RE: License No. 72-16967

Petition For Reconsideration

I would ask that you reconsider the use of water on both the North East and South East corners of our permit.

On September 26, 2023 after setting my pump and running water for a half an hour, I turned it off and called Cory Skinner in your Twin Falls office to ask what I needed to do to prove up on my permit. He told me that in view of the time of year it likely wouldn't be looked at until spring.

The North East corner already had pipe run to it, and had water run through it. The small piece added on the South East had been tilled, leveled, and planted with a pasture mix that was watered with our domestic well.

My only concern is that the "Attachment to Water Right" imaging that Bob produced indicates that I can't irrigate those spots.

Thank you for your consideration

Lloyd Carr

RIGHT OF WATER RESOURCES

I would like that you should be
use of water on with the water level
last first corner of the property
On September 18, 2023, we received
a letter from the water company
that we had to pay for water
on the property. I turned it off and called
the water company to let them know
that we had no water on the property
and that we had no meter on the property.
I told them that we had no water on the property
and that we had no meter on the property.
The water company said that they had no
record of the property and that they had
no meter on the property. I told them that
we had no water on the property and that
we had no meter on the property. They
said that they had no record of the property
and that they had no meter on the property.
I told them that we had no water on the property
and that we had no meter on the property.

Thank you for your attention
