APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 20694
Permit No. 14689
District No. 20-K

1. Name of Applicant: W. A. Coughanour, Trustee.

Postoffice address: Fayette County: Fayette State: Idaho.

I. If applicant is a corporation, give:

(a) Date and place of incorporation: March 10, 1920; Fayette, Idaho.

(b) Amount of capital stock: \$150000.00

(c) Amount paid in: \$250.00

(d) Names and addresses of directors: W.A. Coughanour, Fayette, Ida.; W.M. Wilson, Emmett, Ida.;
A. H. Ramey, Fruitland, Ida.; James A. Keegard, Letha, Ida.; A.C. Adams, Falk, Ida.

II. The financial resources of the applicant are:

(a) Cash on hand:

(b) Treasury stock:

(d) Other resources:

(c) Bonds to be issued:

2. Quantity of water claimed: 200 cubic feet per second.

3. Source of water supply: Big Fayette Lake Reservoir which is a tributary of Fayette River.

4. Location of point of diversion: N. 34° 10' E. 3168 feet distant from the SW $\frac{1}{4}$ corner of Section 8, T. 19 N., R. 3 E., B. M., and is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, T. 19 N., R. 3 E., B. M., County of Valley.

5. Water is to be used for: Irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B. M., in the of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 25,000

8. Kind of works: Reservoir, Regulating gates, canals.

9. Height of dam 10 feet; length of dam at top 175 feet; length of dam at bottom 175 feet; material used in dam concrete and steel.

10. Size of headgate: Width seven gates 20 feet; height 7 feet.

11. Ditch: See Remarks.

Width at bottom feet; width at water line feet; depth of water

feet; dimensions of flume

Diameter of pipe inches; length of conduit 178.0 miles.

Average grade per mile See Remarks. feet.

12. The time required for the completion of such work is 5 years.

13. The time required for the complete application of the water to the proposed use is 0 additional years.

14. The land to be irrigated is described in the following tabulation: See Remarks.

See QUITCLAIM DEED from W. A. Coughanour, Trustee, to Lake Reservoir Company, recorded Under Reservoir Permit 216, on September 25, 1924.

STATE OF IDAHO,)
) ss.
County of Payette,)

We, W. A. Coughanour and E. C. S. Brainard, first being duly sworn depose and say, we are the President and Secretary of the Lake Reservoir Company, (a corporation of the State of Idaho,) with its principal place of business at Payette, Idaho.

We further depose and say the Lake Reservoir Company has purchased and acquired title by quitclaim deed of a proper form, all the right, title and interest of W. A. Coughanour, Trustee, to all storage rights in the Big Payette Lake under Permit 216 and all rights to the use of water from said storage for irrigation and domestic purposes under permit 14689, issued by the Commissioner of Reclamation, during the year 1920.

We further depose and say when permanent construction of the dam for storage purposes were undertaken it was found necessary to change the point of location of said dam and point of diversion of said water, from the location given in said permits to the following location, to-wit: In Lot 3 Section 8, Township 18 North, Range 3 East, Boise Meridian, about 400 feet below the outlet of Big Payette Lake where the W 1/4 Corner of said Section bears N. 77° 20' W. 1850 feet.

We further depose and say that the permanent dam, and the point of diversion of all rights held by the Lake Reservoir on the Big Payette Lake have been changed from the original location to the above described location, and that in making such change of location, the rights of others have in no way been interfered with.

Further deponents saith not.

W. A. Coughanour

E. C. S. Brainard

Dated at Payette, Idaho, September 19, 1924.

Subscribed and sworn to before me this 19th day of September, 1924.

B. F. McCarroll

Notary Public for the State of Idaho
Residing at Payette, Idaho.

Received and filed for record in the Department of Reclamation at Boise, Idaho, at 9:00 A. M. September 26, 1924.

W. G. SWENDSEN,
Commissioner of Reclamation.

STATE OF IDAHO,)
) ss.
 County of Payette,)

E. C. S. Brainard, being first duly sworn, upon his oath deposes and says:

That the Lake Reservoir Company is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 14689 and Storage Permit 216.

That it intends to change the point of diversion, as described in said permits, to the following described point: In lot 3 Section 8, Township 18 North, Range 3 East, Boise Meridian, about 400 feet below the outlet of Big Payette Lake where the W $\frac{1}{2}$ corner of said Section bears N. 77° 20' W. 1850 feet.

That such change will be made for the following reasons, to-wit: Lesser expense of construction, and to cover rights acquired by deed from Boydston and Nelson.

That no one will be injured by such change and that deponent will make such change at his own risk. and further deponent saith not.

E. C. S. Brainard

Subscribed and sworn to before me this 23rd day of September, 1924.

B. F. McCarroll

Notary Public for the State of
Idaho, residing at Payett, Idaho.

Proof of Completion of Works made October 30, 1924.
Certificate of Completion of Works issued December 8, 1924.

Permit No. 14689
 CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that Lake Reservoir Company of Payette, County of Payette, and State of Idaho, the holder of Permit No. 14689, issued upon Application No. 20694, bearing date of priority of February 18, 1920, authorizing the diversion of 200 second feet of the waters of Big Payette Lake Reservoir, County of Valley, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 200 second feet of the waters of the Big Payette Lake Reservoir; that the point of diversion of said waters is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp. 18 N., R. 3 E., B.M.; and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: All lands lying under and being irrigated by Emmett Irrigation District; Letha Irrigation Company, Enterprise Ditch Company, Farmers' Cooperative Irrigation Company, Lower Payette Ditch Company and Payette Heights Irrigation District.

Witness my hand this 8th day of December, A.D. 1924.

W. G. SWENDSEN

JUL 16 1920

H. G. Swenson
State Engineer of Idaho

Know all Men by these Presents:

THAT Lake Reservoir Company, of Payette, Idaho as principal, and the UNITED STATES FIDELITY AND GUARANTY COMPANY, of Baltimore, Maryland, as surety, are held and firmly bound unto the State of Idaho in the full and just sum of One Thousand (\$1,000.00) Dollars, lawful money of the United States, to the payment of which sum, well and truly to be made, said principal binds himself, his heirs, administrators, executors and assigns, and said surety binds itself, its successors and assigns, jointly and severally, under the terms and conditions hereinafter set forth.

The terms of this obligation are such that, whereas the above-named principal on the 10th day of July, 19 20, filed in the office of the State Engineer in Boise, Idaho, a certain application for permit to appropriate the public waters of the State of Idaho, the said application being thereupon numbered No. 20694, in accordance with which said application the State Engineer granted and issued to the said principal herein a certain permit numbered No. 14689, a full, true and complete copy of which application No. 20694 and permit No. 14689, is of record in the office of the State Engineer, in Book of Permits, at page .

Now, if the above bounden principal shall faithfully carry to completion the said works of diversion as specified in said application No. 20694 and permit No. 14689, in the manner and form prescribed therein and within the time therein allowed, then the above obligation to be void, otherwise to remain in full force and effect.

In Witness Whereof, The said principal has hereunto set his hand and affixed his seal, and the said surety has caused these presents to be signed by its attorney-in-fact, and its corporate seal to be affixed, this 10th day of July, 19 20.

(Date) Sept 23rd 1924

(P. O.) Payette Idaho

TO THE STATE ENGINEER:

Boise, Idaho.

DEAR SIR:

You are hereby authorized to have the attached notice published at my expense in the
Cascade News of Cascade Idaho, published
in the county in which the works are situated.

Lake Reservoir Company

By [Signature]

Secretary

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water
per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

[Signature]
Payette Idaho Engineer.

14689

Notice for Publication

Notice is hereby given that at **10:30** A.M. on the **30th** day of **October** 192 **4** at **Cascade**, County of **Valley**, State of Idaho, before **L. S. Kimball, Probate Judge** proof will be submitted of the completion of works for the diversion of **200** cubic feet per second of the waters of **Big Payette Lake Reservoir and storage of 50000 acre feet** in accordance with the terms and conditions of certain permit heretofore issued by the **Commissioner of Reclamation** of the State of Idaho.

1. The name of the person or corporation holding said permit is **LakeCoughanour Trustee, assigned to the Lake Reservoir Company**
2. The postoffice address of such person or principal place of business of such corporation is **Payette**, County of **Payette**, State of Idaho. **permit #216**
3. The number of such Permit is **14689 and storage**, and the date set for the completion of such work is **May 12th 1925**
4. Said water is to be used for **storage and Irrigation and domestic** purposes.
5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is **200** cubic feet per second.
6. The amount of lands for which said water is available is **68500** acres, particularly described as follows: **All lands lying under and being irrigated by Emmett Irrigation District Letha Irrigation Company, Enterprise Ditch Company, Farmers Co-Operative Irrigation Company, Lower Payette Ditch Company and Payette Height's Irrigation District**

Commissioner of Reclamation.

September 26, 1924.

Re: Permit No. R-216-14689.

Mr. E. C. S. Brainard, Secretary,
Lake Reservoir Company,
Payette, Idaho.

Dear Sir:-

Your letter of the 25th inst. received, with enclosures as listed. The quitclaim deeds have been placed of record under the respective permits in this office and the originals are herewith returned to you. The recording fee for each will be seventy-five (75) cents.

In checking the affidavit for change of point of diversion we find that the range number is given as 3 West. We think this must be an error in writing as that would bring the location far west of Big Payette Lake. We are, therefore, returning the affidavits for correction in this particular.

If you will send us the name of some notary public at Cascade, before whom proof could be made, we will complete the notice of proof and mail one copy to the Cascade News for next week's issue of the paper. We will also ask you to set the date upon which it will be most convenient for you to make proof, allowing time for the required four full weeks publication of the notice.

Very truly yours,
W. G. SWENDSEN,
Commissioner of Reclamation.

PROOF OF COMPLETION OF WORKS

Lake Reservoir Company,

c/o L. S. Kimball,

Probate Judge,

Cascade, Idaho.

BOISE, IDAHO,

October 16, 1924.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. **14689.**

DEPOSITION OF PERMIT HOLDER,

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On **October 30, 1924**, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at **Cascade, before L. S. Kimball, Probate Judge.**

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

W. G. SWENDSEN,
Commissioner of Reclamation.
State Engineer.

14689

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. E C S Brainard 61 years old, C P A Payette Idaho

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Lake Reservoir Company, principal place of business Payette Idaho
Secretary, authorized to act for corporation by resolution of the Board of Directors.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. #14689 dated May 6th 1920 amount of water to be diverted 50.000
acre feet

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. For irrigation of all lands lying under the irrigation systems
of the Emmett Irrigation District, Enterprise Ditch Company, Letha Irrigation Company, Farmers Co-Operative Irrigation Company, Lower Payette Ditch Company and the Payette Heights Irrigation District,

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. yes full amount for the irrigation seasons of 1919, 1920, 1921, 1922, 1923 and 1924

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. yes

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. yes Main Channel of the Payette River

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Main channel of the Payette River, to head gates of the various
users shown.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. 14689

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans.

James A. Keagard - 46 Emmett Ida.
Farm - Stockraiser

Ques. 2. Are you acquainted with Lake Reservoir Company, the holder of Permit No. 14689, authorizing the diversion of 50000 acre ~~acres~~ feet of the waters of Big Payette Lake, at Mouth of Lake

for Irrigation and Domestic purposes? How long have you known him, and where does he reside?

Ans. Since 1920, principal place of business Payette Idaho

Ques. 3. Have you read or heard read said Permit No. 14689, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation. yes, all lands being irrigated by the
Emmett Irrigation District, Enterprise Ditch Company, Metha Irrigation
Company, Farmers Co-Operative Irrigation Company, Lower Payette Ditch
Company and the Payette Height's Irrigation District

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Natural channel of the Payette River from the storage reservoir
to the Headgates of the various users

(Sign here.)

James A. Keagard

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that

Re: Permits Nos. R-216-14689
Lake Reservoir Company

Mr. E. C. S. Brainard,
Secretary, Lake Reservoir Co.,
Payette, Idaho.

Dear Sir:-

The fees due this office on proof of completion of work under the above numbered permit amount to \$82.00 and, upon receipt of this amount, the certificates will be issued.

These fees are based upon a capacity of 200 second feet, or 50,000 acre-feet for storage, being \$5.00 for the first 10 second feet and 30 cents additional for each additional second foot, or fraction thereof. These fees cover both the reservoir and the use permit, as one water right.

Very truly yours,
W. C. SHENKLE,
Commissioner of Reclamation.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 2.00 P M on the 8th day of May, 1931
at Cascade County of Valley, State of Idaho,
before The Probate Judge, proof will be submitted
of the application to beneficial use of 200 cubic feet per second of the
waters of Big Payette Lake in accordance with the terms and conditions of
Permit No. 14689 heretofore issued by the Commissioner of Reclamation
of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

Lake Reservoir Company, Payette, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

~~irrigation~~

The amount applied to beneficial use is 200 Cu Ft per second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) Bennett Irrigation District, system; Farmers Co-Operative Irrigation Limited, system; Enterprise Ditch Company, system; Lake Irrigation Company, system; Noble Ditch Company, system; Lower Payette Ditch Company, limited, system.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Payette River.

The right to take water from such works is based upon Permit No. 14689

The source of supply from which such water is diverted is Flood Waters of the North Fork of the Payette River.

The date of the priority which said user is prepared to establish is Feb. 18, 1920.

~~May 18, 1931~~

Geo. H. Carter,
Commissioner of Reclamation.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO. April 27, 1931

Lake Reservoir Co.

c/o The Probate Judge

Cascade, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. **14689**

DEPOSITION OF PERMIT HOLDER. DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On **May 8, 1931**, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to at **Cascade** before **The Probate Judge.**

2. When the depositions have been taken, they should be mailed to this office together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

H. W. FARIS

Commissioner of Reclamation.

14689

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. E C S Brainard, Payette, Idaho, Secretary, Lake Reservoir Company,
Payette, Idaho;

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Lake Reservoir Company; Payette, Idaho; Secretary;

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 14689 Priority as of February 18th 1920

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Flood Waters of the North Fork of the Payette River.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Water stored in Big Payette lake under permit "R" 216 and distributed thru the main channel of the Payette River,

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for Irrigation and Domestic use, by the Emmett Irrigation District, system; Farmers Co-Operative Irrigation Company, limited, system; Interprise Ditch Company, system; Letha Irrigation Company, system; Noble Ditch Company, limited, system and the Lower Payette Ditch Company, limited, system; see permit 14689 for specific description of lands.

Ques. 7. If for other than for irrigation purposes, state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?
Ans. 200 Cu feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. all during the years 1922 to 1931 inclusive

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Blaine, State of Idaho, on this 17 day of May, A. D. 1931.

My commission expires

14689

PERMIT NO. 14689

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. James A. Kaggard, age, 43, Idaho, RFD, Rancher

Ques. 2. Are you acquainted with Lake Reservoir Company, the holder of Permit No. 14689? How long have you known him and where does he reside?

Ans. Since 1920, Office at Payette, Idaho;

Ques. 3. Have you read or heard read said Permit No. 14689, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Flood waters of the North Fork of the Payette River, stored in Big Payette Lake, and distributed thru the main channel of the Payette River.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 200 Cu feet per second; all of it;

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and Domestic use; distributed to the lands irrigated by the Emmett Irrigation District System; Farmers Co Operative Irrigation Company, Limited; system; Enterprise Ditch Company, system; Latta Irrigation Company, system; Noble Ditch Company, Limited, System; Lower Payette Ditch Company Limited, system on the lands shown upon permit #14689

14689

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of lands varies, mostly lava ash. estimated amount of water required, all of it;

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Only in an official way, as one of the directors and officers of the corporation

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All of it, during the years, 1923 to 1931 inclusive, as I have been the active Manager of the Corporation during that period of time.

(Signed) James A. Regard

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Cascade, County of Idaho, State of Idaho, on this 27th day of May, A. Re: Permits Nos. H-216 & 14089

Mr. E. C. E. BRAINARD, Secretary
Lake Reservoir Company,
Payette, Idaho

Dear Mr. Brainard:

Upon my return to the office after my recent call upon you at Payette, I took occasion to look up the status of your filings numbered respectively H-216 and 14089, with special reference to the seeming delay in the issuance of a license thereon.

It appears that at the time of publication of notice upon these permits for proof of Beneficial Use of water, the Permit 14089 was the only one mentioned, so that as the matter now stands, Permit H-216 has never been advertised for proof of Beneficial Use and, consequently, has not as yet passed the necessary legal steps to render issuance of license permissible.

Thus it appears that before this matter can be closed properly it will be necessary for you to re-advertise and repeat the process as carried out under permit 14089.

Hoping this may be of assistance to you, I am

Very truly yours,

Field Engineer

11489

December 14, 1932

RE: Permit No. 14689
Lake Reservoir Company

Mr. E. C. S. Brainard, Secretary
Lake Reservoir Company
Payette, Idaho

Dear Sir:

Mr. F. A. Tolson, Field Engineer of this department, informed me that you were desirous of knowing when you might expect a license to be issued under the above stated permit.

You no doubt are aware that the form of application for permit has been materially changed since the date when Permits Nos. R-215 and 14689 were issued. Under the old form of application one desiring to construct a reservoir was required to make one application for the construction of a reservoir, and make a joint application for use permit to divert the stored waters from the reservoir. Thus the old system required two permits to complete a water right when a reservoir was involved.

Insofar as completion of works was concerned, proof on each permit was required since of course the one proof related to the diversion works and the other proof to the storage works. However, when it came to a question of offering Beneficial Use proof, this department in the past has functioned on the theory that Beneficial Use proof need not be made on the Reservoir permit, since the point of use under both permits was identical.

Since you offered Beneficial Use proof under use permit No. 14689 and did not offer this proof under the reservoir permit, it is quite possible that you were aware of the situation.

In my opinion there could be no objection to offering proof under both permits; but on the other hand, since it is merely repetition, I can see where no possible advantage could be gained by such a procedure. To say add that very few cases are on the records where Beneficial Use proof has been offered on both the reservoir permit and the use permit.

If you think that it is necessary to submit Beneficial Use proof on the reservoir permit, it will necessitate another publication. Furthermore, the date of priority would have to be advanced, since Beneficial Use proof on both permits was due under date of May 15, 1931.

4689

Mr. E. C. S. Brainerd

Page 2.

December 14, 1932

Your proof under Permit No. 14009 was duly made and a license can be issued under this permit in the near future. The Field Engineer has made his examination, and we are expecting him to file his report within the next few days. As quickly as we receive the report, we will notify you as to fees due for Beneficial Use proof, and upon receipt of the fees the license will be issued, thus completing the record under this permit.

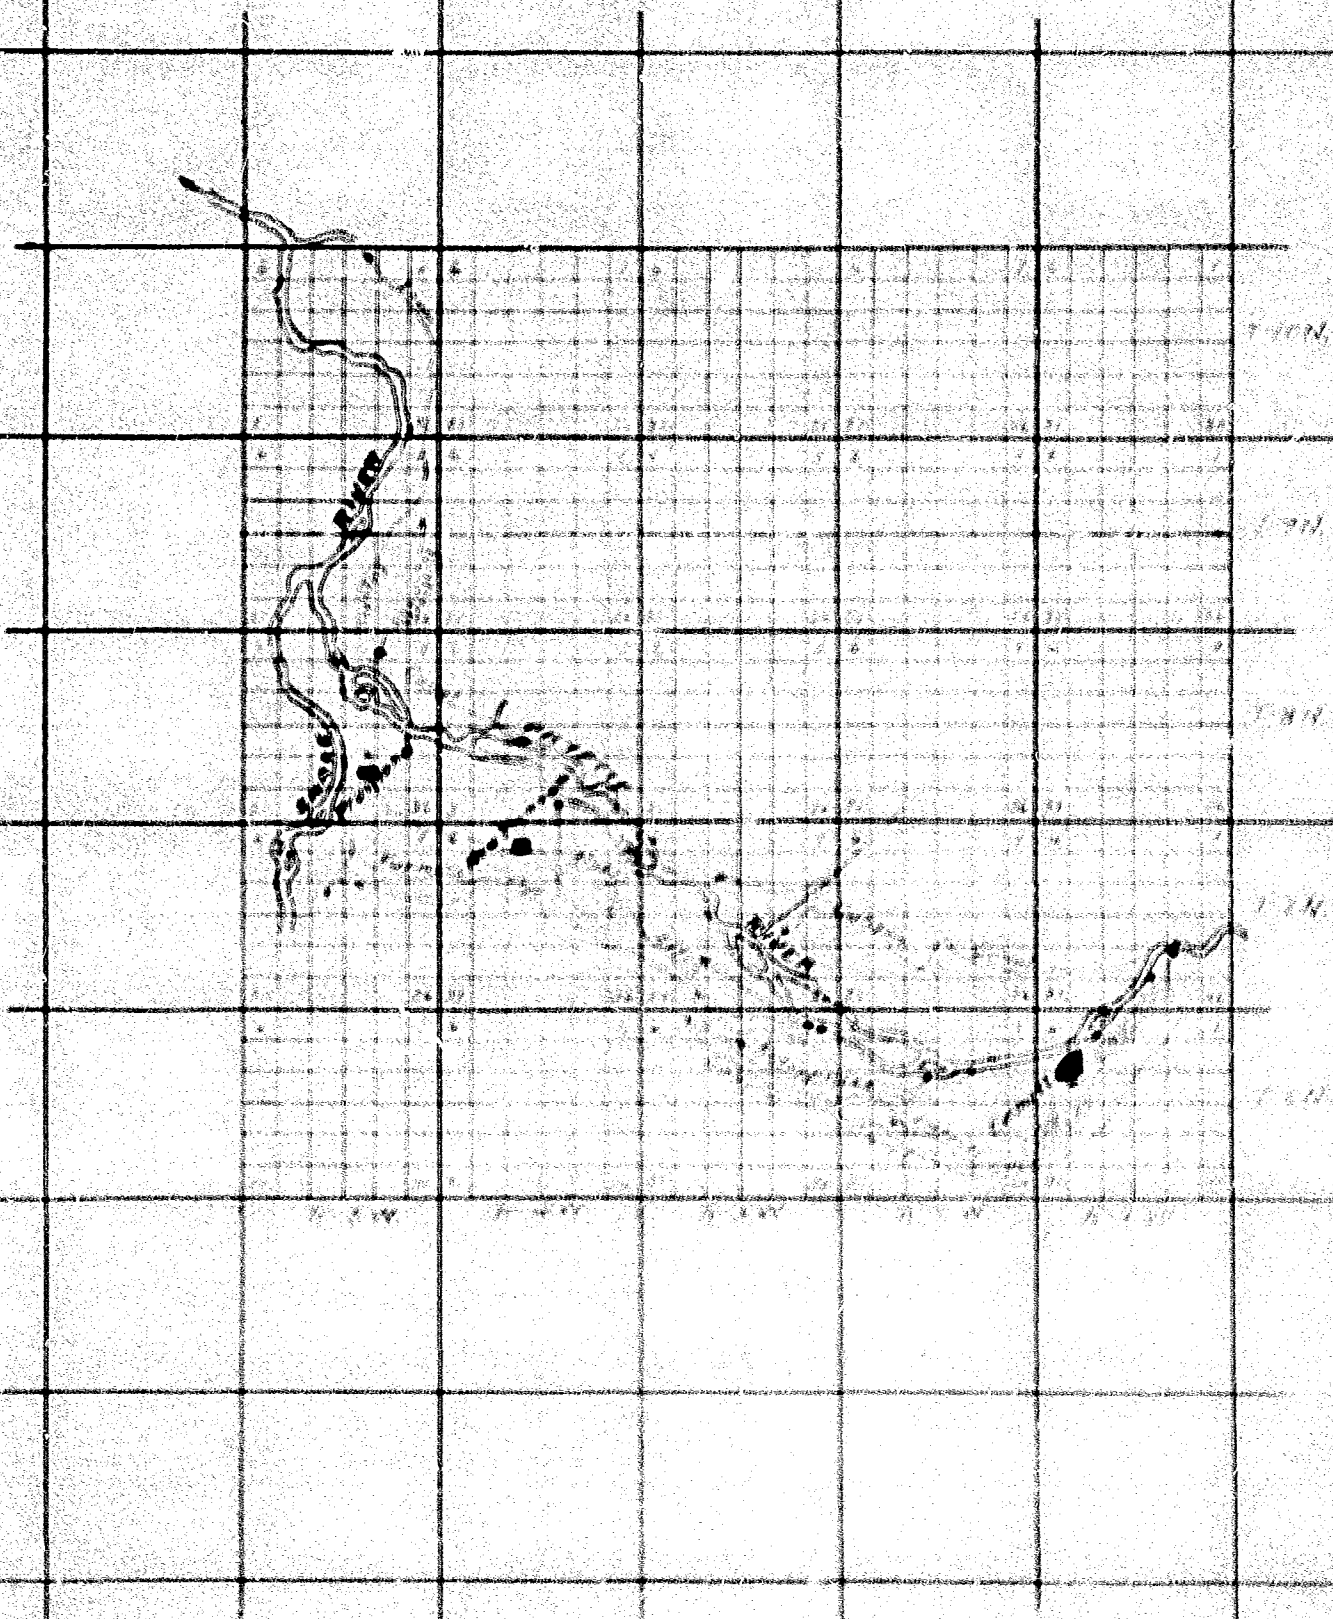

Very truly yours,

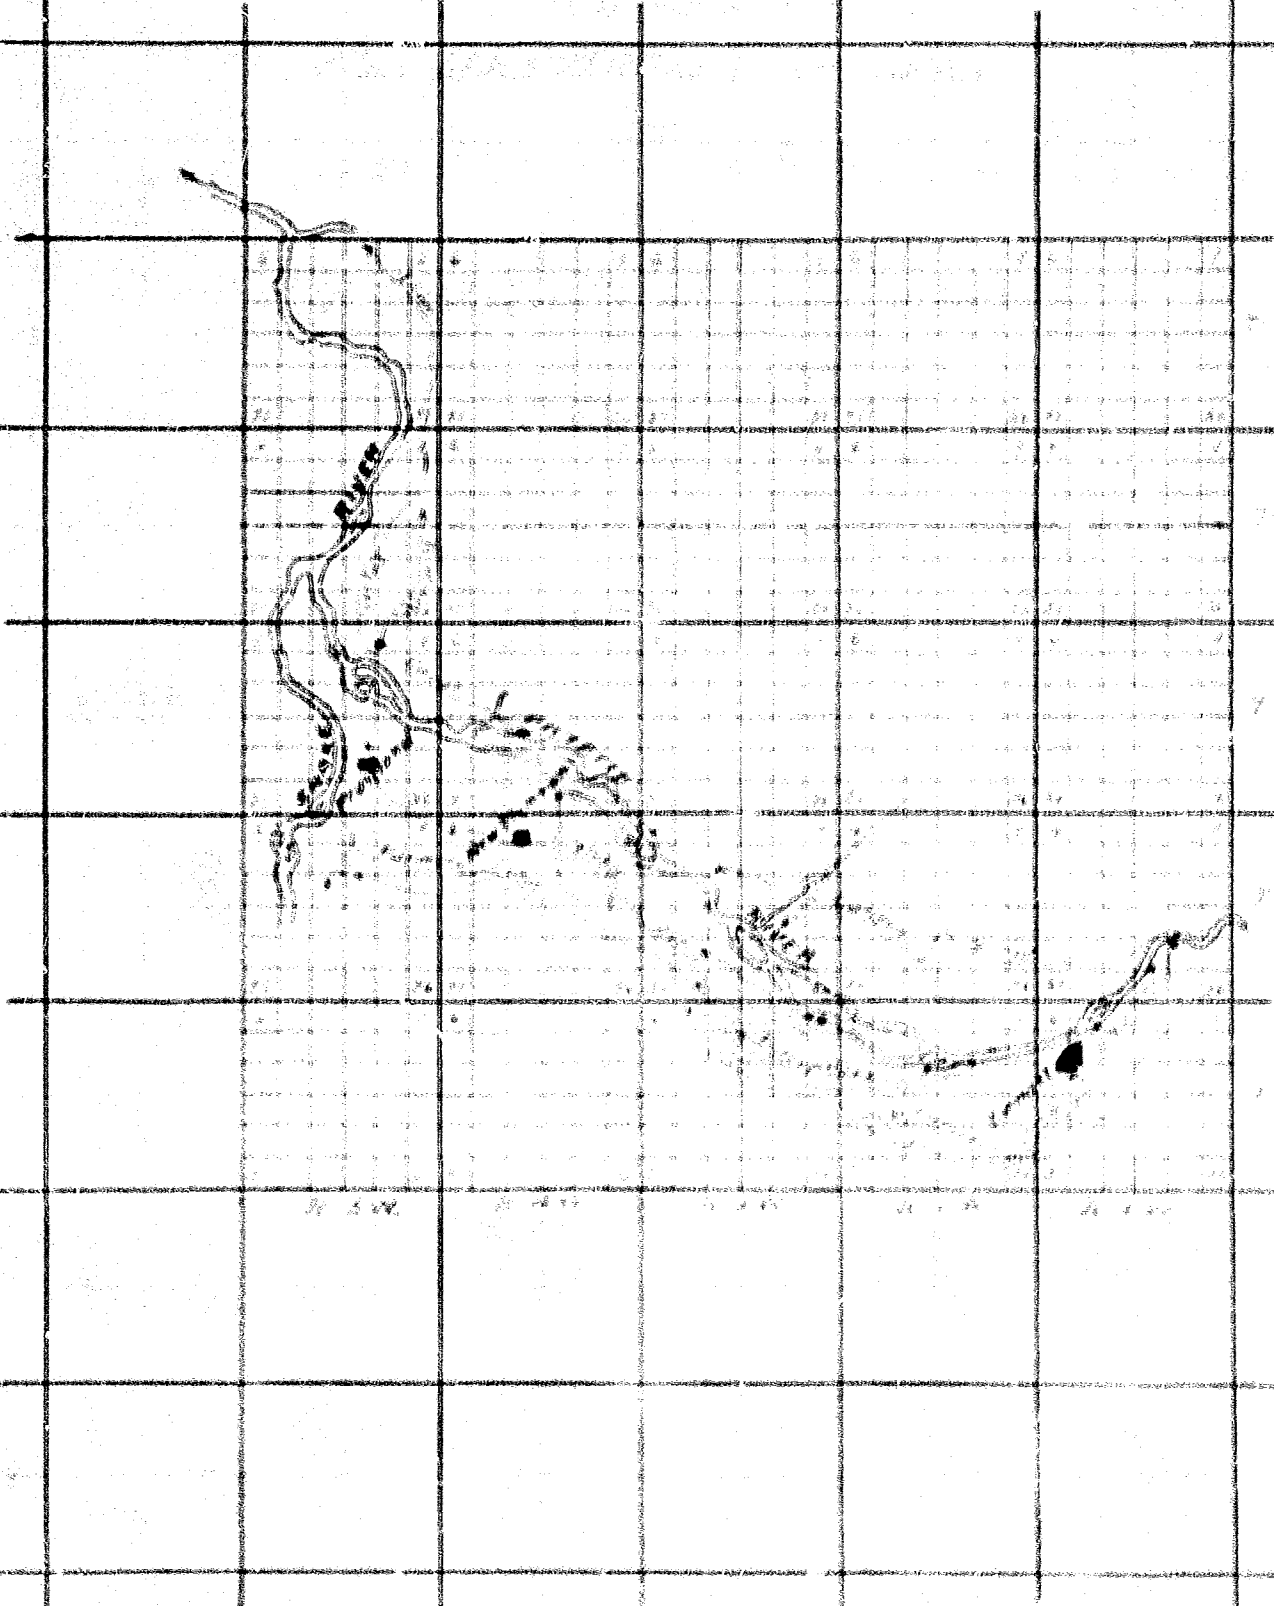

R. W. FANIS
Commissioner of Reclamation

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 14689

This proof is for Beneficial Use

In Water District No.

1. Name of applicant: Lake Reservoir Company
2. Source of water supply: Big Payette Lake
3. Location of point of diversion: Is in the NB 6W 3 of Section 8
T. 18 N. R. 3 EBM County of Valley
4. Describe works as they exist, giving dimensions and capacities of same: A low concrete dam 125 ft. long with a 12 ft. base designed for "A" frames and flash plank control. These frames also being of a 5 ft. control of Lake water level.
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): Emmett Irrigation Dist. system; Farmers Co-Operative Irrigation Limited, system; Enterprise Ditch Co., system; Letha Irrigation Co. system; Noble Ditch Company system; Lower Payette Ditch Co., Ltd., system.

(Submit map or attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River
- Remarks: The Noble Ditch Company system and the Payette Heights Irrigation District are included in lands covered under this permit by subsequent contracts with the Lake Reservoir Company.

Beneficial use as stated by San Francisco State Master

Name of User	Quantity Delivered, 24 Hr. Sec. Ft.
Emmett Irrigation Dist.	22500.
Letha " Co.	13500.
Enterprise Ditch "	2400.
Farmers Co-Op "	16500.
Lower Payette Ditch "	10000.
Payette Heights Irrig. Dist.	
Total	64900.

RE: PERMIT NO. 14669
Lake Reservoir Company

MR. E. C. S. BRAINARD
Sec'y. Lake Reservoir Company
Puyette, Idaho

Dear Sir:

This is to inform you that the examining engineer's report made in connection with BENEFICIAL USE proof under the above mentioned permit has been received in this department.

The fee for BENEFICIAL USE proof is fixed by statute, and is set forth under Section 41-215, Idaho Code, as follows:

" For examining the ditches and lands of the user at the time of making final proof of the application of water, a fee of two dollars shall be paid to the department, at the time of making such proof, for each legal subdivision of forty acres or fraction thereof to which such water may have been applied. Provided, that in the case of water used for irrigation, where two or more users whose lands join or who take water from the same common lateral, join in the publication of the notice of their intention to make such proof of application, a fee of one dollar for each legal subdivision of forty acres or fraction thereof receiving such water shall be paid to the department at the time of making such proof."

The land list given under this permit contains 1970 forties. Therefore the fee due for this proof is \$1,970.00. Upon receipt of this fee your license will be issued.

Very truly yours,

H. W. HARRIS
Commissioner of Reclamation

Re: PERMIT No. R-433

Mr. E. C. G. BRAINARD, Secretary
Lake Reservoir Company
Puyette, Idaho

Dear Sir:

On checking over the record of Permit No. R-433 preparatory to the issuance of Certificate of Completion of Works, and also license, we find that there is no land description recorded under this permit.

We know that the water claimed under this permit is to be applied to the same lands as those described in permits Nos. 14689 and 17670, but we think it would be advisable that there be some reference on the permit record itself to the lands to which this water is being applied. Therefore, if you will kindly mail us your copy of Permit No. R-433 we will make a statement on both your record and the office record which will suffice to take care of this matter.

We have issued a license under Permit No. 14689, and as quickly as the above matter has been taken care of we will issue Certificate of Completion of Works under Permit No. R-433 and also under Permit No. 17670.

Very truly yours,

R. W. PARIS,
Commissioner of Reclamation

Re: Permits No. R-433, 14689 & 17670
Lake Reservoir Co.

MR. E. O. BRAINARD, Secretary
Lake Reservoir Co.,
Payette, Idaho

Dear Sir:

We are enclosing herewith the following papers which have been issued in connection with the above permits: License under Permit No. 14689, Certificate of Completion of Works and License under Permit No. 17670 and Certificate of Completion of Reservoir and Right to Store Water and License under Permit No. R-433. We are also enclosing an order, prepared in accordance with Section 41-215, I. C. A., for the purpose of waiving the fee required in connection with beneficial use proof under permits 17670 and R-433.

You will note, with reference to the point of use, in each of the certificated and also the licenses, that the land list is given relative to the various districts and companies within your project rather than by legal subdivisions. We have described the lands to be irrigated in this manner rather than by giving the number of acres in each subdivision, as is required at the time when application for permit is filed, for the reason that the statute governing the procedure relative to the issuance of a license does not require this description by legal subdivisions when the project involves more than 25,000 acres.

We are also enclosing our office receipts in the total amount of \$1,904.30 for fees paid and also your copy of Permit No. R-433 which you mailed to us in response to our request.

Very truly yours,

R. W. FARIS
Commissioner of Reclamation

Re: Permits Nos. 7308, 14689 & 17670

MR. B. P. SHAWHAN
Payette,
Idaho

Dear Sir:

We have your letter dated February 5th advising us that you have been asked by the Federal Government to furnish full information as to permits and decrees affecting water rights in the Payette Heights Irrigation District.

An examination of the records reveals that Permit No. 7308, issued for 40 second feet of the waters of Payette River, was assigned by the Payette Heights Irrigation Co., Ltd., to the Payette Heights Irrigation District. The district offered proof of completion of works and obtained a certificate of completion of works for the 40 second feet. Final proof was due May 6, 1918, but to date has not been made. We were recently advised by Mr. Williams that the district had conveyed all of its interest in this right to the Payette Heights Water Company but there is no record of any such conveyance in this office.

There is nothing else in the name of the Payette Heights Irrigation District but I happen to be somewhat familiar with the rights held by the Lake Reservoir Company and upon examination I find Water License No. 14689, issued to the reservoir company for 200 second feet of the waters of Big Payette Lake Reservoir, includes the lands lying under the Payette Heights Irrigation District. As you probably know, the Lake Reservoir Company is what might be properly termed a holding company which delivers water to a number of ditch companies for an agreed consideration. The total lands to which the 200 second feet of water is appurtenant comprises 58,500 acres and the Payette Heights Irrigation District would, of course, be entitled to its proportionate share of the water.

Permit No. 17670, issued to the same company for 60 second feet of the waters of an unnamed stream, also includes the Payette Heights Irrigation District. Both proofs have been made and a license issued under this right.

I know of no other rights which would affect the district, nor to the best of my knowledge are there any decrees, since the waters of Payette River have not been adjudicated.

It might be well to contact Mr. E. S. C. Brainard, Secretary of the Lake Reservoir Company, who resides at Payette, for information relative to the basis on which the water is delivered, the cost, etc. and, further, whether or not other permits held by the company likewise apply to the district.

14689

#2 Mr. B. P. Shawhan, Payette, Idaho

2/11/36

You failed to give any specific information as to the source from which the water for this district is diverted. Therefore, it may be that there are other rights appurtenant to the lands lying within the boundaries of this district, and if you are of that opinion, I shall be glad to examine the records more fully if you can furnish some additional information.

Very truly yours,

R. W. FARIS
Commissioner of Reclamation

Edgewater

Cottages

Nelle Tobias

McCall, Idaho

On Payette Lake

July 25, 1944

RECEIVED

JUL 28 1944

Department of Reclamation

Mr. Mark Kulp
Office of State Reclamation Engineer
Boise, Idaho

Dear Mr. Kulp:

When the Lake Reservoir Company dam near Lardo, was set at a new angle, the force of the discharge was directed at a new point on the bank. Just above this point and not too far back on the bank sits the headquarters building and lodge of Edgewater Cottages. Perhaps through oversight or perhaps due to the weather conditions when the dam was finished last fall, this part of the bank was not riprapped.

It requires no more than a casual inspection to observe that this spring's run-off, which was not heavy, made an appreciable incision into the bank. A high water, such as we had year before last, and which I believe was equaled in river height in three or four of the previous years since I have been here, would be almost sure to cause the bank to slide, the type of earth being what it is.

It is understood that the Terteling Company is expected momentarily to finish some cleaning up around here; perhaps it would be possible to take advantage of their heavy equipment at this time. Otherwise it is hoped that the necessary riprapping may be started early next fall. The fact that weather conditions adapted to outdoor construction are unreliable after September, prompts me to suggest early consideration.

Sincerely yours,

cc- Keith Anderson, Secty.,
Lake Reservoir Company

Nelle Tobias

14689

AGREEMENT.

THIS AGREEMENT, entered into this 8th day of November, 1924, by and between PAYETTE LAKES PROTECTIVE ASSOCIATION, a corporation, of Boise, Idaho, and hereunto duly authorized by resolution of its directors, party of the first part and the LAKE RESERVOIR COMPANY, a corporation, of Payette, Idaho, being hereunto duly authorized by resolution of its board of directors, party of the second part; Witnesseth:

That for and in consideration of One Dollar and other good and valuable considerations from the party of the first part, the receipt of which is hereby acknowledged by the party of the second part, the said party of the second part agrees to and with the party of the first part:

That under use permit Number 14689 and storage permit R 216 for the waters of Big Payette Lake, proof of completion of works for which was made on October 30, 1924, at Cascade, Idaho, the party of the second part for itself, its successors and assigns, hereby agrees, that it claims and will claim no right, title, or interest of any nature whatsoever, to raise the waters of Big Payette Lake above the normal high water line or to lower the waters of Big Payette Lake below the normal low water line, and said party of the second part hereby further agrees: That it will not assert any right to the use of any waters of said Big Payette Lake except such waters as are between the normal high water line and the normal low water line and that the party of the second part will draw off said stored waters so as to interfere as little as possible with the bathing beaches on the shores of said lake, and will also use said waters in the fall so as to interfere as little as possible with navigation and logging uses of said waters, and will at all times so use said waters in as accommodating a

14689

way as possible, so as not to interfere any more than is absolutely necessary with the natural fluctuation of said waters, that is, any more than is necessary to carry out the intents and purposes of the party of the second part under its said permits, #14689 and R 216.

IN WITNESS WHEREOF, the respective parties, through their duly authorized officers, have hereunto affixed their corporate names on the day and year in this agreement first above written.

Filed 6-26-46 at—M

DECREE Forest E. Robb J. Clerk

This cause come regularly on for trial before the above entitled court, Hon. Chas. F. Koelsch, Judge, sitting without a jury, at Boise City, Ada County, State of Idaho, at the hour of 10:00 o'clock A.M., on the 7th day of January, 1946, pursuant to stipulation of the parties hereto and the order of the court, J. L. Eberle, Esq., and Carey Nixon, Esq., appeared as attorneys for the plaintiff, Payette Lakes Protective Association, a corporation, and T. L. Martin, Esq., and Fred M. Taylor, Esq., appeared as attorneys for the defendant, Lake Reservoir Company, a corporation; witnesses were sworn and examined on behalf of the respective parties and documentary evidence introduced, and the court having heard the evidence and the argument of counsel and considered the briefs of the parties and being fully advised in the premises and having heretofore made and filed herein its Findings of Fact and Conclusions of Law, now therefore it is hereby ORDERED, ADJUDGED AND DECREED, as follows:

1. That the rights of the defendant, Lake Reservoir Company, a corporation, to use Big Payette Lake, situated in Valley County, State of Idaho, for the storage and retarding of waters therein and the withdrawing and diverting of waters therefrom, are subject to the terms, provisions and conditions of that certain agreement between the parties here to dated November 8, 1924, recorded November 12, 1924, in Book 20 of Miscellaneous Records, at page 529, of the records of Balley County, State of Idaho, and on November 19, 1924, filed in the Department of Reclamaation, State Capitol Building, Boise, Idaho, as a part of the records of said office and pertaining to Reservoir permit No. R-216 and Use Permit No. 14689, which agreement is as follows:

AGREEMENT

"THIS AGREEMENT, entered into this 8th day of November, 1924, by and between Payette Lakes Protective Association, A Corporation, of Boise, Idaho, and hereunto duly authorized by resolution of its directors, party of the first part and the Lake Reservoir Company, a corporation of Payette, Idaho, being hereunto duly authorized by resolution of its borad of directors, party of the second part; Witnesseth:

"That for and in consideration of One Dollar and other good valuable considerations from the party of the first part, the receipt of which is hereby acknowledged by the party of the second part, the said party of the second part agrees to and with the party of the first part:

DECREE 65-R

"That under use permit Number 14689 and storage permit R 216 for the waters of Big Payette Lake, proof of completion of works for which was made on October 30, 1924, at Cascade, Idaho, the party of the second part for itself, its successors and assigns, hereby agrees that it claims and will claim no right, title, or interest of any nature whatsoever, to raise the waters of Big Payette Lake above the normal high water line or to lower the waters of Big Payette Lake below the normal low water line, and said party of the second part hereby further agrees; That it will not assert any right to the use of any waters of said Big Payette Lake except such waters as are between the normal high water line and the normal low water line and that the party of the second part will draw off said stored waters so as to interfere as little as possible with the bathing beaches on the shores of said Lake, and will also use said waters in the fall so as to interfere as little as possible with navigation and logging uses of said waters, and will at all times so use said waters in as accomodating a way as possible, so as not to interfere any more than is absolutely necessary with the natural fluctuation of said waters, that is, any more than is necessary to carry out the intents and purposes of the party of the second part under its said permits, #14689 and R 216.

" IN WITNESS WHEREOF, the respective parties, through their duly authorized officers, have hereunto affixed their corporate names on the day and year in this agreement first above written.

Fee \$1.20

That said agreement is the legal and valid contract of said parties thereto and is binding upon them, and each of them, and their respective officers, agents servants, employees and their successors and assigns; that the normal high water line in said agreement specified is 4989.29 feet above mean sea level, or 7.05 feet gauge height, and the normal low water line in said agreement specified is 4983.75 feet above mean sea level, or 1.51 feet gauge height, such gauge heights to be measured on the present staff and automatic recording gauge heights to be measured on the present staff and automatic recording gauges of the United States Geological Survey as now installed at the outlet of Big Payette Lake; that the defendant, Lake Reservoir Company, together with its officers, agents servants, employees and their successors and assigns, and all those claiming by, through or under them, or any of them, are, and each of them is, hereby perpetually restrained and enjoined from interfering with or using said Big Payette Lake for the storage and retarding of waters therein and the withdrawing and diverting of waters therefrom, in excess or violation of the terms, provisions and conditions of said agreement between the parties hereto dated November 8, 1924, as in this decree specified.

2. That the defendant, Lake Reservoir Company, together with its officers agents, servants, employees and their successors and assigns, and those claiming by through or under them, or any of them, are and each of them is hereby perpetually and permanently restrained and enjoined from:

(a) Operating or using said Big Payette Lake or its dam and diversion works near the outlet of said lake, and each of them, in such manner as to raise the waters and water level of Big Payette Lake above 4989.29 feet above mean sea level, 7.05 feet gauge height, or to lower the waters and water level of Big Payette Lake below 4983.75 feet above mean sea level, 1.51 feet gauge height, such gauge heights to be measured on the present staff and automatic recording gauges of the United States Geological Survey as now installed at the outlet of Big Payette Lake;

(b) Raising or causing to be raised the waters and water level of Big Payette Lake above 4989.29 feet above mean sea level, 7.05 feet gauge height, or lowering the waters and water level of Big Payette Lake below 4983.75 above mean sea level, 1.51 feet gauge height, such gauge heights to be measured on the present staff and automatic recording gauges of the United States Geological survey as now installed at the outlet of Big Payette Lake;

(c) Storing, retarding, withdrawing or diverting any of the waters of Big Payette Lake, except in such manner as actually and accurately measure the same by markers and devices of such design as to automatically and accurately measure and register the waters so stored, retarded, withdrawn, diverted or used, with particular reference to the normal high and low water lines, as in this judgment and decree specified, and the height or elevation of said lake and the water at all stages of storage and withdrawal of water

3. That all water stored and retarded in, and all water withdrawn and diverted from Big Payette Lake by defendant be measured and registered at the outlet of said lake and that said defendant shall install and maintain suitable and efficient markers and defices at the outlet of said lake and at suitable points on the shores of said lake so as at all time to automatically and accurately measure and register the elevation of the waters of said lake at all stages of storage and withwrawl of water, and the waters drawn or diverted from said lake; all such measuring devices and gauges, together with the prmises where the same are situated, shall at all times be subject to access and inspection of either party hereto and to public officials and watermasters having jurisdiction over the storage, retarding, withdrawing and diverting of any of the waters of Big Payette Lake.

4. That the Court retains jurisdiction herein to make all Reasonable rules and orders touching the marner of storing, retarding, withdrawing, diverting, measuring and registering the waters of Big Payette Lake and the devices to be installed and used for such purposes, as well as the devices to accurately measure and register the height or elevation of the waters of said lake at all stages of storage and withdrawl of the waters and to direct that the defendant, Lake Reservoir Company, keep accurate and detailed daily records of the measurements of such elevations and the amounts of water stored, diverted or withdrawn, and to require reports to be filed from time to time of the amounts of water so stored, diverted or withdrawn and the height and elevation of said lake at all times of storage, withdrawl or diversion of water, and generally to make such orders as may be found reasonably necessary to give effect to this decree and to appoint commissioners or water masters to control the storing, diversion measurement and withdrawl of the waters of said Big Payette Lake in accordance with the terms of this decree and to punish said defendant, Lake Reservoir Company, its officers, agents, servants, employees, their successors and assigns for any violations of the provisions of this decree.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED That the plaintiff have and recover from the defendant its costs and disbursements in this behalf incurred and expended, hereby taxed at the sum of

Done at Boise, Idaho, this 26th day of June, 1946.

TO FILE:

On June 9 this office received the attached rating curve of Big Payette Lake. The attached decree indicates that Lake Reservoir Company can store from Gage Height 1.51' to 7.05'. From the rating curve this amounts to 26,300 AF storage, which is a substantial amount (2,200 AF) less than the storage amount claimed.

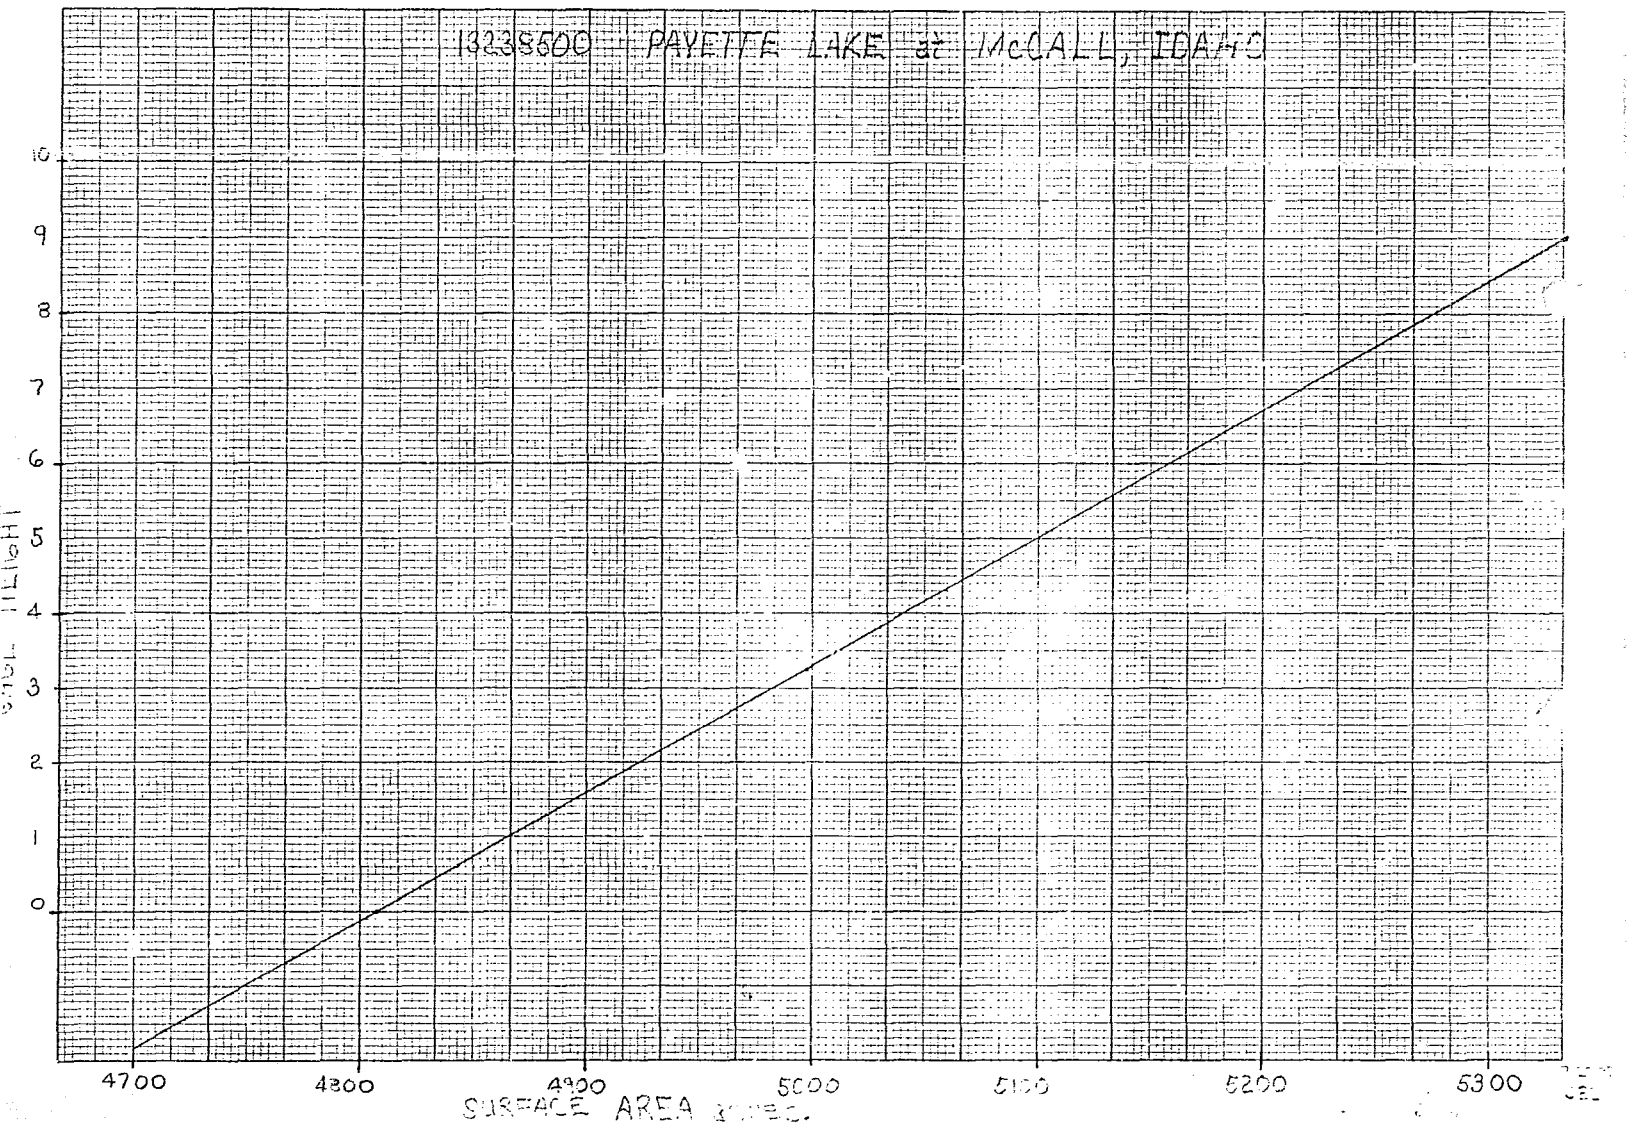

In an effort to find the source of the 28,500 figure I contacted Ed Parsons (Vice Pres) and Arthur Koskella (Pres). They did not know the source but ^{Mr Koskella} indicated ^{they} would check with the board at their meeting on July 9. He will contact us if they have any leads.

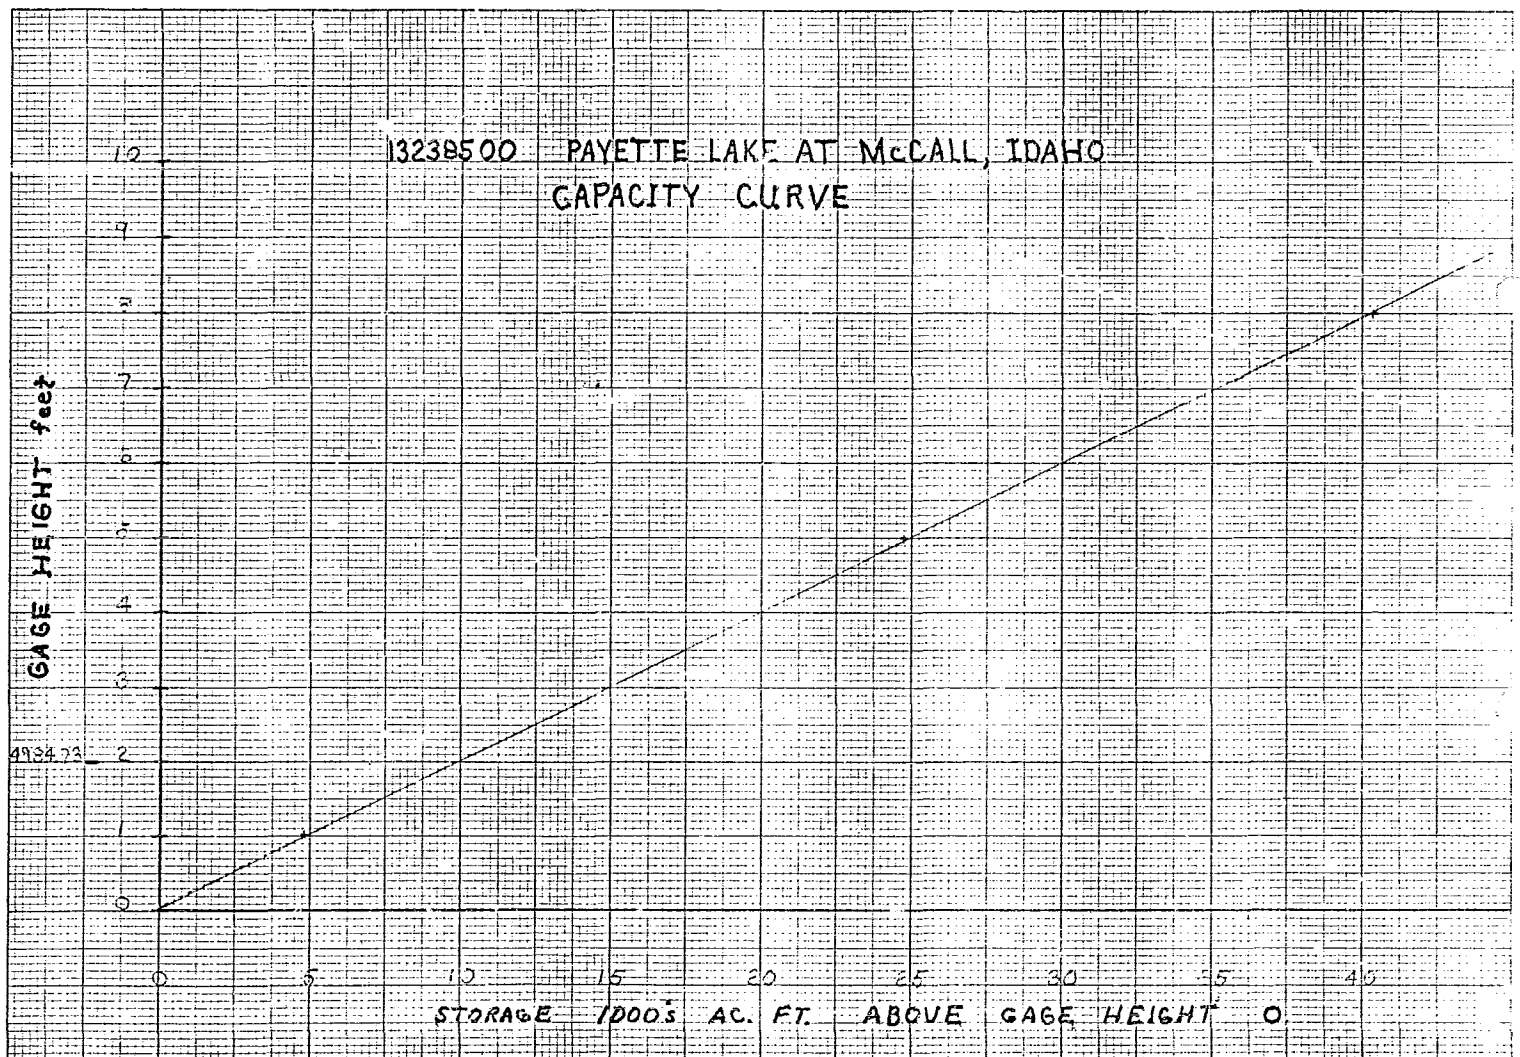

Mr Koskella also suggested that we contact the USGS to see if they came up with the original figure. This day I contacted Luther Kelstrom of the USGS, who will contact us if he finds any such records. If not, we will go with 26,300 AF. / Kelstrom found no records of such measurement
DRT 6-13-77

DRT 6-13-77

We received from Alan Robertson a map of Big Payette Lake ^{on} which the original estimate of 28,500 AFA was originally made. This map was drawn in 1920 and averages the area at high water and at low water to arrive at this figure. It is ^{probably} not as accurate as the attached rating chart. DRT 8-77

13238500 PAYETTE LAKE at McCALL, IDAHO

7/27/77 JEL

August 2, 1977

PAYETTE LAKE AT MCCALL

The attached capacity curve was developed in the following manner:

The surface area for the lake for three cases at various gage heights was determined by planimeter. First, the lake was planimetered from the USGS quadrangle, McCall, Idaho, 1973 at 4986 feet above msl, 3.27 gage height, and then from two sets of photographs acquired from the U.S. Forest Service at McCall. These were the 8/10/75 flight frame 0176-147 B.W., and the 9/6/74 flight frames 0174-62, 174-63 and 174-64 B.W. The respective gage heights for the flights were 6.28 and 4.87. The scales measured from visible landmarks on the photos were 1:81,200 and 1:44583. The areas from the two flights could not be reconciled with the quad sheet. Since the quad sheet provided the best horizontal control, it was used as the base area. The photographs were used to establish the slope of the reservoir surface area curve. This slope was drawn through the area determined from the quad sheet and this plot was used to make a capacity curve with zero storage at the zero gage height.

NOTE THAT THE STORAGE REPRESENTED BY 5.54 feet (*difference in elevation*)
(as decreed) = 27,750 AF (±250 cfs)

MEMORANDUM

May 23, 1979

TO: Jo Beeman

FROM: Don Shaff

SUBJECT: Big Payette Water Rights

The question arose of whether the Big Payette Lake maintenance elevations to which two parties agreed was a part of a water right when those elevations were further defined by a court decree.

The documents that pertain to the question are attached. In the Proposed Finding the two rights appear in Volume II, page 33. License 65-2333 was authorized by Section 67-4301, Idaho Code. Would you please review them and respond to the following concerns:

- 1) Would the water right 65-2278 be based on a license or decree, the former was recommended in the Proposed Finding?
- 2) Is a remark necessary for 65-2278 stating, "This right shall raise the elevation of Big Payette Lake no more than 4989.29 feet above mean sea level, nor less than 4983.75 feet above mean sea level."
- 3) With such a remark, is the volume 27,750 acre-feet as described in the Proposed Finding a part of the water right. This figure was calculated from capacity curves using the gauge heights as a parameter.

Department policy has been, I understand, to consider agreement between water right holders not part of their water rights. My questions came about because the decree refers to the water rights and defines one of those water rights in relation to the other. If there are areas I may have overlooked, please comment on those.

7.05 → 33,200 ac-ft

Payette, Idaho 83662

Dear Mr. Henggeler:

We have reviewed the proposal to draw Payette Lake down rapidly over the next few weeks and have no objection to an increase flow of 700 cfs.

Bill Hutchinson, McCall Hatchery, says there is no problem with his water supply and the fish habitat should not be adversely effected.

Thanks for considering the fish and game aspects of this proposal.

Sincerely,

A handwritten signature in cursive script, reading "James F. Keating".

Mr. Robert Henggeler
Lake Reservoir Company
114 North 8th Street
Payette, ID 83662

Dear Bob:

We have reviewed the proposal to draw Big Payette Lake down more rapidly than normal over the next several weeks.

This Department has no objection to increasing the drawdown rate at Payette Lake. Our review of available records indicates an outflow of 700 cfs should not cause flooding or erosion downstream from the dam and should approximately double the current rate of drawdown.

If you have any questions or if I can be of any additional assistance please call.

Yours truly,

DAVID B. SHAW
Western Region Supervisor
