STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
BENEFICIAL USE MEMO

Christian Stewart 2/19/25

Source was applied for as springs tributary to unnamed stream.

The points of diversion were all advertised as tributary to unnamed stream, except one spring which was advertised as tributary to Taylor Creek.

The permit was issued with the source: “Springs tributary to Taylor Creek”, but the legal descriptions and proposed points were all within the Cedar Creek drainage. It is unclear why the Department did not name springs tributary to Cedar Creek as a source on the permit, and why only one source was incorrectly listed as Taylor Creek.

There was no beneficial use occurring on any spring tributary to Taylor Creek.

The following picture and GPS location was provided by Nathan Dalling, a permitholder on 2/19/25.
