mileage to and from District meetings, at the current allowable federal mileage rate, as well as any other necessary expenses incurred by these Officers deemed appropriate for reimbursement by the Advisory Board.

RESOLUTION NO. 13

A motion, to be made and seconded, to authorize the Watermaster, with the consent of the Advisory Board, to acquire, hold and disburse of real and personal property, equipment and facilities in the name of Water District No. 65 as necessary for the proper distribution of water.

RESOLUTION NO. 14

A motion, to be made and seconded, that the water users of Water District No. 65 hereby adopt the following policies for the operation of the 2024 Water District No. 65 Advisory Board:

The Advisory board shall conduct regular bimonthly meetings on the second Tuesday of every other month or as often as deemed necessary by the advisory board. The Advisory board may set the District's annual meeting date between the second Monday and the last day of January each year. The Advisory Board should foster open communications and participation within the Water District No. 65 in a cooperative manner in order to strengthen the positions of the water users of the District. The Advisory Board will operate and vote on issues by consensus or agreement of all members in attendance. If an issue is unresolved through consensus or becomes too divisive, the issue will be tabled until a future meeting when consensus is reached. Otherwise, the issue may be voted on at the next Annual or Special Meeting of the District, if necessary.

RESOLUTION NO. 15

A motion to be made and seconded, that the Advisory Board shall determine during the regular November meeting if all funds within the Facility Improvement Incentive Program Budget will be utilized during that budget year. Funding determined to be uncommitted or released from other projects may become eligible for reapplication by large projects previously funded at a level less than 50 % (as determined by Resolution No.10). At the discretion of the Advisory Board these uncommitted funds may be directed to one or more project, limiting the total combined cost share expenditures to a level not to exceed 50% of the project cost.

RESOLUTION NO. 17

Preservation of Physical Reservoir Storage

WHEREAS, the Lake Reservoir Company and the Bureau of Reclamation on behalf of the space holders of the Payette River Basin reservoirs, have filed storage Refill Rights 1 and 2; with the Idaho Department of Water Resources in the Payette River Basin (administrative Basin 65); and

WHEREAS, Water District 65's water supply function relies in substantial part upon reservoir storage water rights that are essential to the district's ongoing operations; and

WHEREAS, the Idaho Department of Water Resources and the Basin 65 Watermaster have historically condoned and facilitated this storage and used a physical refilling of the reservoirs after a flood control release as an administrative practice though also asserting that the practice is not supported by a legally defensible water right or perfected property interest in that water; and

WHEREAS, the water users of Water District 65 support the preservation of the legal right to store water for beneficial irrigation use, and the right to receive water from storage for irrigation use in accordance with the priorities of established and existing storage and natural flow water rights.; and

THEREFORE, BE IT RESOLVED, The water users of Water District 65 support the need to settle and resolve the physical refilling of the reservoirs after a flood control release in the Payette Basin such that the storage and end beneficial use of water during and after flood control operations is protected by a valid, perfected, and legally defensible water right (or rights) so that future growth and water development in the Payette River Basin

is orderly, and occurs without detriment or injury to existing water rights, reservoir operations, and uses of water consistent with the historic status quo in the basin.

THEREFORE, BE IT RESOLVED, the water users of Water District 65 support The Refill 1, Refill 2 water right applications submitted by the Bureau of Reclamation and Lake Reservoir Company in the Payette River Basin (Administrative Basin 65), and all efforts to secure "Refill 1" and "Refill 2" water rights in the Payette River Basin, and to defend and preserve the ongoing utility of existing storage water rights and reservoirs in the basin against future water appropriations threatening that ongoing utility and operational status quo.

These Resolutions, numbers 1 through 17, are hereby adopted at this Annual Meeting to serve the Payette River Basin, Water District No. 65, through the Water Year 2024.
