RECEIVED
JAN 11 2018
DEPT OF WATER RESOURCES
SOUTHERN REGION

Dear Sirs,

Raft River Ground Water District will be responsible for reading flow meter totalizer data and entering this into the database for calculation of annual use. We will contract with a hydrographer, Water Well Consultants, to collect, compile and submit this data to the Department of Water Resources as required. This data will be collected at the end of the 2018 irrigation season.

Sincerely,

Raft River Ground Water District

Todd Webb - Chairman

Re: Curtailment Order and Watermaster Guidance to Curtail Diversions that are not Compliant with Water District No. 143 Measurement Order

Dear Mr. Erickson,

The Director of the Idaho Department of Water Resources ("Department") issued the attached *Curtailment Order In the Matter of Requiring Measuring Devices for Ground Water Diversions in Water Districts No. 143* ("Curtailment Order") on September 17, 2018. **The Curtailment Order directs you, as Water District No. 143 watermaster, to curtail water rights at points of diversions listed in Attachment A of the Curtailment Order beginning September 24, 2018.** Curtailment at each diversion shall be enforced until an acceptable measuring device is installed or the owner of the diversion submits to the Department or watermaster a request for variance or extension and the Department approves such request.

The watermaster shall adopt the following guidance with respect to curtailments:

- Contact the owners or operators of each diversion or well listed in Attachment A of the Curtailment Order either by phone or in person to confirm when curtailment will take place.
- Shut off and lock or seal each well subject to curtailment, even if the well may be off for the rest of the irrigation season. If the well cannot be locked or sealed, identify the method in which water use may be monitored during the remaining season (i.e. use of dedicated power meter or other options). Locking or sealing may be accomplished using security seals, locks or cables on electrical switch controls or by closing and locking/sealing main pipe valves. A Curtailment Notice card ("Red Card") should be placed at each diversion in a noticeable location. Document any curtailment with photos that show method of closure.
- The watermaster or watermaster's assistants should coordinate shut-off and locking with the owner or operator present if possible. The watermaster should not delay curtailment based on the owner's or operator's schedule.

SCANNED

Curtailment Order and Watermaster Guidance

September 17, 2018

Page Two

- When feasible the regulation of water users and enforcement action should be carried out by the watermaster. If the watermaster is unable to regulate all non-compliant water users by himself, staff assisting the watermaster in enforcement should coordinate closely with the watermaster prior to taking action. If site visits by supporting staff are required, staff should enforce curtailment requirement in teams of two. In the event an owner/operator is uncooperative or refuses access or entry to the well, the watermaster should consult with Department staff (contact Tim Luke, Rob Whitney or Brian Ragan).
- If the watermaster encounters circumstances that suggest enforcement action pursuant to Idaho Code § 42-1701B is preferable to curtailment (e.g. curtailing a diversion would cut off a source of drinking/domestic water or curtailment is not physically possible), the watermaster may refer the matter to Department Compliance Bureau staff. If a formal administrative enforcement action becomes necessary, please coordinate with appropriate Department Compliance Bureau staff (either Tim Luke, Rob Whitney, Brian Ragan or Cherie Palmer). Please document all attempts to curtail the well and the obstacles or reasons why physical curtailment cannot be achieved.

Please contact Department Compliance Bureau staff members Tim Luke, Rob Whitney or Brian Ragan regarding any questions you may have about the Curtailment Order and any subsequent curtailment procedures. Successful implementation of this Curtailment Order is currently one of the Department's highest priorities.

Sincerely,

Gary Spackman
Director

**WATER DISTRICT NO. 143
RAFT RIVER BASIN
2018 APPROVED RESOLUTIONS**

RECEIVED
JAN 26 2018
DEPT OF WATER RESOURCES
SOUTHERN REGION

The water users of Water District No. 143, as part of the annual district meeting held on January 23, 2018, at Malta, Idaho, HEREBY ADOPT THE FOLLOWING RESOLUTIONS:

1. DISTRICT CREATION AND BOUNDARIES

Water District 143 consists of the area and water rights as defined by the *Preliminary Order Creating Water District No. 143*, dated December 2, 2015. The district includes all ground water rights in the Raft River Basin, except rights used for domestic and stock water purposes as defined by Idaho Code § 42-111 and 42-1401A and ground water rights located within Water District 130 overlying the ESPA.

2. ADVISORY COMMITTEE

It is herewith resolved that an advisory committee shall be selected to provide input to the watermaster and the Director of IDWR. The advisory committee will meet as often as needed to address the structure, governance and operation of the district. Seven water users shall comprise the advisory committee, five representing irrigation and two non-irrigation. The five irrigation representatives will be selected from the five divisions as defined by the Raft River Ground Water District. It shall be required that six of the seven representatives shall not be members of the Raft River Ground Water District Board. The advisory committee members for the ensuing year shall be the following (members selected at the meeting):

Member #1(RRGWD Division 1): Jake Gerratt
Member #2(RRGWD Division 2): Mike Wheeler
Member #3(RRGWD Division 3): Nolan Branch
Member #4(RRGWD Division 4): Kurt Yates
Member #5(RRGWD Division 5): Dallen Ward
Member #6(Non-irrigation): Scott Nichols
Member #7(Non-irrigation): Jason Webb (RRGWD Board Member)

3. ANNUAL MEETING DATE

It is herewith resolved that the Annual Meeting for Water District 143 shall be held on the fourth Tuesday of January of each year at a time and place to be determined each successive year unless the Director of IDWR should find it necessary to change the meeting date or unless changed by resolution of the district at any annual meeting. The next Annual Meeting will be held on January 22, 2019.

4. ANNUAL MEETING MINUTES

Copies of the minutes of the annual meeting and all approved resolutions shall be filed with the Director of IDWR immediately after the annual meeting in accordance with Idaho Code § 42-605(5).

OCT 25 2018
SOUTHERN REGION

5. ELECTION OF WATERMASTER AND TREASURER

It is herewith resolved that the Idaho Department of Water Resources (IDWR) be elected to provide the watermaster services for Water District 143 and that the Director of IDWR appoint Nathan Erickson, an employee of IDWR, or other employees of IDWR as may be necessary, to serve as the watermaster for the ensuing year.

It is herewith resolved that Sara Jane Ward be elected Water District 143 treasurer. The duties of the treasurer will be to approve expenses, oversee disbursement of Water District funds, and to prepare or authorize a review of financial affairs of the district at the end of each fiscal year, in accordance with Idaho Code Section § 42-619.

6. WATERMASTER DUTIES

The Watermaster shall perform his or her duties as required by Chapter 6, Title 42, Idaho Code and in accordance with:

- a. Direction and guidance provided by the Director of IDWR;
- b. The annual water district resolution adopted herein.
- c. Guidance and input from the Water District 143 Advisory Committee.

It is here with resolved beginning fall of 2018 the Raft River Ground Water District (RRGWD) will be responsible for the collection of flow meter totalizing data and entering it into the IDWR database for calculation of annual use for members of the RRGWD. The RRGWD will contract a hydrographer to complete this work. Flow meters on wells owned by users not participating in RRGWD will be the responsibility of the Watermaster.

7. WATERMASTER TERM OF SERVICE

As provided in Idaho Code § 42-608(4), watermaster's term of service shall begin upon appointment by the Director of IDWR immediately following the annual meeting election and continue until the next annual meeting, or until a successor is appointed and qualified under the provision of Section 42-604, Idaho Code.

8. WATER DISTRICT BUDGET

The water users of Water District 143 hereby empower the elected advisory committee to enter into a Memorandum of Understanding between the Water District and the Director of IDWR that will provide for the following:

- 1) The budget for Water District 143 for the 2018 fiscal year, beginning February 1, 2018 and ending on January 31, 2019 shall be Fifteen Thousand Dollars (\$15,000) for Watermaster duties. Any expenses beyond the budgeted amount shall be provided by IDWR if the district elects IDWR to provide the watermaster services and allow the Director of IDWR to appoint an employee of IDWR as watermaster.
- 2) Given that the water district cost for administering water for many water users is greater than their normal assessments would be based upon their total water right, it is resolved that pursuant to Idaho Code § 42-612 the watermaster of Water

District 143 is authorized to assess a \$20 minimum charge for watermaster services to water users within his or her jurisdiction.

- 3) Whereas Idaho Code § 42-612 and § 42-615 require that proposed water district budgets and annual assessments to individual right holders be prorated based upon the amount of water delivered or used by individual right holders during the past season or seasons (not to exceed five seasons) and, whereas records of water delivery currently do not exist for all diversions within the newly created Water District 143, it is therefore resolved that Water District 143 will use authorized water right flow rates for determining a pro-rata assessment.
- 4) If IDWR is elected to provide watermaster services for 2017, the watermaster shall maintain an office for the ensuing year within the IDWR Southern Regional Office, located in Twin Falls, Idaho. IDWR will provide office space, vehicles and the use of all necessary office and field equipment, and other necessary watermaster expenses. This arrangement shall not give Water District 143 any ownership interest in any IDWR office space and equipment.

9. COLLECTION OF THE BUDGET AND DISBURSEMENT OF FUNDS

It is herewith resolved that the budget for Water District 143 be collected from the water users by the Water District 143 Watermaster as provided by Idaho § 42-618. The Watermaster will make an assessment to each water user in pro-rata amounts as determined by the budget which is formally adopted at the annual meeting. Collection of the assessment for water right holders which are members of the Raft River Ground Water District (RRGWD) shall be assessed through the RRGWD. Water right holders which are not members of the RRGWD shall receive an assessment directly from Water District 143. All funds shall be deposited in a bank account maintained by the water district at D.L. Evans Bank in Albion, ID. Treasurer shall disperse funds from water district bank account using two-party signature checks signed by Treasurer and one member of the Advisory Committee.

10. WATERMASTER ACCESS TO CONTROL STRUCTURES AND MEASURING DEVICES

Whereas watermaster access to control structures and measuring devices is essential for providing watermaster services and limiting expenses, it is herewith resolved that all users shall provide for watermaster access where access to control structures and measuring devices is through a locked gate and other reasonable means of access are not available. The user shall, upon request by the watermaster, provide to the watermaster a key or combination to any such locks.

11. ENTRY OF LANDS BY WATERMASTER

It is herewith resolved that the watermaster and any watermaster assistants are authorized as employees of IDWR under Idaho Code § 42-1701(5) to make reasonable entry on lands within the district, in accordance with IDWR policy, to carry out the duties of the watermaster as instructed by IDWR. These duties include but are not limited to:

SCANNED

OCT 25 2018

1. Inventory of diversions in the district, including inspection of conveyance infrastructure and place of use of water.
2. Measuring and recording rates of diversions, and regulating diversions as necessary from the ground water diversions within the district.
3. Monitoring the place, period, and nature of use of water to identify unauthorized diversion and use and/or to determine compliance required by any agreement or order of IDWR.

WATER DISTRICT 143 – ANNUAL MEETING
JANUARY 23, 2018 – 7:00 PM
RAFT RIVER HIGH SCHOOL – MALTA, ID
Call to order at 7:10 pm

RECEIVED
JAN 26 2018
DEPT OF WATER RESOURCES
SOUTHERN REGION

Agenda was prepared by Water Master Nathan Erickson and Advisory Board at their organization meeting. (See attached agenda)

A motion was made by Sara Jane Ward, 2nd by Kirt Yates to have Advisory Board Member Scott Nichols serve as chairman of the annual meeting. Motion passed.

Motion was made by Nolan Branch, 2nd by Kirt Yates to have Sara Jane Ward act as meeting secretary. Motion passed.

Minutes of 2017 meeting were read. **Motion to approve the minutes was made by Dallen Ward, 2nd by Mike Spencer. Motion passed.**

The current advisory committee was presented. Todd Webb has stepped down from advisory committee. A new member representing the commercial rights will need to be elected. **A motion was made by Clark Ward to have Jason Webb serve on the advisory committee, 2nd by Alan Harper. Motion passed. Motion to retain the advisory committee as presented was made by Ryan Moss, 2nd by Clark Ward. Motion passed.**

Nathan Erickson then gave the Water Master Report. He reviewed events of the past year.

Enforcement – 6 notices of violation have been sent. 5 have been resolved and fines paid. 8 warning letters resulted in 5 WR transfers to correct the errors. 2 expansion right irrigators were in violation of their proposed reduction plan. He will continue to work on expansion right reduction. All acres will be curtailed by 2019.

Flow Meters: Nathan had information on the problems associated with different brands of flow meters and how to correct them. Protection from weather and proper grounding are key to meter success. There was much discussion about what others have found that works and what doesn't. Meters should be installed before turn on this spring. Members are asked to contact Nathan to let him know how installations are coming. He understands that the demand may exceed the reality of installation but please make contact with him.

2018 Expectations: Inspect flow meters, review variance requests, monitor expansion acres, review transfers within the district, compliance and enforcement, gather and input flow data, onsite inspections of year round users.

Chairman Nichols asked that the 2018 Resolutions be read. (See attached Resolutions) Clarification was given as questions were asked. Included in the resolutions are retaining WM Nathan Erickson and Secretary Sara Jane Ward and the budget will be \$15,000. The balance of Nathan's wage will be paid by IDWR. **Motion was made by Mike Spencer 2nd by Dallen Ward to approve the Resolutions. Motion passed.**

Tim Luke then gave update on the hydrology of the Raft River basin.

Next meeting January 22, 2019.

Clark Ward moved, Nolan Branch 2nd that meeting adjourn at 8:45 pm. Motion passed.

Approx. 25 water users in attendance

April 10, 2018

ID No. 143-1002786

TLD PROPERTIES LLC

RE: Compliance with the "Order in the Matter of Requiring Measuring Devices for Ground Water Diversions in Water District No. 143 (Raft River Basin)"

Dear Water User:

The Idaho Department of Water Resources (IDWR) is reviewing compliance with the above referenced measurement order (Order). This Order, issued on September 14, 2016, states: ***"Owners of irrigation wells or diversions that are required to be measured shall install acceptable measuring devices by the start of the 2018 irrigation season."*** After review of IDWR records and communication with Water District staff, ***it appears that the diversions or wells noted below do not have the required measuring device*** installed or have an approved variance (see reverse for more information on IDWR approved measuring devices and the variance process).

WMIS #	Metal Tag ID #	Status of measurement after last inspection
1002786		Does not meet installation requirements
1002787	A0020705	Does not meet installation requirements

Pursuant to Idaho Code § 42-701(3), you are hereby notified that you must install and maintain the required measuring device(s) before diverting water this irrigation season to avoid potential curtailment by the watermaster.

A Measurement Hotline has been set up to accept voice messages concerning the status of required measuring device(s). **The Measurement Hotline phone number is (208) 287-6799. To respond to this notice, please call the Measurement Hotline within 15 days of the date of this notice and leave a voice message containing the following information:**

- Provide the ID No. from the top (red color) of this notice, and
 - request an inspection if the measuring device has been installed, or
 - provide detailed information concerning any measuring device installation that is currently underway, and the date the installation will be complete and ready for inspection, or
 - provide notice that you intend to request a variance and will submit the necessary application within 15 days of the date of this letter.

Respectfully,

Brian Ragan

APPROVED METER INFORMATION

The Idaho Department of Water Resources (IDWR) list of approved flow meters can be found on our website at: www.idwr.idaho.gov → Water Data → Water Measurement → Overview → List of Approved Closed Conduit Flow Meters.

VARIANCE OR EXTENSION INFORMATION

Diversions must meet the following criteria to be considered:

- **PCC** method applies *only for diversions that consist of one (1) well and one irrigation discharge point or one distinct flow and demand condition, and water levels do not change significantly during the irrigation season (example: a well diverting water to one center pivot only with no end gun, a well diverting water to one wheel line, or multiple wheel lines as long as the same multiple wheel lines are always on at the same time).* www.idwr.idaho.gov → Water Data → Water Measurement → Forms → Variance: IDWR Approved Flow Meter Installation Requirement
- An **hour meter** (time clock) applies to *one well that discharges to an open ditch or pond where a) discharge is constant and not controlled by valves, b) ground water levels do not change significantly during the annual season of use, and c) the rate of flow is measured annually by a ground water district hydrographer.* www.idwr.idaho.gov → Water Data → Water Measurement → Forms → Variance: IDWR Approved Flow Meter Installation Requirement
- **Existing meters** installed prior to the order and not on IDWR's approved list must be properly functioning, and installed consistent with manufacturer's specifications. www.idwr.idaho.gov → Water Data → Water Measurement → Forms → Variance: IDWR Approved Flow Meter Installation Requirement
 - Existing meters included on the Department's "*List of Approved Closed Conduit Flow Meters*" and installed consistent with both IDWR and Manufacturer specifications are deemed acceptable (no variance required).
- A **standard open channel** measuring device measuring multiple wells in a single open channel may be considered provided the measuring device is read at least daily, or daily flows are recorded by use of a continuous recorder or data logger. www.idwr.idaho.gov → Water Data → Water Measurement → Forms → Variance: IDWR Approved Flow Meter Installation Requirement
- If a diversion is unused, the Department may consider an **extension of time** on a case-by-case basis. Nonuse may be required by a federal land set aside program (RCPP or CREP). Documentation supporting non-use must be provided for IDWR to consider an extension request. www.idwr.idaho.gov → Water Data → Water Measurement → Forms → Request for Extension of Time to Install IDWR-Approved Flow Meter

Re: Annual Water District Meeting Information Form

Please complete this annual water district meeting information form and return it to IDWR (contact information below). Upon receipt of the completed form, IDWR sends meeting notice to each water user and interested party in the district. The meeting notice must be mailed no later than three weeks prior to the meeting. Therefore, to provide IDWR adequate time to create and mail the notice, please return the completed form to IDWR as soon as possible or no later than four weeks before the meeting.
