Dear Ms. Bennion,

I don't have an e-mail address for Mr. Kimball, could you please forward this to him?
The Dept. receive his 2016 Watermater delivery report on March 6th but the Affidavit of Watermaster was not included in the report. Can you please have him fill out the attached affidavit and return it to the Dept. as soon as possible. The form does **not** have to be notarized.

Sincerely,
Carrie Hahn

RE: WD 37U Decreed Water Rights

Lawrence,

In response to our phone conversation today about the current water situation with the decreed water rights from Fish Creek. It appears that all the water rights from the 1883 decree are diverted at the same location from Fish Creek. The responsibility of the Watermaster is to deliver the water to that point of diversion, once the water is in the ditch it is the responsibility of the users or Irrigation Company to distribute the water among the users. The users should work together to distribute the water appropriately. The water should only be used on land identified on the water rights. Also there are no restrictions from the Department on rotating the use of the water once it is in a ditch.

Respectfully,
