WATERMASTER'S PROPOSED BUDGET

Complete this proposed budget report form as follows:

- 1) Enter water right holder name, corresponding IDWR water right number or numbers, and corresponding diversion name and/or remarks on page 2;
- 2) If you wish to estimate next season's assessments based on the average delivery of past seasons, then enter the actual water deliveries to each user for the past two to five seasons on page 3. You have the option of using at least the past two seasons or up to five seasons for averaging. You also have the option of using last year's delivery or one year's delivery as a basis of determining assessments for the next season. Enter deliveries as total 24-hour second feet. Total 24-hour second feet is a flow rate expressed in terms of one day or 24 hours. For example, a continuous diversion of 2 cfs over 20 days would equal 40 24-hour second feet.
- 3) If using the averaging method, enter the average delivery for past seasons in column 6 of page 3. If you are not averaging, then enter each user's delivery from last year in column 5 and skip column 6.
- 4) In the work space provided at the top of this page, enter next year's proposed watermaster salary, secretary and/or staff salaries, and expenses. You may use the past season costs and expenses, or average past seasons' costs and expenses as an aid in determining next year's budget. A more detailed listing or itemization of expenses and salaries can be attached to this form.
- 5) Divide the total proposed budget amount for next year by the total past season delivery (total of column 5, page 3) or average past seasons deliveries (total of column 6, page 3) to obtain a unit cost factor.
- 6) Under column 7, page 3, multiply the unit cost factor by each user's past season or average past seasons deliveries to obtain the estimated billing for the next year.
- 7) Use column 8, page 3, to enter the adjusted billing amount if the district wishes to carryover debits and credits from the previous season. (Refer to the last watermaster report. If a user had a credit, subtract that credit from his or her estimated billing in column 7 of this report, and enter the difference or adjusted amount in column 8. If a user had a debit, then add that debit to his or her billing amount shown in column 7 and show as adjusted billing in column 8.
- 8) Sign the report and retain to present to the water users at the next annual meeting for the water district.

The expenses were \$300.00 for workman's compensation insurance, and \$1,848.00 in water master mileage. Making total expenses \$2,148.00, which leaves a balance of \$1,052.93. Ryan moved that the report be accepted as given, Janell 2nd and the motion carried. The water master mileage was down because of the spring flooding this year.

IDWR is working to add Water Dist. #75 to Salmon River Water Dist. 170. They will be holding water master training this year and plan to do it in the field. Pat reported that the Corral Cr. ranch has been sold to Dustin Powell of Pocatello. They plan to keep the fields in agriculture production. Pat also reported that the fish screen/bubbler on Dick Finlayson's property has a hole in the screen that needs to be repaired. Pat has talked to Karma Bragg with the Soil Conservation District about getting this fixed.

Elections were next. Ryan moved that all officers remain as 2017. Pat Hawkins & Tyler Hughes as joint water masters. Jim Hawkins as chairman, and Tina Hawkins as secretary/treasurer. Lyle 2nd and the motion carried.
