Rules for Record Keeping

- 1. Use the daily record book or personal spreadsheet.
- 2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
- 3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion continues to be delivered without a change in the flow or head gate setting, place an 'A' in the grid space for that day. The 'A' represents that the previous flow and head gate setting is "assumed." An 'A' must always be preceded by an actual numerical flow rate.
- 4. If the water being delivered is not actually measured, enter an 'E' in the grid space under the column *Meas. Method* for the particular day that the flow rate is estimated. An 'E' should always follow an estimated numerical flow that is observed and set in the field.
- 5. If water is not being delivered, enter a '0' (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of non-delivery.
- 6. A blank grid space means that you have no knowledge of the amount of water being delivered on that day. A grid should never be blank while you, as watermaster, are delivering water.
- 7. If possible, list the water right number in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference. If there are multiple rights at a diversion, please list the most senior right first. You may supplement this book with a list of water rights by priority for each diversion.
- 8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream right holders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.
- 9. If necessary or requested, you should submit a separate water rights list or reference sheet that associates water rights with current owners and diversion names.

REMARKS

5/3/18 Spr. Feeder 217A
put 1 board in. Will
look @ Creek tomorrow
Am I decide if all boards will
go in!
Start H2O turns on 5/4/18

Rules for Record Keeping

1. Use the daily record book or personal spreadsheet.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the Water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion is not measured on a given day, but you believe that water continues to be delivered without a change in the flow or head gate setting, place an "A" in the grid space for that day. The "A" represents that the previous flow and head gate setting is "assumed." An "A" must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an "E" in the grid space under the column meas method for the particular day that the flow rate is estimated. An "E" should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a "0" (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of non delivery.
6. A blank grid space; means that the watermaster has no knowledge of the amount of water being delivered on that day. A grid should never be blank while the watermaster is delivering water.
7. If possible, please list the water right no. in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream right holders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.
9. If necessary or requested, watermasters should submit a separate water rights list or reference sheet that associates water rights with current owners or diversion names.

REMARKS

6/8/18

4th Mill has been on full share thru 6/8/18!
Now on turns too.

6/11/18 - NO H₂O -

6/30/18 - Jerry M. H₂O on when I got to the weir to measure. Had been running for a few days out of turn. Called & of course he has no idea how it got turned on. LIAR!!

Rules for Record Keeping

1. Use the daily record book or personal spreadsheet.
2. Use a separate daily record book for each stream you administer. Do not mix the users of several streams into one daily record.
3. If the water being delivered is measured and the headgate set on a particular day, record the flow in cubic feet per second in the proper grid space. If water diverted at a particular diversion continues to be delivered without a change in the flow or head gate setting, place an 'A' in the grid space for that day. The 'A' represents that the previous flow and head gate setting is "assumed." An 'A' must always be preceded by an actual numerical flow rate.
4. If the water being delivered is not actually measured, enter an 'E' in the grid space under the column *Meas. Method* for the particular day that the flow rate is estimated. An 'E' should always follow an estimated numerical flow that is observed and set in the field.
5. If water is not being delivered, enter a '0' (zero) in the proper grid space. If the water right is cut off because of unavailability of water, a zero may be entered in the grid space corresponding to the day the right could no longer be satisfied, and all subsequent days when water is not deliverable may be designated with a horizontal line through the grids that represent the days of non-delivery.
6. A blank grid space means that you have no knowledge of the amount of water being delivered on that day. A grid should never be blank while you, as watermaster, are delivering water.
7. If possible, list the water right number in the daily record rather than a number assigned by the district or by the decree. Future users of the records will likely look for a water right reference. If there are multiple rights at a diversion, please list the most senior right first. You may supplement this book with a list of water rights by priority for each diversion.
8. Record unusual or noteworthy happenings. For instance, if a senior downstream right holder's water right is no longer available because the creek dries up upstream, and junior upstream right holders are allowed to divert remaining water upstream, this event should be recorded on the day it happens.
9. If necessary or requested, you should submit a separate water rights list or reference sheet that associates water rights with current owners and diversion names.

Oakley, Idaho 83346
January 11, 2018

Eugene Matthews, Chairman of the Board, called the meeting to order at 7:01 P.M., on January 11, 2018. The meeting was held at the Oakley Fire Station located at 100 East Main, Oakley, Idaho. Eugene Matthews, Jared Bedke, Danielle Bedke Helms, Seth Larsen, Linda Zollinger, Craig Smith, Gerald Marchant, Ryan Hawker, Nathan Erickson (DWR-Twin Falls), and Vickie Smith were in attendance.

BUSINESS

MINUTES

The minutes from the January 11, 2017, meeting were read by Vickie Smith. The minutes were reviewed and discussed by those in attendance. A copy of the minutes and the bank statements from the 2017 year were available for attendees to review before the reading of the minutes.

MOTION to accept the minutes: Jared Bedke

MOTION seconded: Ryan Hawker

FINANCES:

The financial statement was reviewed. We have \$10,292.29 in the 45A account at the D. L. Evans Bank as of December 1, 2017. All transactions for the Water Year have been paid and accounted for. Danielle B. Helms's end-of-the-year report payment (\$500) was paid to her at the meeting. It will be deducted from the retained funds on the January, 2018 bank statement.

MOTION to accept the financial report: Jerry Marchant

MOTION seconded: Linda Zollinger

ELECTION of a CHAIRMAN and WATER BOARD MEMBERS for 2018:

Eugene Matthews was nominated for Chairman of the Board. He accepted the position. Everyone was glad that Eugene was willing to be the Board Chairman again. He is very knowledgeable about the water issues in the Basin. A vote was taken to accept Eugene as the Chairman, the outcome was unanimous.

Eugene then appointed a Water Board to work with him. The Board members will represent the following streams:

MILL CREEK: Jared Bedke/Craig Hawker

SPRING CREEK: Craig Smith

SUMMIT CREEK: Seth Larson

SECRETARY/TREASURER: Vickie Smith (salary) \$250.00

Nathan Erickson asked about our insurance situation. We pay a yearly fee to the State Insurance Fund, but we don't own equipment, so we don't have any items to insure.

WATER MASTER REPORT and UPDATE of CONCERNS:

Danielle B. Helms gave her report about the water year 2017. It was a good water year. Some concerns that were discussed were the following:

*Hawker's renting Neil Justesen's water. Water right has a specific diversion-water right needs transferred legally at the point of diversion. Nathan Erickson said to contact the DWR. Ryan Hawker said that he would.

*cleaning out the willow's north of Craig Smith's in the ditch/creek. Nathan suggested calling the person at DWR who knows about stream channels.

*spraying for thistle at the Summit Creek feeder and the crossing at Spring Creek; follow labeled instructions; who is responsible for what—the property owners or the Water District? Casey Bench could be the person who could apply the spray. Several people said that they would check about this.

*Bobby Critchfield's desire to divert water for Mill Creek at his new house for landscaping purposes. Not acceptable. Eugene will discuss this with Bobby.

ELECTION of a WATER MASTER for 2018:

Eugene asked Danielle if she was interested. She was, but she would like a raise from \$5,000 to ??? She needs the money to help alleviate the rising prices associated with her job. Everyone felt like a raise was a good idea. The total amount was decided to be \$5,200 for Water Year 2018. Dividing \$5,200 by the month and with the \$500 end-of-the-year report it will be as follows:
 $\$5,200 - \$500 \text{ (year-end report)} = \$4,700$; $\$4,700/6 = \783.34 per check (April-September)
\$33.34 more than 2017 per month. Danielle said that that was acceptable and she thanked the attendees. Danielle has done a great job as the Water Master!

MOTION to accept Danielle as the Water Master: Linda Zollinger

MOTION seconded: Jared Bedke

THE ASSESSMENT/BUDGET:

Discussion about whether to keep the water assessment at \$4.00 (2017) per share or change it. In 2015-2016, the water assessment was \$8.00 per share. Looking at our financial state, the group decided to raise the assessment to \$5.00 per share in case we have some repairs that we need to hire operators and equipment for. That was reasonable and acceptable to the water users in attendance.

MOTION to accept the assessment of \$5.00 per share: Jared Bedke.

MOTION seconded: Craig Hawker

DATE and LOCATION of next year's ANNUAL MEETING: Thursday, January 10, 2019
Oakley Fire Station
7:00 P.M.

A letter will be sent to each Water User with the new assessment fee by March 1, 2018.

Attendees liked the idea of the 45A Newsletter at least twice during the Water Season.

Names, addresses, phone numbers, and g-mail address were updated.

MOTION to adjourn: Jared Bedke

MOTION seconded: Craig Smith

Notes prepared by Vickie Smith.

ADOPTED BUDGET AND RESOLUTIONS

CHANGES TO THE LIST OF WATER USERS 45A:

Several changes need to be made to the list of water users (attached). I have indicated changes by the line number. (1-24-2017) Updated: 12-16-17

- **Line #14-** Blake and Valerie Matthews, not Blake and Brittni Matthews.
- **Line #20-** Seth and Erin Larson 2054 S. 50 E. Oakley, ID 83346
The Spearin's no longer live in Oakley and the Larson's have purchased the Spearin property.
- **Line #21-** The listing should be Jeff Wadsworth, not Jeff and Marion Wadsworth.
- **Line #24-** The listing should be Linda Zollinger, not Linda and Wade Zollinger

★ Also, our Water Master, Danielle Bedke Helms, should be included on correspondence to the 45A water users. Her address is 2110 S. 50 E. Oakley, ID 83346

CHANGES TO THE LIST OF WATER USERS 45A:

Several changes need to be made to the list of water users (attached). I have indicated changes by the line number. (1-24-2017) Updated: 12-16-17

- **Line #14-** Blake and Valerie Matthews, not Blake and Brittni Matthews.
- **Line #20-** Seth and Erin Larson 2054 S. 50 E. Oakley, ID 83346
The Spearin's no longer live in Oakley and the Larson's have purchased the Spearin property.
- **Line #21-** The listing should be Jeff Wadsworth, not Jeff and Marion Wadsworth.
- **Line #24-** The listing should be Linda Zollinger, not Linda and Wade Zollinger

★ Also, our Water Master, Danielle Bedke Helms, should be included on correspondence to the 45A water users. Her address is 2110 S. 50 E. Oakley, ID 83346

Subject: Re: WD 45A Annual Meeting

Carrie,

All this info was sent to Nathan Erickson at IDWR months ago. We are filling out your forms and putting it in the mail today.

Craig Smith (board member)
Vickie Smith (sec./treas.)

On Monday, November 13, 2017, 8:37:33 AM MST, Hahn, Carrie <Carrie.Hahn@idwr.idaho.gov> wrote:

Dear Water District Treasurer/Secretary or Watermaster,

Enclosed are several documents related to the annual water district meeting.

If you are no longer the water district secretary or watermaster, please forward this to the current secretary or watermaster or return this correspondence to IDWR as soon as possible.

Sincerely,

Carrie Hahn
