If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

12. Remarks:

Priority Date Explanation:

This is the date given on the license.

Original license was for 64 acres. My dad bought the property around 1972. In the late 1970's, we piped the well water system across the road to our 2 other fields. In October of 2022, I sold 7 acres on the northernmost side of the claimed original place of use. The water rights were explicitly withheld from the sale of this land. The total acreage for the current place of use is 162 acres.

Throughout the entire timeline described above and leading up to now, this ground water has intermingled with Cub River Irrigation Company share water. The well water has been supplemental to the share water during our ownership.

See additional enlargement claim.
