Hi Dana,

Here are all of these again. Please look at the the Obendorf's rights which have had the mitigation language changed, the name on 63-178C now shows The Iest Family LLLP and the change in the acre limitation on 63-33571.

The idea is to send these out for signature as soon as we get the correct signatory names for each from you. Then, if you get me a deed for the land under 63-178C with the name of The Iest Family LLLP on it I can change our database. I wanted these circulating for signature asap so I changed the name in the overstrike/underline format for the SF5s.

Email Suzy or myself the names for signature on the cover sheets and we will get these out the door.

Thanks,
Jan

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 63-129D V1

WATER RIGHT NUMBER: 63-129D V1

<u>Owner Type</u>	<u>Name and Address</u>
Current Owner	GREG OBENDORF 26496 DEB LN PARMA, ID 83660 (208)722-6451

Conditions of Approval:

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 63-129D V1

1. Diversion for mitigation water under this water right prior to April 1 and after October 31 shall occur only when the natural flow of the Boise River below the Star Bridge in Township 04 North, Range 01 West, Section 18, NE¼ of the SE¼ of the SE¼, Boise Meridian (approximate river mile 33.9) is sufficient for water to be available for diversion at the point of diversion described above, provided that any such use of this water right prior to April 1 and after October 31 shall not interfere with storage of water under water rights for Lucky Peak, Lake Lowell, Arrowrock, or Anderson Ranch Reservoirs.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
3. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
4. 183 Whenever it becomes necessary for the watermaster to deliver this right the following condition shall apply. This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.
5. This right is diverted from the Boise River in the SWSE, S25, Twp. 5N, Rge. 5W, and injected into Sand Hollow Creek in the NWNW, S25, Twp. 5N, Rge. 5W for mitigation of Sand Hollow Creek Right Nos. 63-33570 and 63-33571.
6. SD1 This right originated as all or part of right no. 51 in the Stewart Decree and the historic Boise River Water Masters records.
7. This right is a split of Right No. 63-129B per settlement agreement dated 2-11-11.

Remarks:

Comments:

1. jshurte 8/1/2011 obj resolution

Comment: This recommendation is a result of a settlement agreement between Obendorf and Tree Top dated 2-11-2011. Mitigation is being recommended as the use rather than irrigation due to the fact that the Boise River water is injected into Sand Hollow creek below the points of diversion from Sand Hollow Creek for irrigation. See copy of agreement in file.

2. jshurte 5/22/2013 Final recommendation

Comment: See documents in 63-127D explaining this recommendation and the others for Obendorf.
