WATER DISTRICT NO. 65-K
Minutes, Annual Meeting
March 7, 2016

The annual meeting of Water District No. 65-K was held on March 7, 2016 at 1:00p.m.at the Donnelly Fire Station in Donnelly, Idaho.

The following were present: Harry Bettis, Laura Bettis, Ben Rydalch, Isaac Babcock, Clint Colpo, Ron Platt, John Leedom, Justin Florence, Shirley Florence, Art Troutner, Kevin Miner, Danie Merriman and Nick Miller with IDWR.
The meeting was called to order by Harry Bettis. Harry Bettis made a motion to appoint Laura Bettis as chairman for the meeting. Justin 2nd the motion. Motion carried. Shirley Florence was reappointed as secretary-treasurer for the year.

The following business was transacted:

1. The minutes of the March 2, 2015 meeting were read. Art made a motion that the minutes be approved. It was 2nd and the motion passed.

2. The financial report was presented. The balance on hand is $8285.06 (report attached).

3. The water master's proposed budget for the year 2016 was presented. The amount proposed is $6187. Harry made a motion to approve the budget as presented. Kevin 2nd it and the motion carried.

4. Harry made a motion to keep the water master's wage at $47.50 a day. Justin 2nd it and the motion carried.

5. Laura read the following resolution pertaining to the collection of water user fees as set by the budget:

- "The water users of Water District No. 65-K do hereby resolve: that no ditch or canal company, or other water user shall have the right to demand and receive water, and the water master shall not deliver to such water user, until the amount due and payable from such user, as set forth by the budget, has been paid."

Ben motioned to accept the resolution. It was seconded and the motion passed.

6. Harry nominated John Leedom as watermaster for the coming year. The motion was 2nd by Kevin. John was elected by unanimous vote.

7. Chairman Bettis appointed the following to the advisory committee:
Justin Florence, Will Maki, and Ben Rydalch.

SCANNED
APR 15 2016

8. Report for the 65-K Rental Pool: 263.11 acre feet of water was rented out. (report attached) There is an accumulated balance of $3186.60 in the rental pool account.

9. New Business:

Shirley reported that she has registered 65K water district with the state as required.

Clint Colpo asked about the issue of people using the canal and ditch banks for recreational use. Is this OK? A discussion was held.

Harry Bettis read an Idaho Statue that #65D water district read at their meeting. Discussion was held.

The next meeting will be March 6th, 2017 at 1:00 at the Donnelly Fire Station.

10. With no further business, Harry motioned to adjourn the meeting. It was seconded and the motion carried. The meeting adjourned at 1:35p.m.

Respectfully Submitted

Shirley Florence
Secretary

Annual Water District Meeting Checklist

Per Idaho Code Title 42 Chapter 6 (Distribution of Water Among Appropriators), annual water district meetings must include (at a minimum) the actions listed below.

IDWR wants to ensure each water district is meeting these minimum standards. Please return this completed checklist to the appropriate IDWR regional office with the annual meeting minutes (this list does not replace meeting minutes) *or* ensure that all of these actions are clearly addressed in the meeting minutes.

REMARKS

GUIDELINES FOR RECORDKEEPING

1. Use the official daily record book. Do not use substitutes. If you prefer to record notes in another text, transcribe to the daily record book immediately.

2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.

3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or headgate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and headgate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.

4. If the water being delivered is not actually measured, enter an "E" in the fraction portion of the grid space for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.

5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of nondelivery.

6. A blank grid space means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.

7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.

8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream rightholders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.

GUIDELINES FOR RECORDKEEPING

1. Use the official daily record book. Do not use substitutes. If you prefer to record notes in another text, transcribe to the daily record book immediately.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or headgate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and headgate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an "E" in the fraction portion of the grid space for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of nondelivery.
6. A blank grid space means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.
7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream rightholders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.

WATERMASTER'S

DAILY RECORD

Stream Lake Fork Creek

Water District 65-K

Month of June - July 19 2015

Watermaster John Leeds M

P.O. Address 320 Knights RD
McCall ID 83638

After the irrigation season the Watermaster must forward this book and the annual Watermaster report to the appropriate IDWR regional office.

If this book is lost, the finder will please return it to the Watermaster of the district, as it contains valuable records.

REMARKS

GUIDELINES FOR RECORDKEEPING

1. Use the official daily record book. Do not use substitutes. If you prefer to record notes in another text, transcribe to the daily record book immediately.

2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.

3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or headgate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and headgate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.

4. If the water being delivered is not actually measured, enter an "E" in the fraction portion of the grid space for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.

5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of nondelivery.

6. A blank grid space means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.

7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.

8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream rightholders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.

REMARKS

_____

GUIDELINES FOR RECORDKEEPING

1. Use the official daily record book. Do not use substitutes. If you prefer to record notes in another text, transcribe to the daily record book immediately.

2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.

3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or headgate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and headgate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.

4. If the water being delivered is not actually measured, enter an "E" in the fraction portion of the grid space for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.

5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of nondelivery.

6. A blank grid space means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.

7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.

8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream rightholders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.

Dear Ms. Florence,
Enclosed is your certificate of appointment as treasurer of Water District 65K Lake Fork Creek. The treasurer's terms of service follows that of the watermaster: *"throughout the year, extending until the annual meeting for the ensuing year, or until a successor is appointed"* (Idaho Code §42-608(1)). Based on the code, the treasurer's appointment is from one annual meeting to the next, generally speaking.

Thank you for serving the State of Idaho and your community. Feel free to contact this office with any questions or concerns.

Sincerely,

Rachel Neely
Administrative Assistant

Dear Water District Secretary or Watermaster,

Enclosed are several documents related to the annual water district meeting.

1) **Information form to provide the Idaho Department of Water Resources (IDWR) the date, time, and location of the next annual water district meeting.** Please complete the meeting information form and return it to IDWR. Upon receipt of the completed form, IDWR will send a meeting notice to each water user and interested party in the district. Meeting notices must be mailed no later than three weeks before to the meeting date. Therefore, to provide IDWR adequate time to create and mail the notices, please **return the completed form to IDWR as soon as possible or at least four weeks before the meeting dates.**

2) **List of water right owners within your district.** Look over the list and mark any name or address changes or additions. An accurate review of the list will ensure all users and interested parties are informed of the meeting. Return the corrected list with the completed meeting information form.

3) **Annual Meeting Checklist.** Per Idaho Code Title 42 Chapter 6 (Distribution of Water Among Appropriators), annual water district meetings must include (at a minimum) the actions outlined on the checklist. Fill out this form during the meeting and return with the meeting minutes or ensure your meeting minutes describe each of these actions.

If you are no longer the water district secretary or watermaster, please forward this to the current secretary or watermaster or return this correspondence to IDWR as soon as possible.

If you or water users have any questions or concerns about the annual water district meeting or ownership/address changes, please contact Rachel Neely at (208)334-2190 or Rachel.Neely@idwr.idaho.gov.

Sincerely,

Rachel Neely
Administrative Assistant
