DEPARTMENT OF WATER RESOURCES
STATEMENT OF COMPLETION
FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY

Amt. of Fee \$ 50.00Receipt No. C117397Received By KuDate Received 11.24.23

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

- Permit No. 97-08748 Name of Permit Holder(s) SCOTT RALPH
Telephone No. 509-879-5773 Email scott@drscottralph.com
Mailing Address 14101 E Burnett Rd City Spokane State WA Zip 99217
- Source of Water Pend O'Reille River If Ground Water (well), Date Drilled mo. ____ / yr. ____
Drilling Permit/Tag No. ____ Drilling Company's Name ____
- Extent of use(s) completed as authorized by the water right permit:
Domestic (No. households) 1 Irrigation (No. acres) 2 Stockwater (No. and stock type) 2 GOATS NONE AS OF NOW NO WATER STORED
Other ____
- Total diversion rate or volume (storage only) for which proof is submitted 0.12 cfs OR ____ af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.
- Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)
PUMP WITH PRESSURE TANK. WATER IS DRAWN THROUGH A FOOT VALVE 100 FEET FROM HIGH WATER MARK. THE INTAKE LINE IS 1 1/2 INCH POLY.
- Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:
Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

☐	☐	☐	Ground water level data, pumping information, or other diversion data
☐	☐	☐	Mitigation plan
☐	☐	☐	Lockable controlling works
☐	☐	☐	Measuring device
☒	☒	☐	Fish screen
☐	☐	☐	Other requirements of the water right permit
☐	☐	☐	Reasonably Anticipated Future Needs ("RAFN") Municipal use

If RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No
- Fee Enclosed \$ 50.00 or ☐ CWRE field report attached or ☐ No fee required
See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.
- Person to contact to accompany a Department representative during the field examination of the water system:

Name: _____ Telephone No. _____ Email _____

Mailing Address _____ City _____ State _____ Zip _____

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

Explanation Of Attached Photos:

Each photo has a page number on the bottom right corner to coincide with the page numbers below.

Page 1: The yellow border is the property border. The blue border is the area currently irrigated.

Page 2: This picture shows the pressure tank and jet pump. The pump is a 1 gallon per minute model. The intake line is 1 ½" schedule 80 PVC. There is one outtake line going to a sprinkler system. There are two hose faucets, shown on page 6.

Page 3: This picture shows the intake line, from the foot valve, traveling through 1 ½" schedule 80 poly, connecting to 1 ½" PVC at a connection that is drained in the Fall to prevent freezing. The extra line is old and disconnected. The vertical lift is 10 feet into the pump.

Page 4: This picture shows the lawn being irrigated.

Page 5: More lawn being irrigated only to the front edge of the fifth wheel.

Page 6: Hose faucets and more lawn being irrigated. The fifth wheel is also connected to the nearest hose faucet during the summer.
