4. Place of Use. The proposed place of use must be described to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System. Government lot numbers can be noted in parenthesis below the approximate quarter-quarter location of the government lot. For water rights held by irrigation districts, municipal providers or irrigation companies, the proposed place of use may be generally described as authorized by Sections 42-202B, 42-219 and 42-222B, *Idaho Code*.

☐ N/A. This application does not propose to change a place of use.**Proposed Place of Use**

*Limited to 988.4 acres within proposed 1243.8-acre PPU.

Total Irrigated Acres: 1243.8

5. Map of Proposed System. Attach a map showing the location of the points of diversion, reservoirs, dams, canals, ditches, pipelines and other works proposed to be used to divert and convey water. Also show the location of the place of use, including any lands to be irrigated. The map should delineate the legal subdivisions including townships, ranges, sections, quarter-quarters and government lots. Label map as Attachment 3C.

PART 4 – ADDITIONAL INFORMATION

Section 42-222(1), *Idaho Code*, establishes the criteria used to evaluate transfer applications. An applicant bears the burden of demonstrating that the water right to be changed is a valid right, that the proposed use is a beneficial use, and that the proposed changes will not injure other water rights, will not enlarge the use of the original rights, are in the local public interest, and are consistent with the conservation of water resources within the state of Idaho. To satisfy this burden, an applicant must provide sufficient data and information for the Department to evaluate the effects of the proposed change. The Department may deny an application if the

Lori,
For purposes of scanning, could you send me an amended page 5 for transfer #89444 with the correction for Well E? The Laserfiche scanning makes it difficult to correct previously scanned pages.
Thanks!

Bill,
Per Fred's review and this email, please correct the typo on Transfer 89444 from 18E to 17E for Well E. Thank you.

Bill,

RE: Transfer 89444 (True West Beef LLC): Typo in POD
-involving 36-02283, 36-02386, 36-02608, 36-14617, 36-16951, 36-16952, 36-17232

POD on BLM: T08S, R18E, S12, SWSESE
-this POD should be described in R17E and is associated with 36-16952.

The transfer seeks to establish a PPD (permissible points of diversion (POD)) and PPU (permissible place of use (POU)) for the involved water rights.

POD on BLM:

Pg 5 of the transfer describes the list of PODs desired. One of the PODs is described on BLM land in T08S, R18E, S12, SWSESE. There is no authorization for a well in this area. We looked at all of the underlying water rights (pre-transfer) and none of them describe a POD in this location. The transfer states that this is not a new POD.

POD Typo:

Not seeing this POD on any of the underlying rights caused us to look at all the maps in the transfer. When you look at the map for 36-16952, there is a POD shown in T08S, R17E, S12, SWSESE. We believe that this POD is what was intended in the transfer for Well E.

What do you think?
