MEMORANDUM

February 08, 2024

Water Right: 98-7930

Author: JShearer

Subject: Petition for Reconsideration

Water right 98-7930 was licensed 12/26/2023. Subsequently, a petition for reconsideration was submitted by the Isaacs on 1/19/2024 disputing the final licensing recommendation. In evaluation of the application, permit, in-office review, and speaking with Mr. Delton Isaac it is apparent to me that permit 98-7930 should have been two separate permits and two subsequent licenses. The original application for permit detailed two springs providing water for domestic, stockwater, and irrigation purposes. "Spring 1" was developed and provided water for domestic purposes to one home and stockwater purposes for 5 head of stock. "Spring 2" was developed and provided water for irrigation purposes of 0.1 acres. In licensing permit 98-7930, there seems to have been some confusion in communication between the water resource agent and the permit holder while conducting the in-office review, resulting in only the irrigation from "Spring 2" being licensed while the domestic and stockwater uses were not a part of the recommendation. In my review, since the two springs are separate systems, it is my recommendation that permit 98-7930 be split into two water rights with one right from "Spring 1" being for domestic and stockwater purposes for the department standard rates and volumes, and the second right from "Spring 2" being for irrigation of 0.1 acres and 0.01 cfs.

RE: License No. 98-8127

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4920.

Sincerely,
