August 31, 2010

Special meeting and regular meeting of the water district 61C & 61E Bennett Creek and Cold Springs Creek.

Chair: Lee Blackwell called the meeting to order. Discussion was held on the fact that some people didn't come because they did not know this was a regular meeting. Everyone should be aware of concerns and it was decided a letter could inform everyone.

Discussion on changing regular meeting to first Tuesday September 6, 2011. Motion by Lynn second by Juan, motion carried.

Election of Officers:

Chair: Nick Nettleton (3)

Teresa McCallum (3)

Chair: Lee Blackwell broke tie with a vote for Teresa.

Secretary: Elsie M. Riggs by declamation

Advisory Board: All members same as last year

Motion by Juan, second by Chewy to change the by-laws so meeting can be held second Tuesday of September. ?

Election of Water Master: Jennifer Baker (1)

Gary Ellis (1)

Water Resources (4)

The vote went for the Water Resources. Much discussion was held. One year trial for this plan. Plan B would have Gary Ellis as Water Master. Motion by Dave, Lynn second, vote carried for Water Resources with a revisit next meeting.

Juan put forth Half Moons wish that all head gates be locked and only water master have the key. Much discussion was held with the main concern that this would be hard to do on our creek. The water master would have to ride the creek everyday like they do on a canal. Juan moved that everyone have a lockable head gate. If the user doesn't comply with the water master then their head gate may be locked. Motion by Juan, second by Chewy, motioned carried.

Much discussion that measuring devices should be closer to the point of diversion. John Westra explained measuring should be closer to points of diversion.

Gary Ellis had questions on training. Suggestions from Teresa that training should be done out on the actual creeks. Discussion was held on the way the water master should ride the creek by starting at the top and working downward. This hasn't been done before because the training didn't cover in depth instructions.

Budget: Bank \$2,740.02

Motion by Teresa for \$1,000.00 slush fund, if we get lower we should have a special meeting for additional money before we run out. Second by Harley, motion carried.

Water master \$42.00 per hour from the time they leave Boise until they get back. Approximately 8 hours per call out. Motion by Juan, second by Lynn, motion carried.

Respectfully submitted,

Hello John,

I just received a telephone call from Theresa McCallum concerning a water district meeting. Apparently, she had called a meeting for the first Tuesday of September or this week, and the Department sent out a notice for next Tuesday. She is calling everyone to make sure they follow the Department's notice, and go to the meeting next Tuesday, September 7<sup>th</sup>.

She asked if I was attending the meeting, and I told her that I wasn't going to be there. Starting Thursday of this week, I am going to be out of the office for 4 to 8 weeks. I am going in for surgery on my shoulder.

I told Theresa that I would contact you and let you know. If you have any questions, please don't hesitate to give me a call.

John,

Christine Roberts advised me that she sent out annual meeting notices for WD61E earlier this week – they are having a meeting on 9/13. Is this sort of another special meeting or do you anticipate the annual meeting normally being held in September? I understood the timing of a late season meeting last year but it seems a little strange if we are going forward with a regular annual meeting towards the end of each irrigation season.

Cold Springs - Bennett Creek Water Dist.

Last week when Teresa received a copy of the Water masters report for the annual meeting I was surprised to learn that in the opinion of the Water master we are in "Non-Compliance".

1. We have two Magnetic flow meters.
2. Both lines are lockable.
3. The in stream weir was repair as we stated it would be. However, the ditch washed out again.

At which point it was no longer used. Before use we will repair the system.

The water master states that "Harley was happy", well I want to be happy too! When a water master has an issue he should contact the person at that time regarding any concerns. So that way a person could meet with him to explain the system, or correct it if needed. Why there was fluctuation in the flow meter, I don't know maybe it had an air bubble. However the pipe is always full.

As the Water master states "With the creek essentially dry it seems a mute point". With the water master being mute at the time it does not allow for the issues to be resolved.

respectfully submitted,

John B. McCallum

Re: 2011 Annual Meeting

Dear Mr. Westra,

Like last year I feel it could be important to send you a quick letter to state the outcome of the of the Annual meeting while it is fresh in my mind.

Again the meeting was well attended only 7 users were absent and of those 3 Were represented by proxy. As before agendas, minutes of the last two meetings and water master reports were distributed, with copies of By-Laws available if needed.

The meeting was convened at 2:04 pm September 13th, 2011 at the Glenns Ferry City Hall.

Elsie read the August 31, 2010 minutes moved by Lee Blackwell, 2nd by Dave Reynolds approved as read. Elsie read the March 16, 2011 minutes moved by Nick Nettleton , 2nd by Ann Wilson approved as read.

Treasurers Report: Elsie stated that there is a balance of 2382.20 in the account the only deductions were 50.00 for supplies and 300 Workman's comp. She was questioned about the water master pay and indicated that he had not been paid at this time but would be.

Water master's Report: The Water master was not in attendance. However everyone was given the one page report along with the 2 page letter with his recommendations and concerns. At this point Mr. McCallum was given the floor for comment on the report and submitted a letter to be attached to the water master report. The report and John's letter are enclosed. The report was approved with Mr. McCallum's letter attached.

Old Business: The separation of Cold Springs Creek and Bennett Creek water districts. Some discussion was had mostly involving the logistics this passed 10 to 0, with majority of Cold Springs users abstaining.

Consideration of role of advisory Committee, that it should be a smaller group. With the creeks now split it was decided to postpone the discussion till the election of officers.

Consider the budgeting issues in regard to the conflicts on the creek to be more isolated to the water users involved. It was discussed again that so far we have been unable to determine another way in

which to separate the expense within the district, and if there were any suggestions to please submit them. Then the conversation turned to the existing funds and that there was a certain amount of those funds that should belong to Bennett Creek users. Nick Nettleton made a motion to have 40% of the existing funds distributed to Bennett Creek Water District. Seconded by Joanne Hunt, the motion passed 8 to zero.

Next on the agenda we asked for any By-Law changes. Ann Wilson moved to adopt the annual meeting date change to the second Tuesday of September. This was 2nd by Joanne Hunt. This also passed unanimously.

New Business: At this point we went back to the issue brought up by the water master requesting weekly callouts during the water season. Harley Riggs put forth a motion to have the district set up for weekly callouts beginning March 15th till July 1st. This was seconded by Joann Hunt. Much discussion was given on why it should be for the entire flow season vs. the last month to month and a half. Why waste the money during high water? All in all the motion passed by a vote of 9 yea, 2 nay, 3 absent, 6 abstaining (Bennett Creek users).

Proposed Budget: Nobody wanted to do the math in their heads during the meeting, so it should end up something like this.

Beginning Balance:	2382.20
Less unpaid Callout	<u>75.00</u>
Available Funds	2307.20
Less 40 % Bennett	<u>922.88</u>
Remaining Bal	1384.32
Less slush reserve	<u>1000.00</u>
	384.32
-	
1200.00	For known callouts
300.00	For unknown callouts
300.00	Workman's Comp
<u>50.00</u>	Supplies
1850.00	2012 Expected Expenses

Normally we would subtract the 384.32 and the balance would be billed to the water users. We rounded it off and proposed to bill \$1500.00 to the remaining Cold Springs water users. Ann Wilson made the motion Jim Chambers 2nd passed unanimously

Election of Officers: President - Teresa McCallum, Secretary/Treasurer - Elsie Riggs, Water master - Richard Neal, Although he was not there to except nomination. We were all reinstated without objection. The Advisory Committee was determined to be all users again, since there will be a smaller group to contend with.

Meeting was adjourned to 2nd Tuesday of September (September 11th, 2012) at 2:00 pm at Glenns Ferry City Hall. Moved by Lynn Riggs, 2nd by Ann Wilson, passed unanimously.

**RE: Watermaster Appointment 2012— Little Canyon Creek #61D**

Dear Ms. Baker:

Enclosed is your Watermaster Certificate of Appointment for the 2012 season.

You will take charge of the water of the district and distribute the same in accordance with the laws of Idaho and decrees of the courts. Distribution shall be in accordance with the terms and conditions of the user's respective rights, and as may be required by the Department of Water Resources. You should note that the enclosed Certificate of Appointment authorizes delivery of natural flow and also stored water pursuant to Section 42-801, Idaho Code.

During the 2011 session, the legislature made several significant changes to the Watermaster Statutes in Chapter 6. In summary the following changes were made:

- Under IC42-605, new watermasters will continue to file an oath of office with the Department. However, a duly appointed watermaster that is reelected in consecutive years will no longer be required to file additional oaths each year.
- Under IC 42-608, a wateruser no longer is required to submit a written Petition for Watermaster Services to the Department when calling the Watermaster. The wateruser now calls the watermaster directly when there is a necessity for control and distribution of water within the district.
- Under 42-615, the watermaster no longer have to submit the district proposed budget to the Department. They are to prepare a proposed budget 14 days in advance of the annual meeting. The proposed budget and distribution should be submitted at the annual meeting for consideration by the water users.

These changes definitely will eliminate significant paper work and time for all parties. Feel free to contact our Western Regional Office if you need assistance during the irrigation season, phone 334-2190.

Sincerely,

*John Westra*
