Sorry to be such a pain! I just got off the phone with Scott Luvaas at the IDWR regarding our water rights claim. Since we are watering 1 acre of lawn (I put 2 acres in my application as an estimate, my husband says its actually just an acre), then I need to split my permit and water rights process into two. Scott will process my water rights claim under the domestic use process. But, I need you to amend my permit application to be a permit for irrigation (since we already had a permit for domestic use), since we are watering more than ½ acre of lawn. Does that make sense and, assuming so, do you need anything from me to make that change?

Thanks again for your help! Hopefully, we are close to done! I'm sure you are thrilled you picked up my file!

Hi Skyler,

I see that our well is now properly mapped to my property, thank you! One more question, how do I get the owner updated? Ken Charbonneau hasn't owned this property since June of 2007 when we bought the property.
