11. Other Water Rights Used:

12. Remarks:

Priority Date Explanation:

To the best of my knowledge, that's when the original water right claim was filed for the Bear River. Claimed date is the same as the statutory date. Claimed legal descriptions in 14S45E36 NENE and NWSE have begun being built in the last year but are not complete.

The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

Water is delivered through Miller Ditch.

Approval of Transfer 85880 does not confirm Claimed Right 11-7482.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Stockwater use is for 800 range cattle.

This right does not grant any right-of-way or easement across the land of another.

The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.
