Measured Method:

F. VOLUME CALCULATIONS

1. Volume Calculations for irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses: domestic for external use only. 0.6 af per Administrative Application Processing Memo # 22

G. NARRATIVE/REMARKS/COMMENTS: This permit qualified for an in-office exam. ArcMap and Bonner County lists permit holders as current owners and shows irrigation taking place since this is domestic use for external use only. The shape of 96-2241, 96-4447, 96-4496 & 96-9543 overlap this property, but it doesn't appear that they are appurtenant except possibly 96-9543, which is a municipal right in the name of the City of Dover. 96-11978 is a domestic right from groundwater. It is difficult to know if the GW right is for in-home use only. There are no rights that overlap the POD. Volume will be 0.6 af since this is for external use only. Removed condition 029. Statement of Completion states a fish screen has been installed.

Have conditions of permit approval been met? ☒ Yes ☐ No
