MEMORANDUM

Date: 4/9/2024
To: WR Permit No. 98-8102
From: Skyler Cheever – Water Resource Agent
Re: Field Examination Recommended for Permit 98-8102

The Department received Gene and Mary Hooley's Statement of Completion for Proof of Beneficial Use for permit 98-8102 on March 27th, 2024, with the beneficial use processing fee received the same date. The permit authorized stockwater for 10 Mixed Stock and the irrigation of two acres. This permit qualifies for an in-office examination. The permit was signed on March 23rd, 2023. Therefore, the development period would be from March 23rd, 2023, to March 27th, 2024. After an initial review it was concluded 2023 imagery wasn't clear enough to determine the extent of irrigation development (Figure 1). According to Tax Parcel Data the property was developed in 2020. Unfortunately, there isn't currently any imagery from 2020-2021 indicating the extent of irrigation development. Therefore, I am recommending proof be accepted and a field examination be conducted to determine the extent of irrigation development.

Initial Review of 2023 Imagery
