5. Description of diverting works:

Water is diverted from the Thomas Fork by a head gate into a ditch that crosses the neighbor's property onto our property. The water naturally floods the property, in some places we have placed culverts and floodgates to help turn the water out of the ditch and flood the fields. Water runs mostly from the ditch back to the Thomas Fork. We can run a little water west of the ditch, but not very far. Previous land owners did use tarp dams in the ditch to flood irrigate, we haven't since we bought the property.

10. Do you own the property listed above as place of use? Yes

If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

11-7535, 11-7537, 11-7543

12. Remarks:

Priority Date Explanation:

This is the date given with the decree. We bought the property around 2000. The prior property owner was using the ditch for flood irrigation to irrigate the entire property. We have continued to use the system in the same way. We believe that this water right's place of use included the ground farther south than what was originally documented. We have claimed the ground where it is being irrigated and to the best of our knowledge has always been irrigated because the ground west of the ditch is generally uphill and cannot be flood irrigated.

Rights 11-7535, 11-7537, 11-7539, 11-7541 and 11-7543 when combined shall not exceed the irrigation of 285.2 acres.
