Certificate of Appointment

SCANNED
MAY 31 2018

This is to certify that I have appointed Cindy Yenter as *Watermaster* of *Water District* 170, from this day until the 2019 annual meeting or until his/her successor is appointed and qualified under the provisions of Idaho Code Section 42-605, at such rate of compensation as established by applicable law.

This certificate has been issued and the seal of the Director fixed at Boise, Idaho, this day, May 31, 2018.

Gary Spackman
IDWR Director

Water District 170
2017 Watermaster Report
Annual Meeting January 23, 2018

Notable activities and accomplishments in 2017:

- 468.5 hours worked Approximate value to District \$33,000
- Flow meter installations and inspections on approx 30 B73-Pahsimeroi wells (2014 Order). Watermaster has collected first year of ground water data
- Second round compliance Inventories of Pahsimeroi tributary diversions
- Compliance letters sent to about 12 water users in WD72D, all for measurement and control issues
- Expansion of WD170 to include Lemhi Basin 74 (Public meeting Nov 28, public hearing Feb 1, 2018)

Goals for 2018:

- Ground water inventory and measurement order in B74 (2019 implementation)
- Compliance letters to WD71 and WD72A
- Inventory (re-inventory) of all WD170 diversions and determination of compliance and reporting needs
- Watermaster training in Salmon
- Begin inventory of B75 diversions and form a steering committee to discuss creation of sub-districts

| BASIC FORMULA for computing Water District Reimbursement to IDWR | |
|--|---|
| Base = rate X hours | |
| Benefits = (Base X 0.21)+ insurance* | |
| Indirect = (Base+Benefits) X 0.403 | |
| Leave Allocation = 1.15 X (base + benefits + Indirect) | |
| | |
| <i>Insurance Charge pro-rated for WD fiscal year</i> | \$13,100 |
| Administrative Charges | |
| Watermaster Salary | 23% FTE |
| | |
| Base pay | \$14,383 |
| Benefits | \$5,971.07 |
| Indirect expenses | \$8,203 <i>(equipment and office expenses, etc)</i> |
| | \$28,557 |
| | \$33,097 <i>plus leave allocation</i> |

ANNUAL MEETING MINUTES
WATER DISTRICT 170 – UPPER SALMON RIVER
Tuesday, January 23, 2018
Advisory Committee – 1:00 pm
General Meeting - 2:00 pm
American Legion Hall, Challis ID

The Advisory Committee convened at 1:00 pm, prior to the general meeting. In attendance were Charlie Boge (non-sub), Tom McGowan (72D), Jeri D'orazio (72A), George Miller (73), Jim Hawkins (72F), Richard Giampadreglia (CMI), and watermaster Cindy Yenter.

The group discussed the need to modify the composition of the advisory committee to add representation for the Lemhi Basin which is being added to WD170 this year. The watermaster had visited with some Lemhi water users, who had suggested two Lemhi seats on the WD170 Advisory Committee. Because the addition of the Lemhi Basin nearly doubles the number of water rights and administered diversions in WD170, the group agreed.

The watermaster had reached out to both USFS and BLM regarding their seats on the WD170 Advisory Committee. Tom Ford with USFS was interested in participating but was on furlough the day before the meeting and did not attend. BLM never responded. Jim Hawkins suggested that the seats be left in place and that the district be sure and invite agency representatives every year. That way the agencies could not claim they were being excluded.

The watermaster had proposed changes to the Resolutions which cleaned up some awkward language, inserted consistent acronyms, and clarified that WD170 would not assess sub-districts who are operating according to state law. The group agreed to recommend these changes. The watermaster had also proposed the addition of a sentence which stated that WD170 might assess in non-subdistrict areas in the future. The committee rejected this change, insisting this issue could be addressed later. Jim Hawkins asked the watermaster to inventory all the non-sub diversions in the coming year and evaluate the measurement needs and administrative cost. The four largest non-sub diverters (Challis Irrigation, Gini Ditch, City of Challis and First Fruits) are self-reporting to WD170.

The Advisory Committee meeting adjourned at approximately 1:50 pm.

The Annual Meeting of Water District 170 was called to order by Jim Hawkins at approximately 2:00 pm. The Advisory members were joined by eight other water users for the general meeting.

Jim Hawkins was unanimously selected to be the meeting chair. Cindy Yenter offered to record the meeting and prepare minutes.

Copies of 2017 minutes were distributed and reviewed and were approved with no objections.

Cindy Yenter gave a watermaster report which described her field activities in WD170 during 2017 and her goals and plans for WD170 in 2018. That report is attached to these minutes. She also presented the snowpack report and a brief overview of pending legislation. The watermaster announced that

there is a public hearing scheduled for February 1 in regard to the expansion of WD170 to include the Lemhi Basin.

The Watermaster offered some general information regarding filing of stockwater claims on federal land, and insurance requirements for water districts. Since the watermaster is a State of Idaho employee, she is already fully covered by the State's insurance. Any other duly appointed watermaster or watermaster assistant are also covered by the State's liability insurance while on duty; water districts must provide worker's compensation insurance.

Chairman Hawkins presented the proposed 2018 resolutions, and recommended the changes discussed at the Advisory meeting. IDWR will continue to provide watermaster services, Cindy Yenter will be appointed WD170 Watermaster for 2018, and Water District 170 will continue to have a zero budget in 2018 and will not make assessments. A motion was made and seconded to adopt the resolutions as recommended by the Advisory Committee, and to strike the entry regarding assessment of non-sub areas.

The 2019 meeting will be held on the fourth Tuesday of January, in Challis. The best time for the meeting was discussed. Most in attendance favored the afternoon meetings. No vote was taken.

There being no other business brought forth, Chairman Hawkins asked for a motion, and adjourned the meeting at 2:24 pm.

Respectfully submitted,

Cindy Yenter

WATER DISTRICT 170 UPPER SALMON RIVER

**PREVIOUSLY ADOPTED RESOLUTIONS WILL REMAIN IN EFFECT UNTIL CHANGED BY
SUBSEQUENT RESOLUTION OR OTHERWISE ALTERED BY MAJORITY VOTE OF THE
WATER RIGHT OWNERS IN THEIR ANNUAL MEETING OR SPECIAL MEETING CALLED
FOR SUCH PURPOSE**

DISTRICT BYLAWS

Adopted 2007

The Idaho Department of Water Resources (IDWR) Watermaster Handbook and related Idaho Statutes (both as may be duly amended from time to time) and Resolutions as duly approved by the water right owners of the District shall serve as the Upper Salmon Water District No. 170 (WD170) Bylaws.

WATERMASTER TERM OF SERVICE

Adopted 2008

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that the WD170 Watermaster's term of service shall begin upon annual meeting election and continue until the next annual meeting.

ELECTION OF OFFICERS

Adopted 2007

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that District Officers shall be elected at the end of each Annual Meeting allowing incumbents to conduct the entire meeting and Agenda business prior to any potential change(s).

OFFICER AUTHORITY

Adopted 2007

Upon being duly elected by water right owner majority vote at their Annual Meeting the Secretary/ Treasurer shall, until replaced by subsequent majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, have full authority to sign on behalf of the District including, but not limited to, the District bank account(s). The Chairman and Watermaster shall also have alternate signature authority for the District bank account(s).

WATER RIGHT OWNERSHIP BY MULTIPLE PARTIES

Adopted 2007

Any water right(s) owned by more than one individual (or married couple) shall declare a single individual (or married couple) who shall represent all other owner's interests and be the primary contact with the District on relevant District issues.

WATERMASTER ACCESS

Adopted 2009

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that all users shall provide for watermaster access to control structures and measuring devices. If the access is through a locked gate, the user shall, upon request by the watermaster, provide to the watermaster or deputy watermaster a key or combination to such locks.

ANNUAL MEETING DATE

Adopted 2007

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that the WD170 Annual Meeting shall be the fourth (4th) Tuesday in January on a date, time and place to be determined at the Annual Meeting each successive year.

**PREVIOUSLY ADOPTED RESOLUTIONS WILL REMAIN IN EFFECT UNTIL CHANGED BY
SUBSEQUENT RESOLUTION OR OTHERWISE ALTERED BY MAJORITY VOTE OF THE
WATER RIGHT OWNERS IN THEIR ANNUAL MEETING OR SPECIAL MEETING CALLED
FOR SUCH PURPOSE**

DISTRICT PAYMENT TERMS

Adopted 2007

1. Annual Adopted Budget payment shall be payable on or before March 1; any other billing within thirty (30) days following such billing; the postmark date will be considered the date of payment.
2. If not paid by April 1st the water user shall be charged in accordance with Statute 42-613 which provides for a late fee of 10% of the amount due and interest of 1% per month.
3. If not paid in full (partial payments shall not be acceptable) including Late Fee by April 1st, Treasurer shall so inform the Watermaster who shall immediately terminate water delivery to the water right owner who is in payment default.
4. Treasurer must thereafter receive the original invoice amount, Late Fee(s) plus a \$25.00 Watermaster Service Fee before Treasurer shall advise the Watermaster who shall then again deliver the applicable right(s).
5. A returned or insufficient fund check shall require the Treasurer to so advise the Watermaster who shall immediately terminate the appropriate water delivery. All monies originally due plus applicable bank charges and any charges then resulting from unmet District payment terms must be paid in cash, cashier's check or money order before Treasurer shall so advise the Watermaster who shall then deliver the appropriate water right(s).
6. In the event payment in full is not received by the end of the then current irrigation season (or sooner if the Treasurer determines sale of the property and associated water right[s] is imminent), the Treasurer may, on behalf of the District, initiate legal action in Small Claims Court against the water right owner(s). Eventual recovery is to include costs incurred by such action as well as all other monies due.

Note: When a water delivery termination is imminent and there are others utilizing the same diversion that could be affected, those others affected shall, whenever possible, be advised of said delivery termination as soon as possible after the problem arises so they shall have the opportunity, if they so desire, to deal with the matter as they may deem appropriate before water delivery is reduced by the amount covered by the applicable right(s) being terminated

PROXY VOTING & SUBORDINATED WATER RIGHTS

Adopted 2007

1. In accordance with District Bylaws, proxy votes shall not be allowed "except that in the absence of the owner a right may be voted by another person present who has the use of the right for the ensuing season, such as a tenant, lesser or contract purchaser".
2. In such case(s) or whenever a right is subordinated and/or "worked" by anyone other than the owner a form adopted and provided by the District shall be completed and returned to the Secretary/Treasurer to remain on file throughout the term stating with whom such agreement exists, whether such voting right is granted, and/or granting authority to represent the water right owner on any other water issues that may arise during the irrigation season or balance of the agreement term to be recorded by water right owner with the County Recorder of jurisdiction.

**PREVIOUSLY ADOPTED RESOLUTIONS WILL REMAIN IN EFFECT UNTIL CHANGED BY
SUBSEQUENT RESOLUTION OR OTHERWISE ALTERED BY MAJORITY VOTE OF THE
WATER RIGHT OWNERS IN THEIR ANNUAL MEETING OR SPECIAL MEETING CALLED
FOR SUCH PURPOSE**

ADVISORY COMMITTEE STRUCTURE

Adopted 2018

A WD170 Advisory Committee shall be elected to provide input to the watermaster and the Director of IDWR. The WD170 Advisory Committee shall be comprised of 14 total seats, as follows:

Sub-district representatives (8 total): Stanley Basin (1 seat), Clayton Area (1 seat), Garden Creek (1 seat), Challis Creek (1 seat), Morgan Creek (1 seat), Pahsimeroi Basin (1 seat), Lemhi Basin (2 seats)
Basin 72 non sub-district area irrigation (2 seats)
Commercial/industrial/ municipal/other uses (2 seats)
US Forest Service (1 seat)
US Bureau of Land Management (1 seat)

Seats may be added to or subtracted from the WD170 Advisory Committee in subsequent years depending on further revisions or expansions of the district boundaries to be determined as necessary. Each group represented may also select an alternate for each seat.

Representatives for sub-district areas will be selected during that sub-district's annual meeting. The sub-district will notify the WD170 watermaster of the representative(s) selected following the sub-district annual meeting. Representatives for the non-sub-district groups will be selected at the WD170 annual meeting. The WD170 Advisory Committee will meet as often as needed to address the structure, governance and operation of the district.

CURRENT YEAR ADVISORY COMMITTEE MEMBERS

Adopted 2018

Basin 72 non sub-district area irrigation (2 seats) – Gary Chamberlain, Charlie Boge
Basin 71 & 72 commercial/industrial/ municipal/other uses (2 seats) –
City of Challis: Cory Rice
Thompson Creek Mine: Richard Giampedraglia
US Forest Service –
US Bureau of Land Management -
Sub-district representatives – To be selected by each entity

WATERMASTER SERVICES

Adopted 2018

Watermaster services for WD170 shall be provided by IDWR and the Director shall name or appoint a Department employee to serve as the WD170 Watermaster for the ensuing year.

**WATER DISTRICT 170
UPPER SALMON RIVER**

**PREVIOUSLY ADOPTED RESOLUTIONS WILL REMAIN IN EFFECT UNTIL CHANGED BY
SUBSEQUENT RESOLUTION OR OTHERWISE ALTERED BY MAJORITY VOTE OF THE
WATER RIGHT OWNERS IN THEIR ANNUAL MEETING OR SPECIAL MEETING CALLED
FOR SUCH PURPOSE**

BUDGET RESOLUTION

Adopted 2018

Recognizing that IDWR will appoint a watermaster for WD170 with the understanding that water users in areas organized as sub-districts within WD170 will each elect and fund a sub-district watermaster to perform the day to day duties within their sub-district, it is resolved that,

- 1) The existing sub-districts will each adopt a budget to be collected from the users within the respective sub-districts only, and that users not within that sub-district will not be responsible for any portion of that sub-district budget.
- 2) A sub-district that adequately measures, records, reports and controls diversions will not be subject to assessments from WD170.

For the current year, the Budget for WD170 shall be \$0.00.

RE: Preliminary Order Expanding Water District 170 and Modifying and Combining Water Districts within Administrative Basin 74

Dear Water Right Holder,

Enclosed please find a copy of the Preliminary Order regarding the above referenced matter. This Preliminary Order accomplishes the following actions:

- Combines Water Districts 74, 74K, 74U, and 74Y into Water District 74;
- Modifies Water Districts 74, 74A, 74B, 74C, 74F, 74G, 74J, 74M, 74Q, 74W, and 74Z to include all surface and ground water rights within their respective boundaries with the exception of stockwater and domestic water rights described below;
- Expands the boundaries of Water District No. 170 to include all surface and ground water rights in Basin 74, with the exception of stockwater and domestic water rights described below; and
- Designates Water Districts 74, 74A, 74B, 74C, 74F, 74G, 74J, 74M, 74Q, 74W, and 74Z as subdistricts within Water District No. 170.

These actions under the Preliminary Order do not include ground water or surface water rights used for stockwater and domestic purposes as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113.

The records of the Idaho Department of Water Resources (Department or IDWR) show that you own or have an interest in one or more water rights within the above referenced water districts. Also enclosed is an informational sheet that explains options for responding to preliminary orders. Please note that any party subject to the order may file a petition for reconsideration within fourteen (14) days of the service date of the order, which is the date of this letter. The Department will act upon petitions within twenty-one (21) days of their receipt.

Please contact this office, the IDWR regional office in Idaho Falls (208-525-7161), or the IDWR Salmon Field Office (208-742-0658) if you have any questions concerning the attached order.

Sincerely,

Tim Luke
Water Compliance Bureau

PROCEDURAL HISTORY

On November 9, 2017, the Idaho Department of Water Resources (“Department” or “IDWR”) sent a letter to all owners of record for water rights within Water District 170 and Administrative Basin 74 (“Basin 74”), except for domestic and stockwater uses, as defined in Idaho Code §§ 42-111 and 42-1401(11), and instream stockwater uses, as defined in Idaho Code § 42-113. The letter notified the recipients of a public meeting to discuss certain changes proposed for Water District 170 and water districts within Basin 74. The Department conducted the public meeting on November 28, 2017, in Salmon, Idaho, and presented information about the proposed water district changes.

On January 17, 2018, the Department issued a Notice of Public Hearing describing specific changes proposed for Water District 170 and all water districts within Basin 74. The notice was sent to all current owners of record for water rights administered by Water District 170 and water rights within Basin 74, except for domestic and stockwater uses, as defined in Idaho Code §§ 42-111 and 42-1401(11), and instream stockwater uses, as defined in Idaho Code § 42-113.

The Department conducted the public hearing on February 1, 2018, at the Lemhi County Annex in Salmon, Idaho. Cindy Yenter, an employee of the Department and the current watermaster for Water District 170, presented information about the proposed changes. Participants were encouraged to offer testimony regarding the proposal. Carl Ellsworth, Merrill Beyeler and James Whittaker offered testimony at the hearing. In addition, water users were encouraged to provide written comments to the Department on or before February 12, 2018. Written comments were provided by James Whittaker and the Upper Salmon Basin Watershed Advisory Committee, and a *Statement of Public Witnesses* was provided by 82 water users in Basin 74. After carefully considering all of the evidence in the administrative record, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. Basin 74 includes the Lemhi River and its tributaries from the headwaters of the Lemhi River to its confluence with the Salmon River. There are currently twelve active water districts in Basin 74: 74 (Lemhi River and some of its tributaries), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74U (Andrews and Slough Ditch), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks). There are also some inactive water districts in Basin 74, including 74K (Pattee Creek) and 74Y (Yearian Creek).

2. Water Districts 74K (Pattee Creek) and 74Y (Yearian Creek) are inactive, meaning the districts do not conduct annual meetings or elect a watermaster. There are currently only two active ditches within each of these districts.

3. Historically, the active water districts in Basin 74 have operated as independent districts, each with its own elected watermaster and annual operation budget. Ground water rights in Basin 74 have not been administered by any of the existing water districts in Basin 74.

4. Basin 74 was included in the Snake River Basin Adjudication ("SRBA"). All surface water rights and ground water rights in Basin 74 were required to participate in the SRBA, except for domestic and stockwater uses as defined in Idaho Code §§ 42-111 and 42-1401(11), and instream stockwater uses as defined in Idaho Code § 42-113. A final unified decree was issued by the SRBA Court on August 26, 2014.

5. On April 3, 2012, the presiding judge for the SRBA Court issued a *Partial Decree Pursuant to I.R.C.P. 54(b) for General Provisions in Basin 74* ("Basin 74 General Provisions").

6. The Basin 74 General Provisions include a provision commonly referred to as the "separate streams provision," which identifies twenty-seven drainages within Basin 74 and states that water rights from those sources "shall be administered separately from all other water rights in Basin 74 in accordance with the prior appropriation doctrine as established by Idaho law[.]" *Basin 74 General Provisions* at 1. "Future appropriations of water on the above streams are not considered to be subject to prior downstream rights on the Lemhi River proper." *Id.* at 2. "Future appropriations of water on any other water source or stream in the Lemhi River Basin, however, are considered to be tributary to the Lemhi River for purposes of distribution." *Id.*

7. The Basin 74 General Provisions also include a provision commonly referred to as the "high flow provision," which states:

The following general provision shall govern the use of "High Flow" surface water for irrigation within the Lemhi Basin:

The practice of diverting high flows in the Lemhi Basin, in addition to diverting decreed and future water rights that may be established pursuant to statutory procedures of the State of Idaho, is allowed provided:

- (a) the waters so diverted are applied to beneficial use.
- (b) existing decreed rights and future appropriations of water are first satisfied.

Id. at 2.

8. On April 6, 2006, the Director of the Department issued an *Amended Final Order Creating Water District No. 170* (“2006 Order”). Pursuant to the 2006 Order, Water District 170 included all surface water and ground water rights in Administrative Basins 71 and 72, other than domestic and stockwater rights as defined by Idaho Code §§ 42-111 and 42-1401A(11).

9. Finding of Fact No. 10 in the 2006 Order states, in pertinent part:

The Director’s [hearing] notice also included a description of the Director’s proposal to expand the Upper Salmon Water District by 2007 to encompass all of Basins 73, 74, and 75, after the water rights in those basins have been decreed by the [SRBA] District Court

10. On December 10, 2012, the Department issued a Preliminary Order, expanding Water District 170 to include Administrative Basin 73 (Pahsimeroi River) and designating Water District 73 as a subdistrict of Water District 170. Water District 73 was also modified to include the administration of certain ground water rights within the district.

11. On August 20, 2004, a *Stipulation and Joint Motion for Order Approving Stipulation and Entry of Partial Decrees* (“W&S Stipulation”) was filed with the SRBA Court, resolving objections to Wild & Scenic River claims filed by the United States for water rights in the Salmon River drainage.¹

12. Attorney General Lawrence Wasden signed the W&S Stipulation on behalf of the State of Idaho (including the Idaho Water Resources Board). *W&S Stipulation* at 21. The W&S Stipulation was also signed by a representative of the United States Department of Justice and by other objectors to the contested SRBA claims. *Id.* at 20-27. The effective date of the W&S Stipulation is September 1, 2003. *Id.* at 18.

13. The following provisions of the W&S Stipulation are relevant to the water district changes proposed by the Department:

Enforcement. The State, through [IDWR] and local water districts created and supervised by IDWR pursuant to Idaho Code §§ 42-604 et seq., shall distribute water to the federal reserved water rights set forth in this Stipulation and the Partial Decrees and all other hydraulically connected water rights, regardless of subbasin location, above the ending point of the respective federal reserved water rights in accordance with priority dates, quantities and all other elements of the rights as provided in this Stipulation and the Partial Decrees, and applicable law at all times when there is a hydraulic connection between the federal reserved water right and the right to be regulated. While this paragraph does not affect the present

¹ On November 16, 2004, the SRBA Court issued an *Order Approving Stipulation and Entry of Partial Decrees*.

administration of existing water rights from tributary sources that are administered separately, all new water rights that are hydraulically connected with the Wild and Scenic Rivers federal reserved water right will be administered as a single source.

W&S Stipulation at par. 2(a), p. 3.

Creation of Water Districts.

(1) IDWR will establish water districts as necessary to assist IDWR in the administration of water rights. The parties agree that, regardless of whether a water district has been established for an area, IDWR will:

- A) collect and record diversion data;
- B) enforce the water rights in priority; and
- C) curtail unauthorized or excessive diversions as necessary.

Id. at par. 2(b)(1), p. 3.

Within six months of the filing of Director's Reports for administrative basins 73, 74 and 75, the parties will file a joint petition with the SRBA Court, pursuant to Idaho Code § 42-1417, for an order for interim administration of those basins and IDWR will incorporate those basins into the [Upper Salmon Water District "USWD," a.k.a. Water District 170]. Existing water districts within the basins will be converted to subdistricts within the USWD as appropriate to facilitate management. Other subdistricts will be formed as deemed necessary to accomplish the purposes of the USWD. Creation of the USWD shall involve full participation by water users in the area in accordance with state law, and the existing water districts will have an important role. The resulting organization will be fully under the supervision of IDWR.

Id. at par. 2(b)(2), p. 4.

Prevention of Unauthorized Uses. IDWR and the watermaster will utilize all appropriate techniques, including but not limited to remote-sensing, field observation and inventory, coordination with local water users and citizens, and input from other agencies, to identify unauthorized uses of water. IDWR and/or the watermaster will curtail identified unauthorized uses of water based on the authorities of Chapter 6, Title 42, Idaho Code, and IDWR will pursue appropriate civil enforcement action as provided in Idaho Code §§ 42-351 and 42-1701B.

Id. at par. 2(b)(3)(d), p. 5.

Administration of Existing Water Rights. IDWR and the watermaster shall conduct a systematic inventory of diversions, giving priority to those diversions that have the greatest potential influence on other water rights. IDWR will evaluate the staffing requirement for operation of the water district and will identify needs for subdistricts and deputy watermasters as required. IDWR and the watermaster

will specifically identify and curtail unauthorized uses. . . . IDWR will require installation of lockable controlling works and measurement devices for any existing diversion if it is determined that the water right holder is refusing or failing to comply with IDWR's or the watermaster's instructions and will pursue appropriate civil enforcement action as provided in Idaho Code §§ 42-351 and 42-1701B.

Id. at par. 2(b)(3)(e), pp. 5-6.

Remedies. In the event the State fails to administer water rights in accordance with the terms of this Stipulation, the Partial Decrees and applicable law, any party to this Stipulation, upon a satisfactory showing to the SRBA Court, or any successor state court with jurisdiction to enforce the final decree issued by the SRBA Court, of such failure to administer, shall be entitled to an order under the Court's continuing jurisdiction, as described in paragraph 5, compelling the State to properly administer the water rights.

Id. at par. 2(b)(3)(i), p. 7.

14. In the January 17, 2018 Notice of Public Hearing, the Department proposed the following changes:

- 1) Expand the boundaries of Water District 170 to include all surface and ground water rights in Basin 74, except for stockwater and domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113. Existing water districts in Basin 74 will become subdistricts of Water District 170.
- 2) Combine Water Districts 74 (Lemhi River), 74K (Pattee Creek), 74U (Andrews and Slough Ditch) and 74Y (Yearian Creek) into a single water district, 74 (Lemhi River).
- 3) Expand the scope of Water Districts 74 (Lemhi River), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks) to include all ground water rights within their respective boundaries, except for stockwater and domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11).

RELEVANT LEGAL PROVISIONS

Idaho law declares that all surface water, when in natural channels or springs or lakes, and all ground water within the State of Idaho are “the property of the state, whose duty it shall be to supervise” the “appropriation and allotment” of the water “to those diverting the same therefrom for any beneficial purpose[.]” Idaho Code §§ 42-101, 42-226.

The Director, acting on behalf of the State of Idaho, is authorized to control the appropriation and use of all surface and ground waters within the state. *See* Idaho Code §§ 42-101, 42-103, 42-202(1), 42-220, 42-226, 42-237a.g., 42-351, and 42-602 et seq.

Idaho Code § 42-604 requires the Director to form water districts to properly administer uses of water from “each public stream and tributaries, or independent sources of water supply,” for which a court having jurisdiction thereof has adjudicated the water rights.

The Director has “direction and control of the distribution of water from all natural water sources within a water district . . .” Idaho Code § 42-602. The Director must “distribute water in water districts in accordance with the prior appropriation doctrine.” *Id.*

The Director has discretion to determine how the “mandatory water districts shall be structured” and may “create new districts, revise existing districts, or even abolish districts, as the Director finds necessary for the efficient distribution of water resources.” *In re Idaho Dep’t of Water Res. Amended Final Order Creating Water Dist. No. 170*, 148 Idaho 200, 211, 220 P.3d 318, 329 (2009). “[E]fficient distribution of water . . . requires that IDWR implement sufficient administrative oversight to prevent conflicts from arising, where possible, and to furnish a framework of evenhanded oversight which allows for consistent planning by water users. *Id.*

ANALYSIS

In the W&S Stipulation, the State of Idaho agreed to take certain actions to facilitate the administration of water rights in the Salmon River drainage. Specifically, the state agreed to create a water district to administer water rights within the basin, including water rights issued subsequent to September 1, 2003, which are subject to the Wild & Scenic water rights held by the United States.

Although existing water rights (as of September 1, 2003) on sources identified as separate streams in the Basin 74 General Provisions are not subject to the Wild & Scenic water rights held by the United States, water rights issued after September 1, 2003 on those sources are subject to the Wild & Scenic water rights.² Administering water rights junior to September 1, 2003 will require coordination across water district boundaries. The W&S Stipulation also sets forth standards for measurement and reporting of surface and ground water diversions within the Upper Salmon River drainage. Having a single water district over all of the Upper Salmon River drainage will lead to uniformity in measurement and reporting of diversions. Water District 170 is needed to facilitate efficient distribution of the water rights throughout all of the basins and subdistricts in the Upper Salmon River drainage, including Basin 74.

² The separate streams provision states that future water rights from the sources identified as separate streams “are not considered to be subject to prior downstream rights on the Lemhi River proper.” *Basin 74 General Provisions* at 2. However, future water rights from the sources identified as separate streams in the Basin 74 General Provisions may be subject to prior downstream rights on the Salmon River, including the Wild & Scenic rights held by the United States.

Concerns Raised by Basin 74 Water Users

At the hearing, Carl Ellsworth expressed opposition to the expansion of Water District 170. Mr. Ellsworth testified that if the existing water districts in Basin 74 are incorporated into Water District 170, the existing water districts should remain intact as subdistricts, there should be no additional cost to water users, and ground water rights should be administered by the individual subdistricts. Merrill Beyeler's testimony was similar to Mr. Ellsworth's.

Written comments submitted by the Upper Salmon Basin Watershed Advisory Committee state that the expansion of Water District 170 "is necessary to satisfy the mandate of the [W&S Stipulation]."

Written comments were submitted by James Whittaker³ and an identical *Statement of Public Witnesses* ("Joint Statement") was signed by 82 water users in Basin 74 (Mr. Whittaker and the 82 water users hereinafter referred to as "Objectors"). The Objectors raise six specific objections to the proposed changes: (1) The expansion of Water District 170 violates the separate streams provision set forth in the Basin 74 General Provisions; (2) The expansion of Water District 170 will negatively impact the high flow provision set forth in the Basin 74 General Provisions; (3) The expansion of Water District 170 will create a conflict of interest for the watermaster of Water District 170; (4) There is no evidence which suggests that water districts in Basin 74 are not performing their duties, and the W&S Stipulation does not require that existing, functioning water districts be incorporated into Water District 170; (5) There is no justification to include ground water diversions in existing surface water districts; (6) Water districts 74U, 74K and 74Y should not be combined with Water District 74 because of an infringement on the separate streams provision.

Separate Streams Provision

The expansion of Water District 170 will have no effect on the separate streams provision. The Department and the watermasters for the various districts have a statutory duty to deliver water according to the elements and conditions of the SRBA decrees, including the Basin 74 General Provisions. The statutes which give the Director the authority to create and modify water districts do not grant the Director the authority to amend or ignore the elements of the SRBA partial decrees. The twenty-seven sources identified in the separate streams provision will continue to be administered as separate streams.

The Objectors assert that a watermaster cannot effectively administer multiple sources of water, especially if some of the sources are designated as separate streams under the Basin 74 General Provisions. *Joint Statement* at 1-2. This argument has no merit, particularly in Basin 74. Water District 74 currently includes the Lemhi River, but also includes seven of the water sources identified as separate streams in the Basin 74 General Provisions. The watermaster for Water District 74 has been able to administer these sources as separate streams for many years without issue. The watermaster for Water District 170 will be able to do the same.

³ Mr. Whittaker also read his statement into the record during the hearing.

High Flow Provision

The expansion of Water District 170 will have no effect on the high flow provision. According to the terms of the high flow provision, “[t]he practice of diverting high flows in the Lemhi Basin . . . is allowed provided . . . existing decreed rights and future appropriations of water are first satisfied.” *Basin 74 General Provisions* at 2. Expanding Water District 170 does not diminish the high flow usage in any way. Such usage will continue to be available only when all “existing decreed rights and future appropriations” are satisfied. *Id.*

Conflict of Interest

Objectors believe expanding Water District 170 and designating the existing water districts in Basin 74 as subdistricts of Water District 170 will create a “conflict of interest” for the Water District 170 watermaster because certain water users in the district will receive additional water at the same time other water users in the district are curtailed. *Joint Statement* at 2. The same argument could be made for every water district in the state. It is not proper to characterize the duty of a watermaster to deliver water to senior water rights and curtail junior water rights as a conflict of interest. All watermasters, including the watermaster for Water District 170, have a duty to deliver water rights according to the elements of the decrees. For the water districts in Basin 74, this duty includes administration of water rights under the separate streams and high flow provisions. The argument that expanding Water District 170 to include the drainages identified as separate streams will create a temptation for the watermaster to disregard the separate streams provision is without merit.

W&S Stipulation

Objectors argue that the W&S Stipulation does not *mandate* the expansion of Water District 170 to include existing water districts in Basin 74. *Joint Statement* at 2. While that argument may be correct, the W&S Stipulation does contemplate expansion of Water District 170 as needed to facilitate management of water rights throughout the Upper Salmon River drainage. *See W&S Stipulation*, par. 2(b)(2), p. 4. In addition, the Director has discretion to determine how the “mandatory water districts shall be structured” and may “create new districts, revise existing districts, or even abolish districts, as the Director finds necessary for the efficient distribution of water resources.” *In re Idaho Dep't of Water Res. Amended Final Order Creating Water Dist. No. 170*, 148 Idaho at 211, 220 P.3d at 329. By expanding Water District 170 to include Basin 74, the Department will better be able to guarantee that the provisions of the W&S Stipulation are met. As stated above, having a single water district over all of the Upper Salmon River drainage will lead to uniformity in the measurement and reporting of diversions. Further, there will be greater consistency in how water rights junior to September 1, 2003, are administered throughout the drainage. Water District 170 will offer assistance to watermasters where necessary to ensure that each subdistrict is measuring, reporting and administering water rights properly.

Combining Surface Water Rights and Ground Water Rights

Objectors assert that including ground water diversion in the existing surface water districts in Basin 74 will not work because “different expertise is required for measuring ground water well diversions as opposed to surface water diversions.” *Joint Statement* at 3. If the proposed changes are adopted, the Department will issue a measuring device order for Basin 74, requiring ground water users to install Department-approved flow meters. Therefore, the watermasters for existing water districts in Basin 74 will not be required to conduct instantaneous measurements of ground water diversions using portable flow meters. The watermasters will simply be required to take readings from installed flow meters. This activity is no different than reading flow meters which may be installed on a pump station diverting water from a creek.

Objectors point to the Camas Creek drainage, specifically Water Districts 31 and 110, as example of an area where the Department has divided ground water diversions and surface water diversions into separate water districts. *Joint Statement* at 3. These particular water districts do not support the Objectors argument. Although Water District 110 only regulates ground water diversions, the Water District 31 watermaster regulates Mud Lake and its tributaries, including ground water wells which pump into Mud Lake. Therefore, Water District 31 regulates both surface water and ground water diversions. Other examples of water districts which include surface water and ground water diversions include Water Districts 01, 29O, 34, 37, 37B, 37O and 130. It is not uncommon for water districts in Idaho to include surface water and ground water diversions.

Unneeded Layer of Administration

During the hearing, some people in attendance asked Ms. Yenter why the proposed changes were needed. These individuals expressed a concern about creating “another layer of bureaucracy” for water users. Objectors raise the same concern. *Joint Statement* at 3. Ms. Yenter acknowledged that Water District 170 would add another layer of water district administration for water users in Basin 74, but noted that Water District 170 will provide valuable support to the existing water districts. She stated that Water District 170 will not assess water users within subdistricts which are operating in accordance with Idaho law. The 2018 Resolutions for Water District 170 include the following provision: “A subdistrict that adequately measures, records, reports and controls diversions will not be subject to assessments from [Water District] 170”.⁴ Ms. Yenter explained that subdistricts can continue to function independently with minimal interference from Water District 170 as long as the measurement and reporting requirements are met. If Water District 170 subdistricts need assistance with compliance issues such as inadequate measuring devices or unauthorized uses, or have technical or administrative questions, the watermaster for Water District 170 can address those issues, allowing the subdistricts to focus on their primary responsibility of delivering water.

⁴ Water District 170-Upper Salmon River Adopted Resolutions. Budget Resolution adopted 2018.

Combining Water Districts 74, 74K, 74U and 74Y

Objectors oppose combining Water Districts 74K, 74U and 74Y into Water District 74 because of potential infringement of the separate streams provision. *Joint Statement* at 3. Inactive water districts 74K and 74Y each contain only a couple of diversions and a small group of water users. Re-activating these districts and satisfying all of the annual requirements for these districts would be inefficient given the size of the districts. However, these diversions must still be measured and accounted for. The watermaster of Water District 74 will be able to effectively and efficiently administer four additional diversions in the basin. The fact that each of these tributaries is identified as a separately administered stream is not an issue and has been addressed above. Water District 74U (Andrews and Slough Ditch) is a diversion from the Lemhi River and should be under the jurisdiction of the Water District 74 watermaster.

CONCLUSIONS OF LAW

Although many of the existing water districts in Basin 74 have been administering water rights within their existing districts for decades, the expansion of Water District 170 to include these existing water districts as subdistricts will create consistency of administration throughout the entire Upper Salmon River drainage. The Department and Water District 170, through coordination with subdistrict watermasters, will have a greater ability to ensure compliance with the measurement and reporting terms of the W&S Stipulation. The Department and Water District 170, through coordination with subdistrict watermasters, will have a greater ability to identify and curtail unauthorized water uses within the subdistricts. Water District 170 will also be able to consistently administer water rights junior to September 1, 2003 across the entire Upper Salmon River drainage.

To facilitate the efficient distribution of water rights in Basin 74, the Department should approve the proposed changes.

ORDER

Based upon and consistent with the foregoing, IT IS HEREBY ORDERED that:

1. Water Districts 74 (Lemhi River), 74K (Pattee Creek), 74U (Andrews and Slough Ditch), and 74Y (Yearian Creek) are combined into Water District 74 (Lemhi River). The watermaster for Water District 74 will assume responsibility to administer water rights from the creeks and streams within former Water Districts 74K, 74U and 74Y. The watermaster for Water District 74 will not administer headgates within lateral ditch companies downstream of the diversion from the stream.

2. Water Districts 74 (Lemhi River), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks) are revised to include all surface and ground water rights within their respective boundaries with the exception of stockwater and

domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113.

3. The boundaries of Water District No. 170 are revised to include all surface and ground water rights in Basin 74, with the exception of stockwater and domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113. *See Attachment A.*

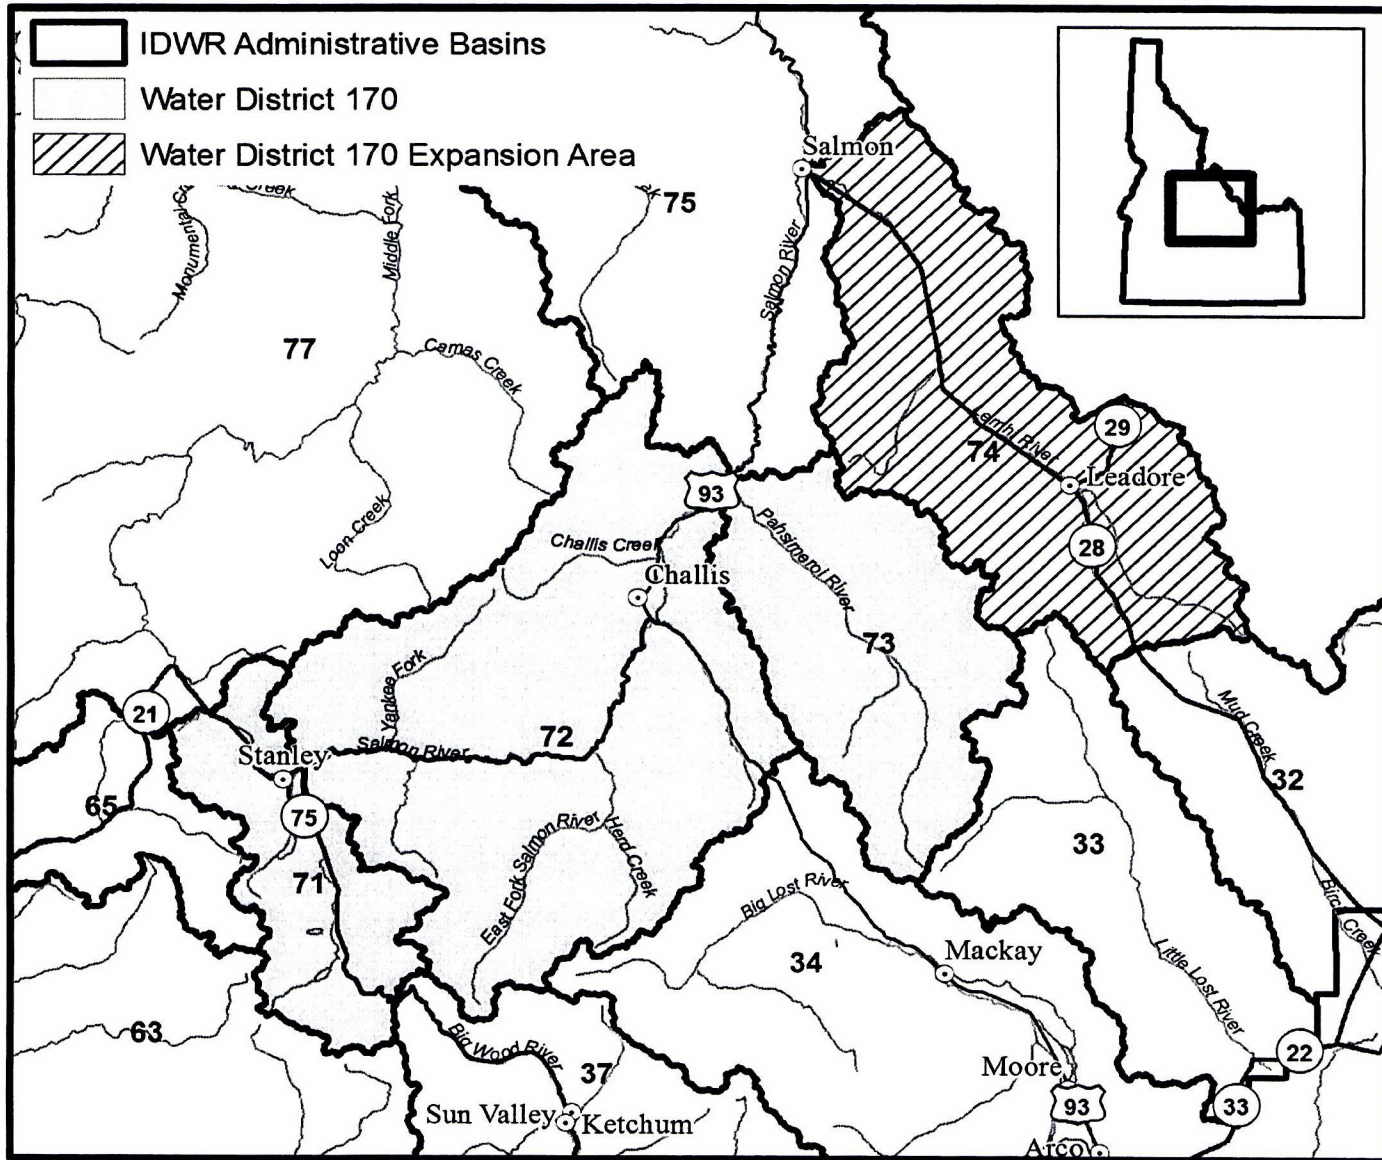

4. Water Districts 74 (Lemhi River), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks) are hereby designated as subdistricts within Water District No. 170. These subdistricts shall continue to meet annually to elect a watermaster, adopt a budget, and select an advisory committee. These subdistricts shall be responsible for distribution of surface and ground water rights within their respective boundaries that have been decreed in the SRBA.

DATED this 10th day of April, 2018.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 10th day of April 2018, the above and foregoing document was served on each individual or entity on the service list for this matter on file at the Idaho Department of Water Resources, 322 East Front Street, Boise, Idaho, and posted on the Department's website: www.idwr.idaho.gov. Each individual or entity on the service list was served by placing a copy of the above and foregoing document in the United States mail, postage prepaid and properly addressed.

Sarah Shaul
Technical Records Specialist
Idaho Department of Water Resources

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was held)

The accompanying order is a **Preliminary Order** issued by the Idaho Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of the order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding to the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, request for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

ROSTER OF ATTENDANCE

IN THE MATTER OF THE PROPOSED EXPANSION)
 OF WATER DISTRICT NO. 170, THE PROPOSED)
 MODIFICATION OF ALL WATER DISTRICTS)
 WITHIN BASIN 74 TO INCLUDE GROUND WATER)
 DIVERSIONS, AND THE PROPOSED COMBINATION)
OF WATER DISTRICTS 74, 74K, 74U AND 74Y)

FEBRUARY 10, 2018

DEAR JAMES:

PRIOR TO THE 1982 ADJUDICATION THERE WERE WATER STUDIES DONE ON THE 27 TRIBUTARIES SEPARATE FROM THE LEMHI RIVER, AS WELL AS THE LEMHI RIVER ITSELF. ACCORDING THE SHERL L. CHAPMAN REPORT, DONE IN 1975, INFORMATION INCLUDED WITHIN THE REPORT SHOWS THAT EVEN THOUGH WATER MAY BE APPLIED TO CROPS IN EXCESS OF THE CONSUMPTIVE IRRIGATION REQUIREMENT THERE IS NO ACTUAL DIMINISHMENT OF WATER SINCE THE EXCESS PERCOLATES DOWNWARD, ENTERS THE GROUND WATER SYSTEM AND MOVES INTO THE LEMHI RIVER AT A LATER DATE, AUGMENTING LOW SUMMER TIME FLOWS. THEREFORE, IT IS ESSENTIALLY THE SAME AS ARTIFICIAL RECHARGE IN THE GROUND WATER SYSTEM.

ADDITIONALLY, E.G. CROSTHWAITE IN HIS OPEN FILE REPORT ON THE WATER RESOURCES OF THE UPPER LEMHI VALLEY STATES THAT "PRACTICALLY ALL THE WATER WHICH PERCOLATES INTO THE GROUND MOVES TOWARD THE RIVER AND REAPPEARS IN NUMEROUS SEEPS AND SPRINGS IN THE FLOOD PLAIN OF THE LEMHI RIVER." IT BECOMES VERY APPARENT THAT THE WATER ENTERING THE ALLUVIAL FANS AND TERRACES ADJACENT TO THE VALLEY FLOOR AND THE WATER ENTERING THROUGH APPLICATION OF IRRIGATION WATER RECHARGES THE GROUND WATER SYSTEM AND THE TWO ARE INSEPARABLY RELATED.

THE FIRST DECREES ON BIG AND LITTLE TIMBER CREEK WERE COMPLETED IN JANUARY OF 1914. WE ASSUME THE OTHER TRIBUTARIES TO BE OF SIMILAR DATES.

THE WATER USERS ON 27 TRIBUTARIES HIRED ATTORNEYS AND GOT THE FOLLOWING GENERAL PROVISIONS IN THE 1982 ADJUDICATION:

- A. THE 3.0 ACRE-FOOT PER ACRE ORIGINALLY RECOMMENDED AS A VOLUME AT THE FIELD HEADGATE HAS ESSENTIALLY BEEN ELIMINATED. THE FINDINGS OF FACT AND CONCLUSIONS OF LAW NOW STATE THAT THE CONSUMPTIVE IRRIGATION REQUIREMENT (THE AMOUNT OF WATER REQUIRED TO RAISE ALFALFA OR WILD HAY IN THE LEMHI RIVER BASIN)

SCANNED

APR 11 2018

IS 1.45 AF-ACRE. THIS IS FACTUAL INFORMATION AND WILL NOT BE USED TO LIMIT DELIVERY OF WATER UNDER EXISTING RIGHTS AS WAS THE ORIGINAL CONCERN OF OBJECTORS. WATER WILL BE DELIVERED AS HISTORICALLY DONE- BY RATE OF DIVERSION (cfs or miners inch) to which the land is appurtenant.

- B. THE NORMAL IRRIGATION SEASON ORIGINALLY RECOMMENDED AS APRIL 1 TO NOVEMBER 1 HAS BEEN CHANGED TO MARCH 15 TO NOVEMBER 15 OF EACH YEAR WITH THE PROVISION THAT IN SOME CASES WATER HAS BEEN AND CAN BE APPLIED TO A BENEFICIAL USE OUTSIDE THE NORMAL IRRIGATION SEASON.
- C. THE USE OF "FLOOD WATER" or "HIGH WATER" CONCERN HAS BEEN RESOLVED BY ESSENTIALLY CHANGING THE ORIGINAL RECOMMENDATION TO SAY THAT THE EXISTING DECREED STREAMS AS LISTED IN CONCLUSIONS OF LAW #3 IN THE GREEN BOOK CAN OPERATE AS DISTINCT AND SEPARATE STREAMS FROM THE MAINSTREAM LEMHI RIVER PRIORITIES INCLUDING FUTURE APPROPRIATIONS ON THOSE PARTICULAR DECREED STREAMS SHOWN IN CONCLUSION OF LAW #3.

THIRTY YEARS LATER, AND THOUSANDS OF DOLLARS IN ATTORNEY FEES, WE HAD TO FORM LEMHI BASIN WATER USERS IN ORDER TO PROTECT THOSE RIGHTS. THE COURT SAID THE PRACTICE OF DIVERTING HIGH FLOWS IN THE LEMHI BASIN, IN ADDITION TO DIVERTING DECREED AND FUTURE WATER RIGHTS THAT MAY BE ESTABLISHED PURSUANT TO STATUTORY PROCEDURES OF THE STATE OF IDAHO, IS ALLOWED PROVIDED:

- A. THE WATERS SO DIVERTED ARE APPLIED TO BENEFICAL USE
- B. EXISTING DECREED RIGHTS AND FUTURE APPROPRIATIONS OF WATER ARE FIRST SATISFIED.

THE FOLLOWING GENERAL PROVISIONS ARE HEREBY DECREED TO BE APPLICABLE TO WATER RIGHTS IN BASIN 74:

- A. THE FOLLOWING WATER RIGHTS FROM THE FOLLOWING SOURCES OF WATER IN BASIN 74 SHALL BE ADMINISTERED SEPARATELY FROM ALL OTHER WATER RIGHTS IN BASIN 74 IN ACCORDANCE WITH THE PRIOR APPROPRIATION DOCTRINE AS ESTABLISHED BY IDAHO LAW.
- B. HIGH FLOWS ARE MEMORIALIZED WITH A GENERAL PROVISION AND DO NOT REQUIRE THE ADJUDICATION OF INDIVIDUALIED CLAIMS. ALTHOUGH HIGH WATER FLOWS ARE NOT CONSIDERED A WATER RIGHT, THEY CAN BE ALLOWED THROUGH A GENERAL PROVISION AS AN ANCILLARY USE TO AN EXISTING WATER RIGHT.

SCANNED
APR 11 2018

THESE DISTRICTS HAVE OPERATED 100 PLUS YEARS SATISFACTORILY. THEY HOLD RIGHTS TO ALL THE SURFACE WATERS, AND THE GROUND WATER WITHIN THEIR BORDERS COULD BE EASILY INCORPORATED. THEY SHOULD REMAIN SEPARATE FROM THE UMBRELLA DISTRICT 170.

IDAHO DEPARTMENT OF WATER RESOURCES DOES NOT HAVE THE RIGHT TO TAKE OVER A FUNCTIONING WATER DISTRICT AND VIRTUALLY ELIMINATE PREVIOUS JUDGES' ORDERS. TWO SEPARATE JUDGES OVER A THIRTY-FIVE YEAR PERIOD HAVE CONSISTANTLY RULED IN FAVOR OF THE WATER USERS OF BASIN 74, AND THE CREATION OF UMBRELLA DISTRICT 170 WOULD BE IN DIRECT VIOLATION OF THE RIGHTS SET FORTH BY THESE JUDGES.

SINCERELY,

A handwritten signature in black ink that reads "F. James Whittaker". The signature is written in a cursive style with a large, looping initial "F".

Re: *Statement of Public Witnesses Pursuant to IDAPA 37.01.01.355; In the Matter of the Proposed Expansion of Water District 170, the Proposed Modification of all Water Districts Within Basin 74 to Include Ground Water Diversions and Their Proposed Combination of Water District 74, 74K, 74U, and 74Y.*

Dear Hearing Officer Cefalo:

Enclosed are documents relating to the above-entitled matter involving Water District 170. There are two different documents entitled *Statement of Public Witnesses* that are identical, but have separate signature pages as this Statement was circulated to water users in Basin 74. I have been asked by James Whittaker to insure the submission of these documents to the Department of Water Resources on or before February 12, 2018, as provided in the *Notice of Public Hearing* previously issued in this matter. These statements are similar to a statement provided to you at the February 1st hearing on this matter, read by James Whittaker, which was signed by a number of water users. A copy of his signed statement, along with other signatures, is also included.

We appreciate your careful consideration of these comments as the Hearing Officer in the above-entitled matter.

Best regards,

Robert L. Harris
HOLDEN, KIDWELL, HAHN & CRAPO, P.L.L.C.

STATEMENT OF PUBLIC WITNESSES

IDAPA 37.01.01.355

In the Matter of the Proposed Expansion of Water District 170, the Proposed Modification of All Water Districts Within Basin 74 To Include Ground Water Diversions and the Proposed Combination of Water Districts 74, 74K, 74U and 74Y

I, James Whittaker, ^{Tribes} make the following statements as a party to this action. In addition, others who have signed this statement have requested that I provide this statement on their behalf as public witnesses in this action pursuant to Rule 355 of the Department's Rules of Procedure.

We, the undersigned, submit the following statement concerning the Proposed Expansion of Water District 170, the Proposed Modification of All Water Districts Within Basin 74 To Include Ground Water Diversions and the Proposed Combination of Water Districts 74, 74K, 74U and 74Y

1. We are water users who possess water rights that are authorized to divert surface water and/or ground water within the boundaries of Basin 74.
2. The Basin 74 General Provisions issued in the Snake River Basin Adjudication provide that certain tributary streams to the Lemhi River "shall be administered separately from all other water rights in Basin 74." These same general provisions also allow for diversion and use of so-called "high flows" provided that the water is diverted to a beneficial use and existing decreed rights are satisfied.
3. As a result of the historic separate stream administration of water in the Lemhi River basin, individual water districts for individual tributary streams have been organized and functioned appropriately on nearly all tributary streams to the Lemhi River. The proposed administrative action that is the subject of this proceeding will relegate these well-functioning districts to "subdistricts."
4. We are opposed to the expansion of Water District 170 to include the functioning existing surface water districts within Basin 74 (74A, B, C, F, G, J, M Q, W, and Z) for the following legal reasons:
 - a. The expansion of Water District 170 violates the separate streams general provision decreed in the Snake River Basin Adjudication. That general provision expressly provides that "water rights from the following sources of water in Basin 74 **shall be** administered separately from all other water rights in Basin 74." Shall means shall. Creation of an IDWR instrumentality that will jointly administer water rights with existing water districts on the tributary streams to the Lemhi River and the main stem Lemhi River is contrary to the plain language of this general provision.

There must be separation in administration, and that cannot occur with what is being pursued by the Department. The hearing officer is urged to review this Basin 74 general provision and apply the correct principles of interpretation of water right partial decrees described in the *City of Blackfoot v. Spackman*, 162 Idaho 302, ____, 396 P.3d 1184, 1188 (2017) (“When interpreting a water decree this Court utilizes the same rules of interpretation applicable to contracts. If a decree’s terms are unambiguous, this Court will determine the meaning and legal effect of the decree from the plain and ordinary meaning of its words.”).

- b. The expansion of Water District 170 negatively implicates the high flows general provision decreed in the Snake River Basin Adjudication. This is because high flows are allowed if existing decreed rights are first satisfied, and where the administration of existing decreed rights on tributary streams is governed by the appropriate water district, an expanded Water District 170 may demand curtailment or implement additional restrictions of such high flows to satisfy or otherwise benefit other main stem Lemhi River water rights.
- c. The explanation of Water District 170 creates a possible conflict of interest with the watermaster for Water District 170, as the watermaster will be obligated to oversee the administration of tributary stream water rights and water rights on the main stem of the Lemhi River where the main stem water rights could benefit from curtailment or restriction of tributary diversions.
- d. There is no evidence of which we are aware to suggest that the functioning water districts within Basin 74 are not performing their duties in compliance with Idaho law to account for and measure the diversions of water from their respective water sources.
- e. To the extent the Water District 170 expansion is driven by the inactive water districts of 74U, 74K, and 74Y, this minority group of non-functioning water districts should not dictate IDWR action as against the functioning water districts.
- f. *In the Stipulation and Joint Motion for Order Approving Stipulation* in Consolidated Subcase No. 75-13316—the Wild & Scenic Rivers Act Claims—it provides that Basins 73, 74, and 75 “will be” incorporated into the Upper Salmon Water District, but that “existing water districts within the basins will be converted to subdistricts within the Upper Salmon Water District **as appropriate** to facilitate management.” Our reading of this provision is that areas not previously covered by a water district in Basin 74 may be brought into the Upper Salmon Water District, this should have no effect on existing water districts. This is because it is “not appropriate” nor is it necessary to “facilitate management” in Basin 74 to relegate existing water districts that are lawfully functioning to “subdistricts” for all of the above reasons discussed herein. Paragraph 2.b.(2).

g. Additionally, in the same stipulation, it also provides that "IDWR will establish a water district for the basin if IDWR determines that a water district is necessary to properly administer water rights in the basin." There is no evidence that an additional water district is "necessary to administer water rights in the basin." Paragraph 2.b.(3).

5. We are opposed to the inclusion of the inactive water districts of 74U, 74K, and 74Y into Water District 74 because of infringement of such actions on the general provision previously discussed. Instead, individual action should be taken to activate these water districts.
6. We are opposed to the creation of a water district that combines measurement and accounting of ground water and surface water diversions. The need to measure ground water diversions appears to be an excuse to combine measurement and accounting of surface water diversions. In other areas of the State of Idaho, there are overlapping water districts that focus on measurement and accounting of different water sources, presumably because different expertise is required for measuring ground water well diversions as opposed to surface water diversions. For example, Water District 31 covers the Mud Lake area surface water diversions, whereas Water District 110 also covers the Mud Lake area and measures and accounts for ground water diversions.
7. We take no position on the creation of a ground water district independent of existing surface water districts to measure and account for ground water diversions.
8. Finally, Idaho stands for the principle of efficient and limited government. It has been our sad experience in this basin that additional governmental involvement in our lives leads to erosion of our rights and liberties. There is no reason to have duplicate water districts with overlapping jurisdiction and responsibility to measure and account for surface water.

STATEMENT OF PUBLIC WITNESSES

IDAPA 37.01.01.355

In the Matter of the Proposed Expansion of Water District 170, the Proposed Modification of All Water Districts Within Basin 74 To Include Ground Water Diversions and the Proposed Combination of Water Districts 74, 74K, 74U and 74Y

We, the undersigned, submit the following statement concerning the Proposed Expansion of Water District 170, the Proposed Modification of All Water Districts Within Basin 74 To Include Ground Water Diversions and the Proposed Combination of Water Districts 74, 74K, 74U and 74Y.

1. We are water users who possess water rights that are authorized to divert surface water and/or ground water within the boundaries of Basin 74.
2. The Basin 74 General Provisions issued in the Snake River Basin Adjudication provide that certain tributary streams to the Lemhi River “shall be administered separately from all other water rights in Basin 74.” These same general provisions also allow for diversion and use of so-called “high flows” provided that the water is diverted to a beneficial use and existing decreed rights are satisfied.
3. As a result of the historic separate stream administration of water in the Lemhi River basin, individual water districts for individual tributary streams have been organized and functioned appropriately on nearly all tributary streams to the Lemhi River. The proposed administrative action that is the subject of this proceeding will relegate these well-functioning districts to “subdistricts.”
4. We are opposed to the expansion of Water District 170 to include the functioning existing surface water districts within Basin 74 (74A, B, C, F, G, J, M Q, W, and Z) for the following legal reasons:
 - a. The expansion of Water District 170 violates the separate streams general provision decreed in the Snake River Basin Adjudication. That general provision expressly provides that “water rights from the following sources of water in Basin 74 **shall be** administered separately from all other water rights in Basin 74.” Shall means shall. Creation of an IDWR instrumentality that will jointly administer water rights with existing water districts on the tributary streams to the Lemhi River and the main stem Lemhi River is contrary to the plain language of this general provision. There must be separation in administration, and that cannot occur with what is being pursued by the Department. The hearing officer is urged to review this Basin 74 general provision and apply the correct principles of interpretation of water right partial decrees described in the *City of Blackfoot v. Spackman*, 162 Idaho 302, _____,

SCANNED

APR 11 2018

396 P.3d 1184, 1188 (2017) (“When interpreting a water decree this Court utilizes the same rules of interpretation applicable to contracts. If a decree’s terms are unambiguous, this Court will determine the meaning and legal effect of the decree from the plain and ordinary meaning of its words.”).

- b. The expansion of Water District 170 negatively implicates the high flows general provision decreed in the Snake River Basin Adjudication. This is because high flows are allowed if existing decreed rights are first satisfied, and where the administration of existing decreed rights on tributary streams is governed by the appropriate water district, an expanded Water District 170 may demand curtailment or implement additional restrictions to the diversion of such high flows to satisfy or otherwise benefit other main stem Lemhi River water rights.
- c. The expansion of Water District 170 creates a possible conflict of interest with the watermaster for Water District 170, as the watermaster will be obligated to oversee the administration of tributary stream water rights and water rights on the main stem of the Lemhi River where the main stem water rights could benefit from curtailment or restriction of tributary diversions.
- d. There is no evidence of which we are aware to suggest that the functioning water districts within Basin 74 are not performing their duties in compliance with Idaho law to account for and measure the diversions of water from their respective water sources.
- e. To the extent the Water District 170 expansion is driven by the inactive water districts of 74U, 74K, and 74Y, this minority group of non-functioning water districts should not dictate Department action as against the functioning water districts.
- f. *In the Stipulation and Joint Motion for Order Approving Stipulation in Consolidated Subcase No. 75-13316—the Wild & Scenic Rivers Act Claims*—it provides that Basins 73, 74, and 75 “will be” incorporated into the Upper Salmon Water District, but that “existing water districts within the basins will be converted to subdistricts within the Upper Salmon Water District **as appropriate to facilitate management.**” Paragraph 2.b.(2). Our reading of this provision is that areas not previously covered by a water district in Basin 74 may be brought into the Upper Salmon Water District, this should have no effect on existing water districts. This is because it is “not appropriate” nor is it necessary to “facilitate management” in Basin 74 to relegate existing water districts that are lawfully functioning to “subdistricts” for all of the reasons discussed herein.
- g. Additionally, in the same stipulation, it also provides that “IDWR will establish a water district for the basin if IDWR determines that a water district is necessary to

SCANNED

APR 11 2018

properly administer water rights in the basin.” Paragraph 2.b.(3). There is no evidence that an additional water district is “necessary to administer water rights in the basin.”

- h. Idaho Code § 42-604 has been referenced in support of the Department’s action in this matter. We disagree that the provisions of Idaho Code § 42-604 supports this action. This code section provides “that any stream tributary to another stream may be constituted into a separate water district when the use of the water therefrom does not affect or conflict with the rights to use of the water of the main stream.” Idaho Code § 42-604 further provides that the Director “may create, revise the boundaries of, or abolish a water district or combine two (2) or more water districts by entry of an order if such action is required in order to properly administer uses of the water resource.” As described above, because of the Basin 74 separate streams provision, water use on the tributaries cannot “affect or conflict with the rights to use of the water on the main stream.” Additionally, expansion of Water District 170 to include existing and functioning water districts is not required or necessary in this instance to properly administer uses of the water resource because the current surface water districts are functioning appropriately.
5. We are opposed to the inclusion of the inactive water districts of 74U, 74K, and 74Y into Water District 74 because of infringement of such actions on the general provision previously discussed. Instead, individual action should be taken to activate these water districts.
6. We are opposed to the expansion of Water District 170 that proposes to combine measurement and accounting of ground water and surface water diversions where there are existing surface water districts. There is no need for Water District 170 to perform this function because the current surface water districts should perform the responsibility of measuring and accounting for ground water diversions within its boundaries.
7. Finally, Idaho stands for the principle of efficient and limited government. It has been our sad experience in this basin that additional governmental involvement in our lives leads to erosion of our rights and liberties.

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA) PARTIAL DECREE PURSUANT TO
Case No. 39576) I.R.C.P. 54(b) FOR GENERAL
) PROVISIONS IN BASIN 74
)
)
)
)

The following general provisions are hereby decreed to be applicable to water rights in Basin 74:

The following water rights from the following sources of water in Basin 74 shall be administered separately from all other water rights in Basin 74 in accordance with the prior appropriation doctrine as established by Idaho law:

- 1. Agency Creek and tributaries;
- 2. Alder Creek and tributaries;
- 3. Basin Creek (including McNutt & Schwartz) and tributaries;
- 4. Bohannon Creek and tributaries;
- 5. Bull Creek and tributaries;
- 6. Canyon Creek (Junction Creek) and tributaries;
- 7. Eightmile Creek (Big & Little) and tributaries;
- 8. Geertson Creek and tributaries;
- 9. Hawley Creek and tributaries;
- 10. Haynes Creek and tributaries;
- 11. Jake Canyon Creek and tributaries;
- 12. Kirtley Creek and tributaries;
- 13. Lee Creek and tributaries;
- 14. Mill Creek and tributaries;
- 15. Pattee Creek and tributaries;
- 16. Peterson Creek and tributaries;
- 17. Pratt Creek and tributaries;
- 18. Sandy Creek and tributaries;
- 19. Sawmill Creek (Little) and tributaries;
- 20. Texas Creek and tributaries;

21. Timber Creek (Big & Little) and tributaries;
22. Walter Creek and tributaries;
23. Warm Springs Creek (near Pratt Creek) and tributaries;
24. Wimpey Creek and tributaries;
25. Withington Creek and tributaries;
26. Yearian Creek and tributaries; and
27. Zeph and Swartz Creeks and tributaries.

Future appropriations of water on the above streams are not considered to be subject to prior downstream rights on the Lemhi River proper. Future appropriations of water on any other water source or stream in the Lemhi River Basin, however, are considered to be tributary to the Lemhi River for purposes of distribution.

The following water rights from the following sources of water in Basin 74 shall be administered separately from all other water rights in the Snake River Basin in accordance with the prior appropriation doctrine as established by Idaho law:

| Water Right No. | Source |
|-----------------|--------|
| None | None |

Except as otherwise specified above, all water rights within Basin 74 will be administered as connected sources of water in the Snake River Basin in accordance with the prior appropriation doctrine as established by Idaho law.

The following general provision shall govern the use of "High Flow" surface water for irrigation use within the Lemhi Basin:

The practice of diverting high flows in the Lemhi Basin, in addition to diverting decreed and future water rights that may be established pursuant to statutory procedures of the State of Idaho, is allowed provided:

- (a) the waters so diverted are applied to beneficial use.
- (b) existing decreed rights and future appropriations of water are first satisfied.

Dated: April 3, 2012

 ERIC J. WILDMAN
 Presiding Judge
 Snake River Basin Adjudication

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

ADVISORY COMMITTEE

Idaho Department of Water Resources
PO BOX 83720
Boise, Id. 83720-0098

February 12, 2018

Re: Upper Salmon Water District 170 Expansion/Modification to include Water District 74

Dear Hearing Office James Cefalo:

On behalf of the Watershed Advisory Committee (WAC), I would like to confirm that our group has seen IDWR's proposal to expand Water District 170 (WD170) to include the Lemhi Basin. The WAC is a community driven partnership founded in 1992 through a grass roots effort, with landowners voluntarily working together with local, state and federal partners. Our mission statement is to 'provide a public framework for coordination and cooperation among local, private, state, tribal, and federal fish, wildlife, and land managers, land users, and landowners in the management of biological, social, and economic resources in protecting, enhancing, and restoring anadromous and resident fish habitat and wildlife.'

At a public hearing held February 1, 2018, the Idaho Department of Water Resources (IDWR) presented proposals related to the expansion of WD170 to include all surface and groundwater rights in IDWR Administrative Basin 74, with the exception of domestic and stockwater rights. Proposals included designating the existing B74 water districts as sub-districts of WD170, adding ground water administration to sub-districts, and combining existing water districts 74U-Andrews and Slough Ditch 74K-Pattee Creek and 74Y-Yearian Creek into Water District 74.

The expansion of WD170 is necessary to satisfy the mandate of the Wild and Scenic Agreement to include Upper Salmon Basins 71-75. The expansion of WD170 directly and positively influences the USBWP's mission and the conjunctive management of surface water and ground water rights is timely.

Please enter these comments into the record of the February 1, 2018 Public Hearing.

Sincerely,

Shannon K Williams

Water District 170
2017 Watermaster Report
Annual Meeting January 23, 2018

RECEIVED
FEB 01 2018
DEPT OF WATER RESOURCES
SOUTHERN REGION

Notable activities and accomplishments in 2017:

- 468.5 hours worked Approximate value to District \$33,000
- Flow meter installations and inspections on approx 30 B73-Pahsimeroi wells (2014 Order). Watermaster has collected first year of ground water data
- Second round compliance Inventories of Pahsimeroi tributary diversions
- Compliance letters sent to about 12 water users in WD72D, all for measurement and control issues
- Expansion of WD170 to include Lemhi Basin 74 (Public meeting Nov 28, public hearing Feb 1, 2018)

Goals for 2018:

- Ground water inventory and measurement order in B74 (2019 implementation)
- Compliance letters to WD71 and WD72A
- Inventory (re-inventory) of all WD170 diversions and determination of compliance and reporting needs
- Watermaster training in Salmon
- Begin inventory of B75 diversions and form a steering committee to discuss creation of sub-districts

ANNUAL MEETING MINUTES
WATER DISTRICT 170 – UPPER SALMON RIVER
Tuesday, January 23, 2018
Advisory Committee – 1:00 pm
General Meeting - 2:00 pm
American Legion Hall, Challis ID

The Advisory Committee convened at 1:00 pm, prior to the general meeting. In attendance were Charlie Boge (non-sub), Tom McGowan (72D), Jeri D’orazio (72A), George Miller (73), Jim Hawkins (72F), Richard Giampadreglia (CMI), and watermaster Cindy Yenter.

The group discussed the need to modify the composition of the advisory committee to add representation for the Lemhi Basin which is being added to WD170 this year. The watermaster had visited with some Lemhi water users, who had suggested two Lemhi seats on the WD170 Advisory Committee. Because the addition of the Lemhi Basin nearly doubles the number of water rights and administered diversions in WD170, the group agreed.

The watermaster had reached out to both USFS and BLM regarding their seats on the WD170 Advisory Committee. Tom Ford with USFS was interested in participating but was on furlough the day before the meeting and did not attend. BLM never responded. Jim Hawkins suggested that the seats be left in place and that the district be sure and invite agency representatives every year. That way the agencies could not claim they were being excluded.

The watermaster had proposed changes to the Resolutions which cleaned up some awkward language, inserted consistent acronyms, and clarified that WD170 would not assess sub-districts who are operating according to state law. The group agreed to recommend these changes. The watermaster had also proposed the addition of a sentence which stated that WD170 might assess in non-subdistrict areas in the future. The committee rejected this change, insisting this issue could be addressed later. Jim Hawkins asked the watermaster to inventory all the non-sub diversions in the coming year and evaluate the measurement needs and administrative cost. The four largest non-sub diverters (Challis Irrigation, Gini Ditch, City of Challis and First Fruits) are self-reporting to WD170.

The Advisory Committee meeting adjourned at approximately 1:50 pm.

The Annual Meeting of Water District 170 was called to order by Jim Hawkins at approximately 2:00 pm. The Advisory members were joined by eight other water users for the general meeting.

Jim Hawkins was unanimously selected to be the meeting chair. Cindy Yenter offered to record the meeting and prepare minutes.

Copies of 2017 minutes were distributed and reviewed and were approved with no objections.

Cindy Yenter gave a watermaster report which described her field activities in WD170 during 2017 and her goals and plans for WD170 in 2018. That report is attached to these minutes. She also presented the snowpack report and a brief overview of pending legislation. The watermaster announced that

over

SCANNED
FEB 01 2018

there is a public hearing scheduled for February 1 in regard to the expansion of WD170 to include the Lemhi Basin.

The Watermaster offered some general information regarding filing of stockwater claims on federal land, and insurance requirements for water districts. Since the watermaster is a State of Idaho employee, she is already fully covered by the State's insurance. Any other duly appointed watermaster or watermaster assistant are also covered by the State's liability insurance while on duty; water districts must provide worker's compensation insurance.

Chairman Hawkins presented the proposed 2018 resolutions, and recommended the changes discussed at the Advisory meeting. IDWR will continue to provide watermaster services, Cindy Yenter will be appointed WD170 Watermaster for 2018, and Water District 170 will continue to have a zero budget in 2018 and will not make assessments. A motion was made and seconded to adopt the resolutions as recommended by the Advisory Committee, and to strike the entry regarding assessment of non-sub areas.

The 2019 meeting will be held on the fourth Tuesday of January, in Challis. The best time for the meeting was discussed. Most in attendance favored the afternoon meetings. No vote was taken.

There being no other business brought forth, Chairman Hawkins asked for a motion, and adjourned the meeting at 2:24 pm.

Respectfully submitted,

Cindy Yenter

**WATER DISTRICT 170
UPPER SALMON RIVER**

**PREVIOUSLY ADOPTED RESOLUTIONS WILL REMAIN IN EFFECT UNTIL CHANGED BY
SUBSEQUENT RESOLUTION OR OTHERWISE ALTERED BY MAJORITY VOTE OF THE
WATER RIGHT OWNERS IN THEIR ANNUAL MEETING OR SPECIAL MEETING CALLED
FOR SUCH PURPOSE**

DISTRICT BYLAWS

Adopted 2007

The Idaho Department of Water Resources (IDWR) Watermaster Handbook and related Idaho Statutes (both as may be duly amended from time to time) and Resolutions as duly approved by the water right owners of the District shall serve as the Upper Salmon Water District No. 170 (WD170) Bylaws.

WATERMASTER TERM OF SERVICE

Adopted 2008

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that the WD170 Watermaster's term of service shall begin upon annual meeting election and continue until the next annual meeting.

ELECTION OF OFFICERS

Adopted 2007

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that District Officers shall be elected at the end of each Annual Meeting allowing incumbents to conduct the entire meeting and Agenda business prior to any potential change(s).

OFFICER AUTHORITY

Adopted 2007

Upon being duly elected by water right owner majority vote at their Annual Meeting the Secretary/ Treasurer shall, until replaced by subsequent majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, have full authority to sign on behalf of the District including, but not limited to, the District bank account(s). The Chairman and Watermaster shall also have alternate signature authority for the District bank account(s).

WATER RIGHT OWNERSHIP BY MULTIPLE PARTIES

Adopted 2007

Any water right(s) owned by more than one individual (or married couple) shall declare a single individual (or married couple) who shall represent all other owner's interests and be the primary contact with the District on relevant District issues.

WATERMASTER ACCESS

Adopted 2009

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that all users shall provide for watermaster access to control structures and measuring devices. If the access is through a locked gate, the user shall, upon request by the watermaster, provide to the watermaster or deputy watermaster a key or combination to such locks.

ANNUAL MEETING DATE

Adopted 2007

Until changed by subsequent Resolution or otherwise altered by majority vote of the water right owners in their Annual Meeting or special meeting called for such purpose, it is herewith resolved that the WD170 Annual Meeting shall be the fourth (4th) Tuesday in January on a date, time and place to be determined at the Annual Meeting each successive year.

DISTRICT PAYMENT TERMS

Adopted 2007

1. Annual Adopted Budget payment shall be payable on or before March 1; any other billing within thirty (30) days following such billing; the postmark date will be considered the date of payment.
2. If not paid by April 1st the water user shall be charged in accordance with Statute 42-613 which provides for a late fee of 10% of the amount and interest of 1% per month.
3. If not paid in full (partial payments shall not be acceptable) including Late Fee by April 1st, Treasurer shall so inform the Watermaster who shall immediately terminate water delivery to the water right owner who is in payment default.
4. Treasurer must thereafter receive the original invoice amount, Late Fee(s) plus a \$25.00 Watermaster Service Fee before Treasurer shall advise the Watermaster who shall then again deliver the applicable right(s).
5. A returned or insufficient fund check shall require the Treasurer to so advise the Watermaster who shall immediately terminate the appropriate water delivery. All monies originally due plus applicable bank charges and any charges then resulting from unmet District payment terms must be paid in cash, cashier's check or money order before Treasurer shall so advise the Watermaster who shall then deliver the appropriate water right(s).
6. In the event payment in full is not received by the end of the then current irrigation season (or sooner if the Treasurer determines sale of the property and associated water right[s] is imminent), the Treasurer may, on behalf of the District, initiate legal action in Small Claims Court against the water right owner(s). Eventual recovery is to include costs incurred by such action as well as all other monies due.

Note: When a water delivery termination is imminent and there are others utilizing the same diversion that could be affected, those others affected shall, whenever possible, be advised of said delivery termination as soon as possible after the problem arises so they shall have the opportunity, if they so desire, to deal with the matter as they may deem appropriate before water delivery is reduced by the amount covered by the applicable right(s) being terminated

PROXY VOTING & SUBORDINATED WATER RIGHTS

Adopted 2007

1. In accordance with District Bylaws, proxy votes shall not be allowed "except that in the absence of the owner a right may be voted by another person present who has the use of the right for the ensuing season, such as a tenant, lesser or contract purchaser".
2. In such case(s) or whenever a right is subordinated and/or "worked" by anyone other than the owner a form adopted and provided by the District shall be completed and returned to the Secretary/Treasurer to remain on file throughout the term stating with whom such agreement exists, whether such voting right is granted, and/or granting authority to represent the water right owner on any other water issues that may arise during the irrigation season or balance of the agreement term to be recorded by water right owner with the County Recorder of jurisdiction.

WATER RIGHT OWNERS IN THEIR ANNUAL MEETING OR SPECIAL MEETING CALLED
FOR SUCH PURPOSE**

ADVISORY COMMITTEE STRUCTURE

Adopted 2018

A WD170 Advisory Committee shall be elected to provide input to the watermaster and the Director of IDWR. The WD170 Advisory Committee shall be comprised of 14 total seats, as follows:

Sub-district representatives (8 total): Stanley Basin (1 seat), Clayton Area (1 seat), Garden Creek (1 seat), Challis Creek (1 seat), Morgan Creek (1 seat), Pahsimeroi Basin (1 seat), Lemhi Basin (2 seats)
Basin 72 non sub-district area irrigation (2 seats)
Commercial/industrial/ municipal/other uses (2 seats)
US Forest Service (1 seat)
US Bureau of Land Management (1 seat)

Seats may be added to or subtracted from the WD170 Advisory Committee in subsequent years depending on further revisions or expansions of the district boundaries to be determined as necessary. Each group represented may also select an alternate for each seat.

Representatives for sub-district areas will be selected during that sub-district's annual meeting. The sub-district will notify the WD170 watermaster of the representative(s) selected following the sub-district annual meeting. Representatives for the non-sub-district groups will be selected at the WD170 annual meeting. The WD170 Advisory Committee will meet as often as needed to address the structure, governance and operation of the district.

CURRENT YEAR ADVISORY COMMITTEE MEMBERS

Adopted 2018

Basin 72 non sub-district area irrigation (2 seats) – Gary Chamberlain, Charlie Boge
Basin 71 & 72 commercial/industrial/ municipal/other uses (2 seats) –
 City of Challis: Cory Rice
 Thompson Creek Mine: Richard Giampedraglia
US Forest Service –
US Bureau of Land Management -
Sub-district representatives – To be selected by each entity

WATERMASTER SERVICES

Adopted 2018

Watermaster services for WD170 shall be provided by IDWR and the Director shall name or appoint a Department employee to serve as the WD170 Watermaster for the ensuing year.

BUDGET RESOLUTION

Adopted 2018

Recognizing that IDWR will appoint a watermaster for WD170 with the understanding that water users in areas organized as sub-districts within WD170 will each elect and fund a sub-district watermaster to perform the day to day duties within their sub-district, it is resolved that,

- 1) The existing sub-districts will each adopt a budget to be collected from the users within the respective sub-districts only, and that users not within that sub-district will not be responsible for any portion of that sub-district budget.
- 2) A sub-district that adequately measures, records, reports and controls diversions will not be subject to assessments from WD170.

For the current year, the Budget for WD170 shall be \$0.00.

BEFORE THE DEPARTMENT OF WATER RESOURCES

RECEIVED

OF THE STATE OF IDAHO

JAN 22 2018

DEPT OF WATER RESOURCES
SOUTHERN REGION

IN THE MATTER OF THE PROPOSED)
EXPANSION OF WATER DISTRICT 170,)
THE PROPOSED MODIFICATION OF ALL)
WATER DISTRICTS WITHIN BASIN 74 TO)
INCLUDE GROUND WATER DIVERSIONS,)
AND THE PROPOSED COMBINATION OF)
WATER DISTRICTS 74, 74K, 74U AND 74Y)

NOTICE OF PUBLIC HEARING

The Director of the Idaho Department of Water Resources (Department) is authorized to divide the state into water districts for the purpose of distributing water among appropriators under the laws of the State of Idaho. Idaho Code § 42-604 authorizes the Director to create, revise the boundaries of, or abolish a water district or combine two (2) or more water districts.

The authority to revise, expand or combine the boundaries of water districts applies to those streams or other public water sources, including ground water, for which the priorities of appropriation have been adjudicated by court decree. Water rights in the Upper Salmon and Lemhi areas have been adjudicated by the Snake River Basin Adjudication (SRBA) Court. The SRBA was completed on August 25, 2014.

NOTICE IS HEREBY GIVEN, pursuant to Idaho Code § 42-604, that the Department will conduct a public hearing regarding the changes described below as follows:

PUBLIC HEARING FOR THE PROPOSED EXPANSION OF WATER DISTRICT 170, THE PROPOSED MODIFICATION OF ALL WATER DISTRICTS WITHIN BASIN 74 TO INCLUDE GROUND WATER DIVERSIONS, AND THE PROPOSED COMBINATION OF WATER DISTRICTS 74, 74K, 74U AND 74Y.

Date: Thursday February 1, 2018
Time: 1:00 pm
Location: Room 103, Lemhi County Annex
200 Fulton St
Salmon ID

Proposed Changes

The Director proposes to expand Water District No. 170 (WD170), Upper Salmon River Area, to include all water rights in Administrative Basin 74 (Lemhi River drainage) as shown on the attached map. The proposed expansion will include all surface and ground water rights except for domestic and stock water rights as defined under Sections 42-111 and 42-1401A (11), Idaho Code, and rights used for in-stream watering of livestock as defined by Section 42-113, Idaho Code.

The Director further proposes to designate existing water districts in the Lemhi River Basin as sub-districts of WD170, and to modify each sub-district in Basin 74 to include all surface and ground water rights within their respective boundaries, except for domestic and stock water rights as defined under Sections 42-111 and 42-1401A (11), Idaho Code, and rights used for in-stream watering of livestock as defined by Section 42-113, Idaho Code. The Water Districts affected by this change are 74 (Lemhi)

SCANNED

JAN 19 2018

River), 74A (Geertson Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks), and 74Z (Big Eight Mile and Lee Creeks).

Finally, the Director proposes to combine Water Districts 74 (Lemhi River), 74U (Andrews and Slough Ditch), 74K (Pattee Creek) and 74Y (Yearian Creek) into Water District 74 (Lemhi River). These changes are necessary for active administration of the water rights in these areas.

The proposed modifications are required to properly and efficiently administer water rights within the Upper Salmon River area and to satisfy mandates of the Wild and Scenic Agreement signed by the State of Idaho and the United States government in 2004. Terms of the Wild and Scenic Agreement include formation of water districts in the Upper Salmon River, and administration, measurement and reporting of surface and ground water diversions. No water district in the Lemhi River Basin presently administers ground water rights.

Information and testimony presented at the hearing on February 1, 2018, will create a record that the Director will rely on to determine whether the proposed changes are appropriate. It is important that holders of water rights understand the proposed action and participate in the hearing process. James Cefalo of the Department will serve as the hearing officer. Persons attending the hearing will have an opportunity to make an oral presentation regarding the proposed action. Written comments may be submitted to the hearing officer at the hearing or at any time prior to the close of the written comment period on February 12, 2018. Written comments not presented at the hearing should be sent to the Director, Department of Water Resources, PO Box 83720, Boise, Idaho, 83720-0098.

The Department will present information at the hearing about the basis for the proposed changes and the time frame for implementation if the changes are adopted. The hearing will be held in accordance with the Department's Rules of Procedures (IDAPA 37.01.01). These rules may be viewed at the Idaho Department of Administration's website: <http://adminrules.idaho.gov/rules/current/37/0101.pdf>

The hearing will be conducted in a facility that meets the accessibility requirements of the Americans with Disabilities Act. Should you require special accommodations in order to attend, participate in or understand the hearing, please contact the Department at least five (5) days prior to the hearing.

This notice of hearing has been sent to all holders of water rights currently administered by Water District 170 and to all holders of water rights in Administrative Basin 74, except domestic and stockwater uses as defined under Sections 42-111 and 42-1401(11), Idaho Code, and rights used for in-stream watering of livestock as defined by Section 42-113, Idaho Code.

If you have questions concerning this notice, please call the Department's State Office at (208) 287-4800, the Salmon Field Office at 208-742-0655, or the regional office in Idaho Falls at (208) 525-7161.

Hahn, Carrie

From: Yenter, Cindy
Sent: Thursday, February 01, 2018 8:32 AM
To: Erickson, Nathan; Hahn, Carrie
Subject: meeting docs
Attachments: 2018 Watermaster Report.pdf; WD170 2018 ADOPTED Budget.pdf; WD170 2018 ADOPTED Resolutions.pdf; WD170 2018 Agenda-Roster.pdf; WD170 2018 ANNUAL MEETING MINUTES.pdf

Nathan and Carrie, attached are the meeting documents from the 170 meeting on Jan 23. I am still working on a partial diversion data report but waiting for some folk to send me data. The minutes and adopted resolutions contain enough evidence to issue my appointment.

Have you received anything from 72A? David Philps was elected watermaster this year and plans on naming 2 assistants, Merritt Philps and Roger Braun. David and Merritt (yes, son and grandson of Rick) will both need oaths; I think Roger was appointed last year and already has an oath on file. I told Cindy Philps at the meeting to get her minutes and those oaths in right away but I'll probably have to remind her.

Re: Annual Water District Meeting Information Form

Please complete this annual water district meeting information form and return it to IDWR (contact information below). Upon receipt of the completed form, IDWR sends meeting notice to each water user and interested party in the district. The meeting notice must be mailed no later than three weeks prior to the meeting. Therefore, to provide IDWR adequate time to create and mail the notice, please return the completed form to IDWR as soon as possible or no later than four weeks before the meeting.
