PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-23860

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Julie Adams
Technical Records Specialist

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE). Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 65-23860 Name of Permit Holder(s) FAULL RANCH ESTATES OWNERS ASSN INC.Telephone No. 208 793-3274 Email SUMMERTREEFARM2000@gmail.comMailing Address P.O. Box 88 City HORSESHOE BEND State ID Zip 836292. Source of Water PORTER CREEK If Ground Water (well), Date Drilled mo. NA / yr. NADrilling Permit/Tag No. NA Drilling Company's Name NA

3. Extent of use(s) completed as authorized by the water right permit:

Domestic (No. households) NA Irrigation (No. acres) 33 Stockwater (No. and stock type) NA

Other _____

4. Total diversion rate or volume (storage only) for which proof is submitted 0.66 cfs OR _____ af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

SEE ATTACHED "DESCRIPTION OF DIVERSION AND DELIVERY SYSTEM".

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

☐ ☒ Ground water level data, pumping information, or other diversion data☐ ☒ Mitigation plan☐ ☒ Lockable controlling works☐ ☒ Measuring device☐ ☒ Fish screen☐ ☒ Other requirements of the water right permit DIVERSION EASEMENT GRANTED☐ ☒ Reasonably Anticipated Future Needs ("RAFN") Municipal useIf RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No7. Fee Enclosed \$ 100.00 or ☐ CWRE field report attached or ☐ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: WILLIAM ANDERSON Telephone No. 208 793-4395 Email OCFIRE34@AOL.COMMailing Address 37 WAVERLY DR. City HORSESHOE BEND State ID Zip 83629

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

Faull Ranch Estates Homeowners Association

Description of Diversion and Delivery System

This project uses preexisting infrastructure that includes an established diversion, intake with lockable flow control gate valve that regulates water volume over a graduated weir, a pipeline system that delivers water to a distribution point where the specific project pipeline is controlled by another lockable flow control valve, and finally a pipeline dedicated to supplying the Point of Use.

This irrigation project is intended to use gravity fed water from the "source", Porter Creek. The diversion point is noted on the enclosed "Map of Proposed Project", page 1.

From the diversion point water is introduced into the system at its intake point where water flow is controlled by a lockable gate valve that also controls the water flow volume over a Cipolletti , (Trapezoidal) Weir. (See enclosed pictures, page 4).

From the Weir water flows into the irrigation pipeline system and then to a preexisting pump house/ distribution area. From this point, while still gravity or head-pressure fed, a lockable valve, (See enclosed pictures, page 4), controls water flow to the pipeline dedicated to supplying the 33 acre "Place of Use", (See "Maps" pages 1 and 2).

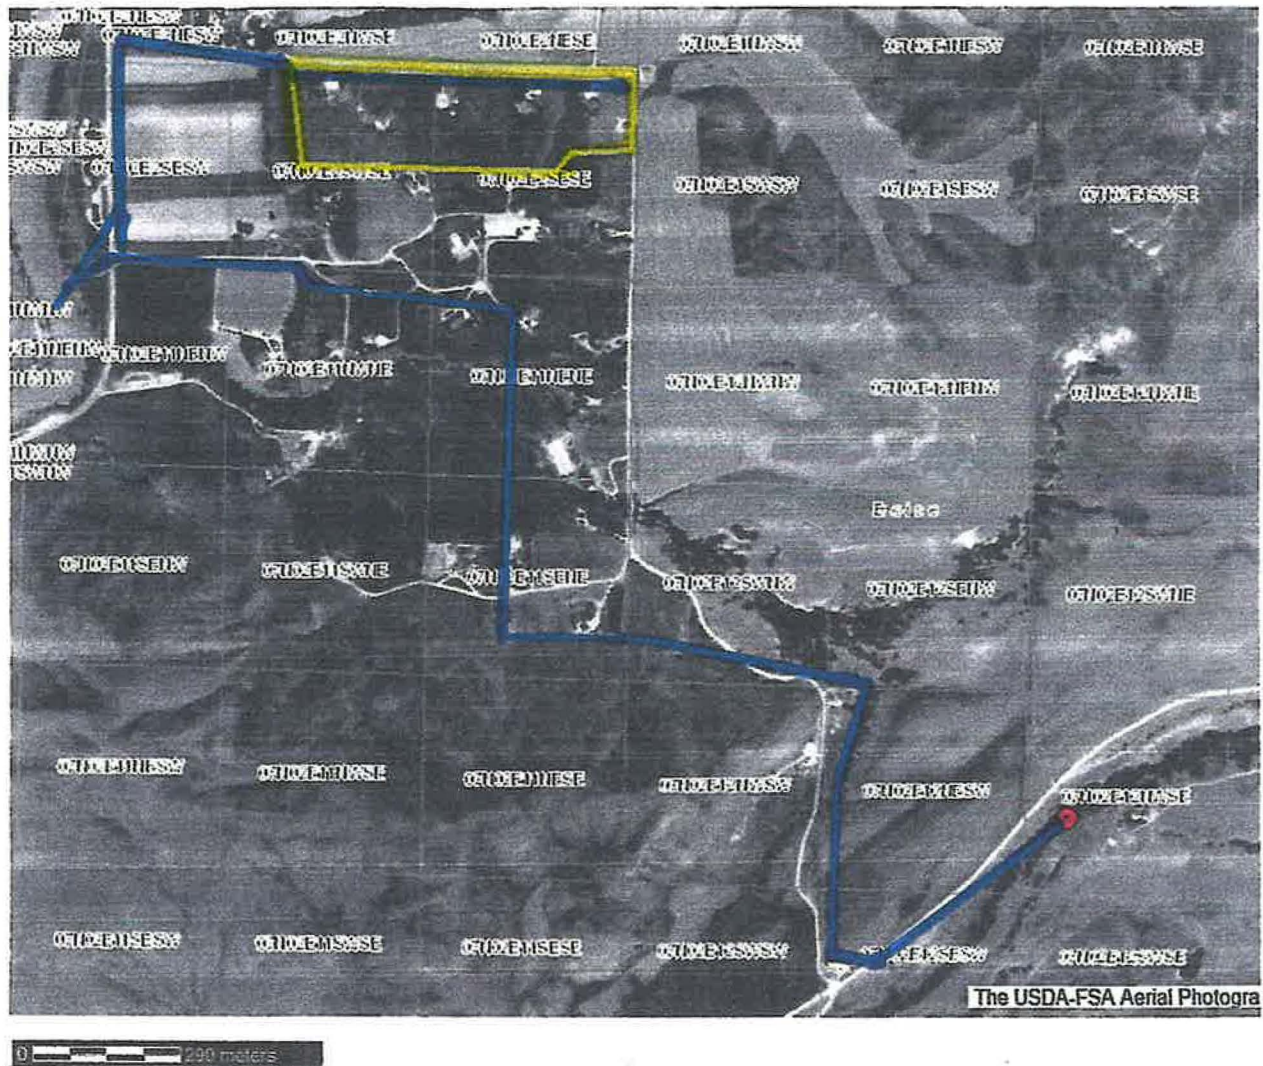

It should be noted that the current and future Porter Creek Watermaster(s) have ready access to the diversion, intake, and weir easement areas, as well as holding the lock combinations to both flow control valves in the system. The easement to these areas has been established by a long standing agreement with the property owner.

Place of Use

A locking device has been installed on a valve on the applicant's plumbing system. The locking device allows for the isolation of the proposed area of use by the Porter Creek Water Master.

Additionally, a flow measuring device is installed at the applicant's Porter Creek diversion in the form of a Cipolletti (Trapezoidal) Weir. The water flow can easily be read at the applicant's weir by the Porter Creek Water Master or any party with easement rights on the landowner's property.
