Priority Date Explanation:

This is the licensed priority date and use continues today. The plate capacity is 2.5KW. Yurts and cabin power grid expansion was in 2019.

The following rights are diverted through point(s) of diversion described above: 13-7577 and 13-7576.

The term of this water right license shall extend to 12/31/2019. Prior to the expiration of the term, the Director may issue an order canceling all or any part of the use authorized herein, may establish a new term, or may revise, delete, or add conditions under which the water right license may be exercised. The order shall take effect on the date the current term expires. If the director does not issue such an order, the term shall automatically extend to a length equal to the project's prior term and any prior conditions on the water right license shall remain in effect.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.

This right does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.

Rights 13-7577 and 13-7576 when combined shall not exceed a total diversion rate of 0.80 cfs at the field headgate.

The rights for the use of water confirmed in this license shall be junior and subordinate to all rights for the use of water other than hydropower, within the State of Idaho that are initiated later in time than the priority of this right and shall not give rise to any right or claim against any future rights for the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this right.

Use of water under this right shall be non-consumptive.
