Rob,

Thank you for the information about their use/non-use leading into the 2024 irrigation season. Once I receive their written request to cancel the 6 cfs rental, now covered under their new permit, I will take action to cancel the rental with a new end date of 12/31/2023 instead of 12/31/2025.

Thank you,
Mary

Subject: GVMCC Water Turn-on

Mary,

I contacted the GVMCC canal manager and the consultant who installed the flow meter in the canal. Water was reportedly turned into the canal the morning of April 3, 2024, and the consultant installed the flow meter that same afternoon. Water District 2 telemetry data show no measured water in the canal from March 15 until 5:45 pm on Wednesday afternoon. WD02 telemetry data from April 3 to today show between 50 and 60cfs. This is typical for the initial start-up in this canal. Jes Erling and I were on site Friday March 29 and the GVMCC canal was dry at that time. I don't have any reason to believe GVMCC was diverting water prior to April 3, 2023. Please let me know if you need any additional information.

Thanks,

Rob Whitney
Watermaster, WD02
