NOTES:

- 1). The Basis of Bearing for this survey is N00°31'18"W along the East line of Section 3 between the monuments found at the Northeast section corner and the East 1/4 section corner, as shown hereon.
- 2). This survey was performed using a Topcon Hiper V GPS with a Topcon FC-5000 data collector, and a Topcon QS3A total station with a Topcon FC-5000 data collector.
- 3). This survey has an unadjusted mathematical error of closure less than the legally allowed maximum of one (1) part in five thousand (5000).
- 4). No attempt was made to show all the physical features of the property or all easements, recorded or unrecorded, written or unwritten.

NARRATIVE:

The purpose of this survey was to monument and document the boundary of the subject property described in Warranty Deed Inst. 890390 (R11). The boundary of the parcel is controlled by four items that required retracement. They are:

- 1). The right of way of State Highway 12 (before realignment occurred in 1982). Although ITD as-built drawings (R1) indicate several right of way monuments, none were found. Reconstruction of the right of way was accomplished by locating the existing highway centerline, parts of right of way fencing, and record ties to the East 1/4 corner. To the West, we held a right of way pin set by PLSS 7379 as shown. It should be noted that the centerline alignment shown hereon runs in close proximity to the Southerly existing roadway shoulder. Additional information obtained from ITD (R13), specifically an exhibit map, support this relationship.
- 2). The South boundary of the subject parcel is controlled by a previous metes and bounds boundary line agreement and was constructed by recovering monuments and fencing along said boundary, as shown.
- 3). The West boundary of the parcel is controlled by the location of the West boundary of Government Lot 6, necessitating a partial breakdown of the section. This was accomplished with the recovery of found PLSS corners as shown hereon and referenced by various prior surveys that are listed in the reference table.
- 4). The East boundary of the parcel is called out as lying "West of Big Canyon Creek". The creek is too deep and swift to collect data at the center of the stream, so the West bank was surveyed and is shown hereon.

Re: Change in Ownership for Water Right No(s): 85-11194 & 85-11197

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Sincerely,

Jean Hersley
Technical Records Specialist 2
