out to the permit holder to request a map identifying the irrigated areas and labeling the structures. Over several weeks emails and phone calls with the permit holder have not resulted in adequate documentation to complete an in-office examination. There are labels for areas citing lawn irrigation, the buildings are labeled on a map, and there is a bathroom in one of two "tiny houses" located within the domestic POU. However, the actual area irrigated is evident and the permit holder stated that there are no sprinklers at this time. I am unable to determine the irrigation POU and the extent of the domestic usage based on the information provided by the permit holder. The right is being returned to the Norther Regional Office to schedule a possible future field examination.

---

I blew this up a little in hopes it would be easier to read. As for sprinklers there are not any at this time. Im sure there will be sometime down the road but as for now, there is not any that I am

aware of. I think you were thinking that the pump house was a tiny home, it is where the barrels that store the water. I hope this explains what you need. If not feel free to let me know.

There is not going to be grass around the shop. And there is only 1 tiny home and yes it has a full bath. I am not where I can work on that today so I will try again over the week end.

Hi Cheryl,

Thank you for identifying the structures in the place of use. I am still not sure I can identify all the grass and garden areas, usually the permit holder outlines the areas they are watering. Is the watering limited to only the areas surrounding the homes? For example your shop has a cleared area around it, is that area irrigated? Could you please outline the areas watered on one of the images?

Also, you identified 2 tiny houses, do these houses have water? If so, please describe the usage in each, such as "full bathroom (shower, toilet, and sink) and a kitchen sink".

Thank you for working with me to process your license. Feel free to reach out with any questions or concerns.

Best Regards,

**Bob Howe**

I hope this is what you need. let me know if not.

Thank you

Cheryl Telow

Dear Cheryl Telow,

The Department received the Proof of Beneficial Use you submitted for permit #95-17800. I am currently reviewing the permit eligibility for an in-office examination for licensing. In-office examination expedites the licensing process by using information and documentation submitted by the permit holder(s) and GIS aerial images to process the examination without the need for a field examination to be scheduled and conducted at a later time. The permit issued provided a scope for the development of future uses. The purpose of the examination is to record the details of the use that has been developed.

After reviewing your Proof of Beneficial Use, there are a few items in need of further information or clarification.

(1) The aerial imagery indicates less than 1 acre of area is irrigated; other areas appear to be riparian and under tree cover (see attached image). On section #3 of the Statement of Completion you stated that the extent of the irrigation use developed is 4 acres. Please outline the irrigated areas on the attached 2023 aerial image of the permitted place of use (outlined in light blue).

(2) Please provide a sketch of the system diagram from the point of diversion to delivery for the irrigation occurring. Making sure to identify the **boundary of the area(s) irrigated, sprinklers, water lines** (including dia. and type, for example ½" poly pipe), the **pump (including the Hp, make and model)**. This can be drawn on one of the images I have attached to this email, or you may use your own. Then attach the diagram to an email with any additional information regarding the system and/or that would be helpful in describing the system diagram.

**Please note**, section 4 of the Statement of Completion states "If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24cfs or less, **attach a map of the place of use and point of diversion , and photographs showing beneficial use.**" The statement of completion is for 4 acres of irrigation and a total diversion rate of 0.20cfs, making a map and documentation necessary for a license to be processed. Feel free to reach out to me with any questions or concerns regarding the items requested. If I am unavailable any of my team members should be able to assist you, if you provide your permit # 95-17800. It is important that you **respond to this request within 14 days** by email and/or phone, in order to pursue this method to expedite your licensing process.

Thank you for your time and attention in this matter.
