STATEMENT OF COMPLETION

DEPT. OF WATER RESOURCES

FOR SUBMITTING PERMITS OF BENEFICIAL USE

FOR OFFICE USE ONLY

Amt. of Fee \$ 50.⁰⁰Receipt No. NO44828Received By [Signature]Date Received 7-17-24

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 95-17822 Name of Permit Holder(s) Joy ShantzTelephone No. 986-205-0081 Email joyshantz@gmail.comMailing Address PO Box 507 City Bayview State ID Zip 838032. Source of Water Bayview Creek If Ground Water (well), Date Drilled mo. ____ / yr. ____

Drilling Permit/Tag No. ____ Drilling Company's Name ____

3. Extent of use(s) completed as authorized by the water right permit:

Domestic (No. households) 1 Irrigation (No. acres) .5 Stockwater (No. and stock type) ____

Other ____

4. Total diversion rate or volume (storage only) for which proof is submitted 0.012 cfs OR .012 at \$
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

3" pipe gravity fed water from creek to approx. 12' x 22' x 2' storage pond that overflows back into creek. Irrigation water is pumped from pond via garden hose & sprinklers to use areas

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

☐ ☐ ☒ Ground water level data, pumping information, or other diversion data☐ ☐ ☒ Mitigation plan☐ ☐ ☒ Lockable controlling works☐ ☐ ☒ Measuring device☒ ☒ ☐ Fish screen☐ ☐ ☒ Other requirements of the water right permit ____☐ ☒ Reasonably Anticipated Future Needs ("RAFN") Municipal useIf RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No7. Fee Enclosed \$ ____ or ☐ CWRE field report attached or ☐ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: Joy Shantz Telephone No. 986-205-0081 Email joyshantz@gmail.comMailing Address PO Box 507 City Bayview State ID Zip 83803

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

STATEMENT OF COMPLETION

Permit No. 95-17822

Name: Joy Shantz

Above: Bayview Creek - point of diversion. Water runs freely through this area.

3" pipe with 1/4" screen cap at diversion intake point. Pipe is partially covered with rock at creek location and buried underground between creek and pond.

Left: This is the point where the creek water enters the pipe that runs to the pond. Water levels vary so this can be completely under water at times, to approximately 1/3 of cap surface coverage.

Left: This is where the pond overflow is located. The pond water keeps flowing and the pond never floods, as it flows directly back into the creek.

Bridge over the creek is 2.5 ' above high water.

Bridge over the pond provides needed shade.

Idaho Department of Water Resources STATEMENT OF COMPLETION

Permit No. 95-17822

Name: Joy Shantz

Point of gravity fed water entry in pond.

South side of bridge over pond showing water intake area. Point of Diversion from the creek is behind the log stump.

THE PUMP is located on the north-west side of the pond bridge. A mesh screen surrounds the intake pipe where it is located under water.

The electric pump is a third HP. A connector attaches 2 hoses to the pump, which can be used separately, together, and at adjustable output levels.

The hose reaches a corner of the property to water a small garden, blueberry and raspberry bushes.

Many types of sprinklers are used to deliver the irrigation water to its destination.

Irrigation is used from the storage pond to water the lawn, fruit trees, garden, berries, shrubs and flowers. It is also defense for a fire safe zone.
