Shared Use Well Agreement

COMMON WELL USE AGREEMENT
AND
DECLARATION

This Well Use Agreement and Restriction is created by the common owner of Parcel A, commonly known as 619 E. Homedale Road, Caldwell, Idaho 83607 ("the supplying property") and Parcel B, 609 E. Homedale Road, Caldwell, Idaho 83607 ("the supplied property").

Whereas, Tammy L. Torrey is the common owner of Parcel A and Parcel B and desires to create a common well use agreement and common water right for the benefit of both parcels. This agreement shall create an agreement for future use of the common well now located on Parcel A of the property. Said agreement may be recorded in the real property records of Canyon County, Idaho and shall constitute a binding restriction on deeds to said parcels.

WHEREAS, the supplying party has an approved well water right described in the permit attached hereto as Exhibit C, and

WHEREAS, the supplied party has an application pending with the State of Idaho, Department of Water Resources to share in the common well under and Application for Permit described in Exhibit D.

THEREFORE, the common owner, Tammy L. Torrey, hereby creates a common use operating agreement with the use of maintenance of the common well that shall control upon approval of the Application for Permit by the Idaho Department of Water Resources. This water right and use shall become effective immediately upon approval of the permit by the Department.

In the event that such an application is not approved, Tammy L. Torrey reserves the right to amend the common use operating agreement for both parcels to conform with any application changes approved by the Department of Water Resources.

The owners of any property described in Parcel A or B agree to be bound by this use and maintenance agreement upon the following terms and conditions:

1. That until this Agreement is terminated, as hereinafter provided, the parties hereto, their heirs, successors and assigns, for the exclusive benefit of the respective parcels of real estate, and for the exclusive use of the household residing thereon, are hereby granted the right in common with the other parties to this Agreement, to draw water from the well located on for ordinary domestic use.

That the owners or residents of the dwelling and existing commercial property (on Parcel B) shall:

- a. Pay or cause to be paid to the supplying party, an annual or quarterly fee for this use of the well and water distribution system;
- b. Pay or cause to be paid promptly, a proportionate share of all expenses for the operation and maintenance of the well and water distribution system that may become necessary.
- c. Each respective share shall be determined by dividing the amount of each expense by two
- d. Shared expenses include the cost of electricity for pumping, repairs, and maintenance on said well and water distribution system.

2. That each of the parties hereby agrees that they will promptly repair, maintain and replace all water pipes or mains serving their respective properties.

3. That the consent of all parties to pay a proportionate share of costs shall be obtained prior to embarking upon expenditures for system maintenance, replacement or improvement, except in emergency situations. An arbitrator shall be chosen by the parties; shall be consulted in the event the parties cannot agree regarding the said expenditures; and the arbitrator's decision shall be definitive.

4. That each of the parties to this Agreement does hereby grant to the other, his heirs, successors and assigns, such easements over, across and through the respective parcels as shall be reasonably necessary for the construction of the well, maintenance of water pipes, pumping equipment, mains, electrical wiring and conduit consistent with the purposes of this Agreement.

5. That no party may install landscaping or improvements that will impair the use of said easements.

6. That each party shall have the right to act to correct an emergency situation and shall have access to the pertinent parcel in the absence of the other.

7. That each owner shall not exceed their allocated use as approved by the Department.

8. That each owner shall not increase their existing use of the water right to the detriment of the other common owner.

9. That the parties may amend this Agreement to assure equitable distribution of shared costs and responsibilities; however, this Agreement may not be amended during the term of a Federally-insured (direct) or guaranteed mortgage on any property served, except as provided herein, for the purpose of adding to the prescribed number of parties.

10. That the benefits and burdens of this Agreement shall constitute a covenant running with the parcels of land herein described and shall be binding upon the heirs, successors in title and assigns of the parties hereto.

11. Any dispute under this Agreement shall be required to be resolved by binding arbitration of the parties hereto. If the parties cannot agree on an arbitrator, each party shall select one arbitrator and both arbitrators shall then select a third. The third arbitrator so selected shall

arbitrate said dispute. The arbitration shall be governed by the rules of the American Arbitration Association then in force and effect.

IN WITNESS WHEREOF, the common owner of the Parcel A and B sets her hand and seal on the date set forth below.

Re: Change in Ownership for Water Right No(s): 63-26587

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208)287-4920.

Sincerely,

Catalina Beck
