Complete this proposed budget report form as follows:

- 1) Enter water right holder name, corresponding IDWR water right number or numbers, and corresponding diversion name and/or remarks on page 2.
- 2) If you wish to estimate next season's assessments based on the average delivery of past seasons, then enter the actual water deliveries to each user for the past two to five seasons on page 3. You have the option of using at least the past two seasons, or up to five seasons, for averaging. You also have the option of using last year's delivery or one year's delivery as a basis of determining assessments for the next season. Enter deliveries as total 24 hour second feet. Total 24 hour second feet is a flow rate expressed in terms of one day or 24 hours. For example, a continuous diversion of 2 cfs over 30 days would equal 40 24 hour second feet.
- 3) If using the averaging method, enter the average delivery for past seasons in column 6 of page 3. If you are not averaging, then enter each user's delivery from last year in column 5 and skip column 6.
- 4) In the work space provided at the top of this page, enter next year's proposed watermaster salary, secretary and/or staff salaries, and expenses. You may use the past season costs and expenses, or average past seasons' costs and expenses as an aid in determining next year's budget. A more detailed listing or itemization of expenses and salaries can be attached to this form.
- 5) Divide the total proposed budget amount for next year by the total past season delivery (total of column 5, page 3) or average past seasons deliveries (total of column 6, page 3) to obtain a unit cost factor.
- 6) Under column 7, page 3, multiply the unit cost factor by each user's past season or average past seasons deliveries to obtain the estimated billing for the next year.
- 7) Use column 8, page 3, to enter the adjusted billing amount if the district wishes to carryover debits and credits from the previous season. (Refer to the last watermaster report. If a user had a credit, subtract that credit from his or her estimated billing in column 7 of this report, and enter the difference or adjusted amount in column 8. If a user had a debit, then add that debit to his or her billing amount shown in column 7 and show as adjusted billing in column 8.
- 8) Sign the report and retain to present to the water users at the next annual meeting for the water district.

Nathan not sure what you would like to do with this correction that Arlen Crouch sent me however just making it known. Guess it could be corrected at the meeting next year but not sure so sending it to you.

Thank You Anita Clark

Copied form Arlen Crouch E-mail

Anita,

I apologize for being late in the response of reviewing the minutes of the water meeting. We have been traveling and finally are in the same place for a couple of days. You have done well with the minutes.

On the first page, where you wrote that you could not hear the motion and the second, Mary Peterson made the motion and Kathleen Peterson seconded.

One other thought, I think it is important to mention in the minutes that Tim Luke, because of the rudeness of Kathleen Peterson, suggested she be more polite or leave the meeting. She left the meeting. I do not remember the exact words but Derrel seems to think this covers it quite well.
