becoming part of WD100 was discussed and Gene relayed there are certain issues keeping that from taking place at this time.

Re: Summary of WD 100 2009 Activities

In January, Water District advisory and public meetings were conducted. Election of IDWR to contract Watermaster services, and therefore, measuring and reporting, was a part of the annual meetings.

The January, February, and March time frame was spent performing WMIS activities. They include updating water user report information, power utility input, and city reporting. Preparing a 2009 visit list was also accomplished.

On March 25, 2009, the Fuji Sonic Flowmeters located in Eastern Regional Office were taken to Kimberly Idaho for calibrations. Heather Bohac, Blake Jordan, and Denise Kidman participated in the calibration activities. Additionally, on March 26, 2009, after installing a new backup battery in one of the meters, I returned to the Calibration Lab and calibrated a sonic meter.

The week of 4/6/2009 and the week of 4/13/2009, 25 network wells were measured for depth to water and data was entered into the WMIS database.

On April 8, 2009, Ernie Carlsen, Gene Hansen, Heather Bohac, Kenda Jones, and Wendy Murphy attended a Watermaster Training Workshop in Pocatello Idaho. It was a one day event.

The measuring process for the spring and summer began in late April and early May. Because of the residual and stored soil moisture, not many wells used for irrigation were initially used.

On May 27, 2009, Ernie Carlsen, Gene Hansen, Heather Bohac, Kenda Jones, and Wendy Murphy attended a Hydrographers Workshop in Jerome Idaho. It was a one day event.

The first three weeks of June had above normal amounts of rain and not much measuring activity was conducted.

On 7/1/2009, Tim Luke responded to concerns raised by Brian Higgs, concerns about not being able to measure one third of the points of diversion due to the wet spring. Brian Higgs is the measuring and reporting contractor for two ground water districts within WD120. Tim responded stating that he was more concerned about the quality of the measurements and that the one third protocol was sure to be made up in the coming years seasons. The same concern was had for WD100, and as stated, the protocol measurements can be made up in coming years.

At the conclusion of the measuring season, 28 sites were visited. An attempt to visit an additional 12 sites was performed. A normal one third protocol would have been 35 sites visited. The wet spring hampered the ability to conduct the protocol number.

The week of November 2, 2009 and the week of November 9, 2009, 25 network wells were measured for depth to water and data was entered into the WMIS data base.

The November and December months have been spent on WMIS data base cleanup.

Water District 100 Annual Meeting
February 25, 2009
Freemont-Madison Irrigation District
2:00 P.M.

Meeting called to order at 2:00 P.M. by Dale Swensen.. Those in attendance were, Wendy Murphy (IDWR), Gene Hansen (IDWR), Heather Bohac (IDWR), Kenda Jones (IDWR), Mark Ricks (FMID), Jeff Raybould (FMID), Richard Crapo (FMID), Dale Swensen (FMID), and John Millar (FMID).

A motion was made for Dale Swensen to remain as committee chairman, motion was seconded and Dale will remain as chairman.

Minutes from 2008 annual meeting were reviewed by attendees. A motion was made to accept minutes as written and the motion passed.

Wendy Murphy presented the financial report. The Profit/Loss statement shows total income reported from 02/08-01/09 as \$5934. Assessments income was \$5869, \$260 above the budget of \$5600. Total expenses for the year were \$7273. This is over the budget of 5600.00 by \$1673. Net income is -1338.67. Balance sheet shows a bank balance of \$12,317. The Accounts payable balance is \$270. Accounts receivable were \$-988.68. Total liabilities and equities is \$11,328.98. A/R summary shows there are three people with outstanding balances. It was suggested we send out a letter with strong language to collect unpaid balances. John Millar motioned to accept financial report, motion was seconded and the financial report passed without opposition.

Gene Hansen gave the watermaster report. He gave a slide presentation that represented this year's water levels as compared to same time last year. Factors vary and we are in better shape this year. Reservoirs will probably be full this year and we are at 80% average to date. There are 86 diversions, of which 23 were measured this year. An additional 12 attempts were made without a measurement taken. Pump cards were discussed. 17 were sent out, 11 showed good reporting, 2 poor reporting, and 4 no reporting at all. Data needs to be turned in we need to find out why some are not reporting at all. Goals for 2009 are to re-visit and re- measure diversions with questionable data, and to re-visit and re-measure diversions not measured in 2007.

Dale Swensen discussed the 2009 Resolutions. Changes are as follows: #2 Gene Hansen will replace Ernie Carlson as Watermaster for WD100. #9) Alan Kelsch will replace Dale Rockwood as Treasurer. #5) the budget for the upcoming year was discussed and will be \$10, 500 for 2009. Gene Hansen discussed the Memorandum of Understanding and the need for this document to be in place. It only needs to be signed once and can be revoked at any time. It outlines the services provided by IDWR to the Water districts and what is expected of both parties. Dale Swenson moved to accept the 2009 Resolutions with changes, along with the "Memorandum of Understanding", Jeff Raybould seconded the motion and the Resolutions and MOU passed without opposition.

Total expenses for the year were \$7273. This is over the budget of 5600.00 by \$1673. Net income is -1338.67. Balance sheet shows a bank balance of \$12,317. The Accounts payable balance is \$270. John Millar motioned to accept financial report, motion was seconded and the financial report passed without opposition.

Gene Hansen gave the watermaster report. He gave a slide presentation that represented this year's water levels as compared to same time last year. Factors vary and we are in better shape this year. Reservoirs will probably be full this year and we are at 80% average to date. There are 86 diversions, of which 23 were measured this year. An additional 12 attempts were made without a measurement taken. Pump cards were discussed. 17 were sent out, 11 showed good reporting, 2 poor reporting, and 4 no reporting at all. Data needs to be turned in we need to find out why some are not reporting at all. Goals for 2009 are to re-visit and re- measure diversions with questionable data, and to re-visit and re-measure diversions not measured in 2007.

Gene Hansen called the meeting to order at 2:10 pm. Others in attendance were Wendy Murphy(IDWR), Dale Swensen(Fremont-Madison), John Millar(City of Rexburg), Rich Crapo, Blake Jordan(IDWR), Lisa Purvis(IDWR), Doug Sakota, Ken Sakota, Guy Erikson, Don Mickelsen, Dan Owen(Brown), and Grant Ruter.

Rich Crapo nominated Dale Swenson for meeting chairman. Guy Erikson seconded the motion. Doug Sakato nominated Lisa Purvis for meeting Secretary and John Millar seconded the motion.

Don Mickelsen moved to accept the minutes as presented and Rich Crapo seconded the motion. The minutes were passed.

Wendy read the financial report. Evans and Poulsen are in the process of auditing the finances so it is in draft form. Guy Erikson moved the financial report would be accepted and Rich Crapo seconded the motion. The financial report was approved.

Gene Hansen presented the Watermaster report. There are 85 diversions of which 37 were measured this year. Protocol is 1/3 which would be around 20-25. In the future, there will be more sites to be measured. Water users will be measured if irrigating over 5 acres or .24 cfs.

Gene discussed pending NOV's for water users watering outside of their right. So far, Water District 100 hasn't had any problems with this issue. A GPS satellite image gives an aerial view and shows what land is being watered. Pending Notices of Violations were sent to users in Water District 120. Notices will also be mailed to Water District 100 users in 2008. Water users with NOV's either have to obtain a water right or rent water from a source in order to irrigate. Goals for 2008 are to re-visit and re-measure questionable measurements.

Dale explained the 2008 resolutions. John Millar motioned to accept the 2008 resolutions with the addition of electing the 2008 Advisory Committee and Guy Erikson seconded the motion.

The advisory members were elected as follows: Rich Crapo, Dale Swenson, Don Mickelson, Randy Huskinson, Jeff Raybould and Curtis Parkerson of Sun-Glo. Rich suggested they are open to the nominations. Curtis Parkerson will replace Rich Crapo since he (Curtis) is doing the same thing at Sun Glow. John Millar motioned to adjourn the meeting and Rich Crapo seconded the motion. The meeting adjourned at 3:11 pm.

Snowpack is Half of Average

The Natural Resources Conservation Service December snow survey shows current snowpacks in Idaho are 45-80 percent of average but only 20-30 percent of their seasonal peaks, which occur in early April.

Snow surveys are conducted at the end of each month from December through May to make snow runoff predictions and water supply forecasts used in managing Idaho's water resources.

"Don't be tricked by December's cold temperatures," said Ron Abramovich, NRCS Water Supply specialist. "Those cold temperatures were accompanied by below normal

precipitation. Currently, the snowpacks across the state are shallow."

November, December and January are generally Idaho's biggest precipitation months, but November and December did not come through. November precipitation amounts were only 20-30 percent of average across southern Idaho and 40-60 percent in central and northern Idaho. December temperatures set record lows at many of Idaho's SNOTEL sites; precipitation ranged from 45 percent of average to near average.

"With more than half the winter still to come, the water supply pic-

ture will hopefully improve," added Abramovich. "Above average precipitation will be needed for the next three months to reach average snow water content amounts in the mountains by April."

The highest snowpacks are 75-80 percent of average in the Panhandle region and the Weiser, Owyhee and Oakley basins. The lowest snowpacks are 45-55 percent of average in the Little Wood, Willow, Blackfoot, Portneuf and Bear basins, as well as the critical Snake River Basin above Palisades Reservoir. Elsewhere, snowpacks are 58-68 percent of average.
