REMARKS

_____

GUIDELINES FOR RECORDKEEPING

1. Use the official daily record book. Do not use substitutes. If you prefer to record notes in another text, transcribe to the daily record book immediately.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or headgate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and headgate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an "E" in the fraction portion of the grid space for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of nondelivery.
6. A blank grid space means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.
7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream rightholders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.

_____

GUIDELINES FOR RECORDKEEPING

1. Use the official daily record book. Do not use substitutes. If you prefer to record notes in another text, transcribe to the daily record book immediately.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or headgate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and headgate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an "E" in the fraction portion of the grid space for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of nondelivery.
6. A blank grid space means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.
7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream rightholders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.

RE: 2012 Watermaster Report- Lake Fork Creek

Dear Mr. Leedom:

Enclosed is a copy of the Watermaster's Annual Report for the 2012 irrigation season. The report has been approved by this Department in conformity with Idaho Code Sections 42-610 thru 42-615. **The Watermaster should be compensated for services conforming to the report.**

Feel free to contact me if you have any questions, phone 334-2190.

Sincerely,

FOR:

To: John Westra

This letter is regarding the Jumbo Creek gaging station. I am writing to inform you that the USGS disctinued service at the end of September. They told us that NRCS was funding this station, and that there was no longer money in their budget to continue operating it. I talked to Doug at USGS, he said that the station cost about $17000.00 a year to operate. There is no way that Lake Irrigation can afford this. I feel that there is no way that we can operate without this gage. I feel this is very important for the safety and monitoring of Little Payette Lake. Without this gage, they will be no way for me to know how much water is coming into the lake. As the water master of 65-K, I have no way of knowing how to deliver the river rights without the gaging station. I don't know if you have any ideas of how to fund this station. Do you have any ideas of how to function without it? There is no measuring staff or anything to go by since Browns Pond washed out. The station is fully automated; this station was installed after the washout. I know USGS had been maintaining it year round. I feel that is does not need to be maintained year round. I know we could get by with maintaining it from April 1st through Sept 31st. This would give us all the data we would need to store and release Little Lake safely, also it would allow me to distribute the river right accurately.

John Leedom,

Manager Lake Irrigation Dist.

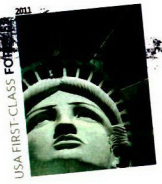

Water Master 65-K

RE: Watermaster Appointment 2012— Lake Fork Creek #65K

Dear Mr. Leedom:

Enclosed is your Watermaster Certificate of Appointment for the 2012 season.

You will take charge of the water of the district and distribute the same in accordance with the laws of Idaho and decrees of the courts. Distribution shall be in accordance with the terms and conditions of the user's respective rights, and as may be required by the Department of Water Resources. You should note that the enclosed Certificate of Appointment authorizes delivery of natural flow and also stored water pursuant to Section 42-801, Idaho Code.

During the 2011 session, the legislature made several significant changes to the Watermaster Statutes in Chapter 6. In summary the following changes were made:

-Under IC42-605, new watermasters will continue to file an oath of office with the Department. However, a duly appointed watermaster that is reelected in consecutive years will no longer be required to file additional oaths each year.

-Under IC 42-608, a wateruser no longer is required to submit a written Petition for Watermaster Services to the Department when calling the Watermaster. The wateruser now calls the watermaster directly when there is a necessity for control and distribution of water within the district.

-Under 42-615, the watermaster no longer have to submit the district proposed budget to the Department They are to prepare a proposed budget 14 days in advance of the annual meeting. The proposed budget and distribution should be submitted at the annual meeting for consideration by the water users.

These changes definitely will eliminate significant paper work and time for all parties.
Feel free to contact our Western Regional Office if you need assistance during the irrigation season, phone 334-2190.

Sincerely,

Rachel Sommer for:

John Westra,
Western Region

WATER DISTRICT NO. 65-K
Minutes, Annual Meeting
March 5, 2012

The annual meeting of Water District No. 65-K was held on March 5, 2012 at 1:00p.m.at the fire station in Donnelly, Idaho.

The following were present: Harry Bettis, Laura Bettis, John Leedom, Justin Florence, Will Maki, Clint Colpo, and Shirley Florence.

The meeting was called to order by Harry Bettis. Justin Florence made a motion to appoint Harry Bettis to act as chairman for the meeting. Will Maki second the motion. Motion carried. Shirley Florence was reappointed as secretary for the year.

The following business was transacted:

1. The minutes of the March 5, 2011 meeting were read. Justin made a motion to approve the minutes. Will 2nd it and the motion passed.

2. The financial report was presented. The balance on hand is $9313.88 (report attached).

3. The water master's proposed budget for the year 2012 was presented. The amount proposed is $5206.00. Justin made a motion to approve the budget as presented. Harry 2nd it and the motion carried.

4. Justin made a motion to leave the water master's wage at $45.00 a day. Will 2nd it and the motion carried.

5. Shirley read the following resolution pertaining to the collection of water user fees as set by the budget:

- "The water users of Water District No. 65-K do hereby resolve: that no ditch or canal company, or other water user shall have the right to demand and receive water, and the water master shall not deliver to such water user, until the amount due and payable from such user, as set forth by the budget, has been paid."

Harry motioned to accept to resolution. It was seconded and the motion passed.

6. Harry nominated John Leedom as watermaster for the coming year. The motion was 2nd by Will. John was elected by unanimous vote.

7. Chairman Bettis appointed the following to the advisory committee: Justin Florence, Will Maki, and Harry Bettis.

8. Report for the 65-K Rental Pool: 399.55 acre feet of water was rented out. (report attached) There is an accumulated balance of $6412.72 in the rental pool account.

9. Other Business: The gauge at Jumbo creek was discussed. Everyone feels that a gauge is needed even if it's just a manual one. John Leedom stated that John Westra will be in contact with him this week about the matter. Shirley read a letter received from the Valley County Treasurers office stating that they would no longer be collecting fees for entities that are not required by law to do so. Shirley presented a copy of the Idaho Statue 42-613 that states that it is required by law. It was decided to draft a letter pertaining to such and send it to the treasures office and the county commissioners. Shirley will contact Linda with 65D and talk to them about it too.

10. With no further business, Will motioned to adjourn the meeting. It was seconded and the motion carried. The meeting adjourned at 1:45p.m.

Respectfully Submitted

Shirley Florence
