WATER SUPPLY BANK RENTAL AGREEMENT No. 801

This is to certify that:

CORP OF THE PRESIDING BISHOP OF THE CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS
50 E NORTH TEMPLE ST 12TH FLOOR EAST
SALT LAKE CITY, UT 84150-0012

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
29-13892	10/28/1953	GROUND WATER	0.04	10.0	2.5	0.016	4.00
Combined Rental Totals			**0.04**	**10.0**	**2.5**	**0.016**	**4.00**

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2026. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2024, whichever occurs last.

Annual Rental Fee:

2024 - 2026: $230.00 annually

The full fee for the rental of the above-described right(s) is $230.00 per year for years 2024 - 2026. The rental fee includes an administrative fee of $23.00 per year for years 2024 - 2026.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
MUNICIPAL	0.04	8.0	2.0	0.02	4.00
Combined Total	0.04	8.0	2.0	0.02	4.00

**** The authorized water usage reflects a reduction from the water right elements rented, to account for a change in nature of use.***

Detailed water right conditions are attached.

STATE OF IDAHO

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This rental when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

WATER SUPPLY BANK RENTAL AGREEMENT No. 801

10. The rented portion of right 29-13892 is limited to the irrigation of a total diversion rate of 0.04 cfs, a total annual maximum diversion volume of 8.0 af at the field headgate, and the irrigation of 2.0 acres in a single irrigation season.
11. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
12. This rental agreement does not authorize the construction of a well.
13. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

STATE OF IDAHO
WATER RESOURCE BOARD

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: The Church of Jesus Christ of Latter-day Saints

Is this application being submitted with a lease application as a lease/rental package? Yes ☐ No ☑
If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST			
Check All Items as Either Attached (Yes) or Not Applicable (N/A)			
		Yes	
		☑	Completed *Application to Rent Water from the Board's Water Supply Bank*
		☑	Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank
Attachment	**N/A**	**Yes**	
2		☑	A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
3A	☐	☑	Detailed information on a proposed use of rental water
3F	☐	☑	Authorization from the owner/operator of the rental point(s) of diversion
3H	☐	☑	Water modeling to account for the impacts of the rental request
3J	☑	☐	Documents justifying a rate of flow greater than 0.02 cfs/acre
3K	☐	☑	Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B	☑	☐	Explanation of how the rental water will sufficiently accomplish your rental purposes
4C	☑	☐	Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant The Church of Jesus Christ of Latter-day Saints

Mailing Address 50 E. North Temple 12th Floor
Street City State Zip Code

Email Address shclark@churchofjesuschrist.org Phone Number 801-240-3690

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☑
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative _____ Professional Title _____

Organization _____ Relationship to Applicant _____

Mailing Address _____

Email Address _____ Phone Number _____

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2.**

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Because of an inconsistent supply of Progressive Irrigation Dist. water, the property is irrigated from a connection to the Iona City municipal system under an agreement with the City that the Church would provide groundwater rights to the City. The Church is filing to rent water to be diverted from the City's wells until a perm. transfer is filed

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.05 CFS	10 AF	0.04 CFS	7.5 AF	2.5 AC

* ***Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.***

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
		☐ 1	☐ 2	☑ 3	☐ 4	☐ 5	☐ Process application as soon as possible	☐ Return application to applicant
4/1/2024	5/1/2022							

* ***The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.***

** ***Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.***

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
The City of Iona delivers culinary water to teh proposed POU already. The irrigation lines have been disconnected from teh surface water source a connected to teh church building to receive the groundwater.

E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
2N 38E 1 SESW	Groundwater Well	City of Iona Municipal rights
2N 38E 1 NESE	Groundwater Well	City of Iona Municipal rights

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

F. Has documented consent from all relevant water delivery entities been obtained? Yes ☑ N/A ☐
If yes, include documented consent as **Attachment 3F**.

G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☑ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

H. Has water modeling been provided with your rental request? Yes ☑ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

I. Specify the desired beneficial use of water and the requested season of use or number of acres required:
☑ Irrigation 2.5 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☑
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

K. Do you own the land at the proposed rental place of use (POU)? Yes ☑ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
Municipal water from the City of Iona for culinary uses. Inconsistent supply of Progressive Irrigation water has made it necessary to connect irrigation system to the City of Iona's municipal system to supplement irrigation.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no**, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
29-13892	Irrigation	2.12	470.4	117.6		0.03	10	2.5
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.05 CFS	10 AF	2.5 AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☑
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Irrigation water has been rented for this property from 2022 - 2023 under Water Supply Bank Agreement No. 672. The Church is actively working to identify appropriate water right(s) that can be transfered and needs more time to transfer them to the City and their wells.

B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☑ No ☐
If yes, describe:
Once appropriate groundwater right(s) are identified or acquired, the Church intends to file a transfer application to permanently move water rights to the City's wells. This includes conveying the needed water right(s) to the City.

C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☑
If yes, describe the date and location of the NOV.

D. Additional Information

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Authorization to Use Points of Diversion

The City of Iona currently delivers culinary water to the church building located at 4707 E Iona Rd, Idaho Falls, ID. The irrigation water has historically been delivered through Progressive Irrigation District, but the LDS Church has proposed to rent ground water rights to provide for a more consistent supply of irrigation water to be delivered through the City's wells. The City hereby gives authorization for the LDS Church to rent ground water rights from the Water Supply Bank to be delivered through the City's wells.

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-13892, AGREEMENT 801

Dear Renter:

Please find enclosed a receipt in the amount of **$230.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 8.0 acre-feet of water for municipal use on 2.0 acres during 2024. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or $207.00 of the rental fee will be paid to the lessor(s) and 10% or $23.00 will be retained by the Department to offset administrative costs for 2024.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Debra Mansfield

Scott,

After looking at the document I noticed it was signed by Jonathan M Clegg. We will need documentation showing that Mr. Clegg is authorized to sign on behalf of the Church or receive a copy signed by an authorized agent. I have attached a copy of the most recent IDSOS annual filing which lists the authorized agents. Additionally, you have previously submitted documentation showing signatory authority for Joseph D. Lowe, so a signature from him would be sufficient as well. Please call or email me with any questions.

Good morning, Scott,

Attached is a copy of proposed Water Supply Bank Rental Agreement #801. A copy of the proposed agreement and cover letter (copy attached) were mailed on November 21, 2023. I wanted to ensure that you received this. As you are aware, the rental is not executed until both parties have signed. Please return a signed copy of the agreement, as well as the requested fee, by mail or by sending a scanned copy to file@idwr.idaho.gov. Once the signed agreement and fee are received, I will have our water rights supervisor sign the agreement and return an executed copy to you. Please let me know if you have any questions.

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-13892, AGREEMENT 801

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of $230.00 per year was calculated based on the current rental rate of $23.00 per acre-foot times a diversion volume of 10.0 acre-feet.

Please send a check for $230.00 for 2024 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement**, **within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or $207.00 of the rental fee will be paid to the lessor(s) and 10% or $23.00 will be retained by the Department to offset administrative costs for **2024**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Mackenzie Kienholz
Water Supply Bank Specialist

MEMORANDUM FOR AGREEMENT #801

To: Water Right(s) 29-13892

From: Mackenzie Kienholz

Date: 11/17/2023

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Rental application #2791 was received by the Department on October 28, 2023 from Scott Clark on behalf of The Church of Jesus Christ of Latter-day Saints. The application proposed to rent portions of ground water right 29-13892 for 2024-2026 for the irrigation of 2.0 acres surrounding a church in Iona. These acres are usually irrigated by water from the Progressive Irrigation District, however this water is occasionally unavailable. Water right 29-13892 was used for the same purpose at the same location under Rental Agreement #672 in 2022-2023.

The application stated that when switching from surface water use to ground water use, the diversion would move from irrigation lines to a connection to the building. If this is the case, it appears that the diverted ground water will come from the general municipal supply, and thus a change in nature of use and appropriate reduction will need to occur. Review staff has confirmed this with the applicant.

The applicant stated email correspondence that the shape should be the same as previous Rental Agreement #672, which was updated to remove the building which decreases the acreage needed from 2.5 acres to 2.0 acres (rounded).

This rental is located within the ESPA GWMA, the Bonneville-Jefferson GWD, and WD 120. The lease is located in the ESPA GWMA and WD 120.

AUTHORITY TO FILE: The application was signed by Joseph D. Lowe, accompanied by a Certificate of Authority for Mr. Lowe to act on behalf of the Church from Russell M. Nelson who is listed as President and Director on the Church's official website.
The parcel at the rental location is owned by the LDS Church. A letter authorizing the use of the requested PODs was included from Keri West who is the City Clerk for the City of Iona which owns the wells. No concerns with authority to file.

WATER RIGHT VALIDITY: The review of the validity of the rights requested to be rented during the 2022 lease application review found that right 29-13892 was leased to the Bank from 2012-2014 and was last irrigated in 2019. The portion of the right being used for rental was originally leased again in 2021 and amended in 2022. Review of imagery for 2021 and 2022 suggests that the lessor has been compliant in idling the lease POU. Some imagery in 2022 was questionable as to whether the land was irrigated, however more of the imagery suggested that it had been idled than suggested it had been irrigated. No concerns with water right validity.

INJURY TO OTHER WATER RIGHTS: Water right 29-13892 is authorized for 117.6 acres, 67.7 of which are leased to the Bank. As a change in nature of use is proposed for this rental, the historic consumptive use of the right needs to be considered. Accounting for the change in nature of use, the applicant will need to rent 2.5 acres (10 af) for the use of 2.0 acres (8.0 af), see table below. This is consistent with the previous rental agreement.

Both the lease and rental are in the ESPA GWMA. The ESPA model was run for 29-13892 for the proposed to (R73, C166) and from (R94, C118) grid cells. The standard consumptive use value for this location is 3.0 af/ac. The historic consumptive use proportion for 29-13892 calculates to 3.22 af/acre (379.8 conumptive af / 117.6 ac). The consumptive use per trimester for the requested 2.0 ac was calculated as follows:

$$(2.0\ ac * 3.23\ af/ac) \div 3\ trimesters = 2.15$$

This value was used along with the to and from grid cell locations. The output showed that no mitigation would be required for this rental. The model was also run entering 2.5 in the "FROM" column and 2.0 in the "TO" column from 2022-2026 and found that no mitigation would be required. There will be no change in source. No anticipated injury to other water rights.

	Rate (cfs)	Volume (af)	Acres	cfs/acre	af/acre
Decreed Amounts	2.12*	470.4	117.6	0.018	4.0
Historic Consumptive Volume		379.8	117.6		3.23
Leased Amount	1.22	271.0	67.7	0.016	4.0
Lease CU Amount		218.8	67.7		3.23
Amount Rented App. 2791	0.04	10	2.5	0.016	4.0
Amount Authorized for Use App. 2791	0.04	8.0	2.0	0.02	4.0

*Inclusive of unleased stockwater rate of 0.02 cfs which is combined limited to 2.12 cfs

ENLARGEMENT OF USE: The rental application stated that the ground water would likely be needed for the majority of its season. Right 29-13892 is the only right located at its POU and is not stacked with any other rights, indicating that it has historically has been used as a primary right during its season of use from 4/1 to 10/31. It has a priority date of 10/28/1953 which was not curtailed in 2022. The rental place of use is overlapped by rights owned by Progressive Irrigation District. The majority of these water rights have a duty of water of 0.02 cfs/acre, with some at 0.015 cfs/acre. The leased rights have a duty of 0.018 cfs/acre. The headgate requirement is 4.00 af/acre annually at both the lease and rental location.

Because it appears that the ground water will be diverted from a source that is mixed with the general municipal supply, the amount authorized for use will be reduced from the total amount rented. No historic consumptive use information was provided, so the standard (alfalfa) values were used to estimate the historic consumptive use. The closest station appeared to be Pocatello WB AP. From this information, it was calculated that the right consumptively used a historical average of 379.8 af of its decreed 470.4 af. Because the applicant requested to stay within a total volume of 10.0 af, and that only 2.0 acres were required, the total amount required to be rented calculates to 0.044 cfs (rounded to 0.4 cfs), 2.50 acres, and 10.0 af. The amount authorized for use will be decreased proportionate to the historic consumptive use to 0.036 cfs (rounded to 0.4 cfs), 2.0 acres, and 8.0 af.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is subject to Water District #120 and the Bonneville-Jefferson GWD. A request for comment was sent to watermasters and the Eastern Regional Office on 11/17/2023.

Good afternoon,

Please see the attached review documents for Water Supply Bank Rental Application #2791 (proposed Agreement #801) for The Church of Jesus Christ of Latter-day Saints. This rental is essentially a continuation of Rental Agreement #672 (2022-2023). Kindly respond with any questions or comments within 10 days.

Thank you,

Mackenzie Kienholz

Hi Scott,

Item 3B should have noted the 2.0 acres instead of 2.5 and for municipal use instead of irrigation, however with your confirmation that this application is for the same purpose as Agreement #672, I can just make note of it upon initial review. I will most likely be the person who reviews your application again. I will go ahead and submit your application.

Thank you,
Mackenzie

Mackenzie,

Thanks. I knew there was an explanation that had something to do with converting from irrigation to municipal. The purpose of this application is for the same exact purpose as Agreement 672, diverting municipal water from the City of

Iona's water system for the irrigation of 2.0 acres around the chapel. That being said I fill out the application correctly even though I basically duplicated the previous application?

Section 3 of the Applications is "Description of Proposed Use for Rental Water". Should Item 3B. be modified to show 2.0 acres of irrigation rather than 2.5, and Item 3I. be for Other: Municipal rather than 2.5 acres of irrigation?

If no modifications are need by me, please submit for review. If I need to modify anything let me know.

Thanks.

[External Email]

Hi Scott,

No worries, I'm sorry I keep missing you! You are recalling the change in use calculations correctly. You also completed the modeling calculations correct if this were and irrigation to irrigation rental, however as you recalled we had to complete this as an irrigation to municipal rental which changes how the consumptive use is calculated (we don't just use the standard value). The consumptive use value we use is calculated using a system that the U of I developed based on historic data. If you can confirm that this new 2024 rental application is proposing the same thing that Rental Agreement #672 authorizes, I will forward your submission to our electronic filing email and we should have enough information for the review. You are correct that fees are requested at the time of the approval and annually after that point. Please confirm whether this rental is for the same purpose as Agreement #672, that is 2.0 acres of irrigation from a source that is tied into the municipal system.

Thank you,

Mackenzie Kienholz
Water Supply Bank Specialist

Mackenzie,

Sorry I keep missing you. It's been a busy couple of days. Attached is the completed and signed application to rent water from the Water Supply Bank. The main question I had was with the model data. As I understood the instructions for entering data into the model, I came up with 2.5 AF of consumptive use per trimester using a consumptive use of 3 AF/acres (2.5 acres x 3 AF/acre = 7.5 AF / 3 AF = 2.5 AF/trimester). I just wanted to understand how the 2.15 AF originated. We are only irrigating 2.0 acres around the building, but as I recall from our first application, we needed 2.5 acres of irrigation or 10 AF of diversion to account for the conversion from irrigation to municipal. Am I recalling that correctly?

The only other question was is submitting this application to you by email sufficient or do you need the original signed document? Also, as I recall, we will be invoiced and pay the first years payment once the rental agreement is approved and the contract executed.

Please review and unless you see something missing or incorrect, please accept this application to rent water from the Water Supply Bank for 2024-2026.

Thanks for your help.
