4. Point of Diversion:

Township	Range	Section	¼ of ¼ of ¼	Lot	County	Type
13S	43E	9	SE SW		BEAR LAKE	
13S	43E	15	NW SE		BEAR LAKE	Beginning
13S	43E	15	NW SE		BEAR LAKE	Ending

5. Description of diverting works:

The point of diversion is a cement structure with headgates that divert water down 2 separate ditch systems that utilize old creek channels. Then there is another dam on this ditch system that is used to back up the water and spreads the water towards our pump location, which is a culvert and dike. When the water backs up it is also used to flood irrigate a portion of the property, approximately 44 acres. The pump is used to sprinkler irrigate approximately 84.6. Instream stockwater.

6. Water is used for the following purposes:

10. Do you own the property listed above as place of use? Yes

If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

The 84.6 sprinkler portion is also part of South Liberty Irrigation Co.

12. Remarks:

Priority Date Explanation:

This is the original claim priority date for the statutory claim. In 1962 an electrical system was put in on the property which powered the irrigation pump and use began. The flood irrigation began before this time, but we currently do not have evidence to support this. In 1962 the sprinkler irrigation began. We are claiming the same date for both irrigation uses because the earliest they both were used together was 1962. Instream stockwater use began at the same time as the irrigation use. Statutory claim was originally for just the sprinkler irrigation and previous owner did not file for the flood irrigation portion. We are claiming it all under the one system.

13. Basis of Claim: Statutory Claim
