$$V_{D.R} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R} \text{ and } V_{D.R} =$$

2. Volume Calculations for Other Uses: 1.2 af for domestic and up to ½ acre of irrigation per Administrative Application Processing Memo # 22.

G. NARRATIVE/REMARKS/COMMENTS: ArcMap and Bonner County show dwelling on property and list permit holders trust as current owner. There are no overlapping rights with the POU or POD.

Pictures provided with proof of beneficial use show the spring, the PVC pipe from spring to cistern and outdoor faucets. Fish screen has also been installed. Removed condition 029.

The POU was updated to only include the house and yard around the house, not the entire parcel.

Proof states that 2 acres are being irrigated but there is no evidence to show that. I will leave the ½ acre of irrigation as a condition and let the current owner know if he is irrigating more he will need another permit.

Have conditions of permit approval been met? ☒ Yes ☐ No

Subject: water permit 63-34732

The Department of Water Resources (Department) is in the process of reviewing your permit for licensing. A few things need to be clarified before I can continue.

Permit 63-34732 is a domestic use for property located in Boise County. This permit was issued for use in Lot 2, Block 1, Eagle Ridge Subdivision. According to the Department's tax lot records and Boise County records, this property or place of use is within Lot 2 Summit View Subdivision. Which is correct? Did the Eagle Ridge subdivision change to Summit View recently?

Does BLM own or have they ever owned the land where this home is?

Would you take pictures of the spring box and tank that the water is pumped into? You can provide them by responding to this email. Please provide the requested information within 14 days. Thank you.
