F. VOLUME CALCULATIONS

1. Volume Calculations for irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses: domestic in-house and up to ½ acre of irrigation 1.2 af per Administrative Application Processing memo # 22.

G. NARRATIVE/REMARKS/COMMENTS: This qualified for an in-office exam because the irrigation portion (6.1 acres) of the permit was not developed. This permit was approved in 2014 with a proof due date of April 1, 2019. An Extension of Time to Submit Beneficial Use was filed in December 2018 and approved which advanced the proof due date to April 1, 2024. Statement of Completion was submitted for the domestic use only. Aerial imagery confirmed that no irrigation has taken place.

There are several rights and permits in the name of the City of Eagle that overlap the POU of this right.

63-12448, 63-11413 (municipal) are licenses from groundwater. 63-32573 (municipal, municipal storage, municipal from storage and diversion to storage), 63-33876 (municipal) are permits from groundwater and 63-33878 is a pending application for municipal from groundwater.

No other rights overlap with the POD. Volume will be 1.2 af for in home use and up to ½ acre of irrigation. There appears to be plants and/or bushes that may have been watered.

Removed conditions 26a and 046. Replaced 121 with 103. Removed WB5 and replaced with X01 and 187.

Have conditions of permit approval been met? ☐ Yes ☒ No
