Watermaster's Report

From 01 November, 2014 to 31 October, 2015

Water District No. 120

Name of Watermaster: James Cefalo

900 N. Skyline Dr. Ste. A, Idaho Falls, ID 83402

Affidavit of Watermaster

STATE OF IDAHO, COUNTY OF BONNEVILLE } ss.

James Cefalo, being first duly sworn, deposes and says that he is Watermaster of Water District 120, having been lawfully appointed by the Director, Department of Water Resources Gary Spackman and that the volumes of water, stated in this report, prorated by him to the several users, are correct.

(Deputy) Watermaster District No. 120

Subscribed and sworn before me, this 29th day of September, 2016.

Jonie M Rara
My Commission expires July 24, 2019
Idaho Falls, Idaho, _____, 2016

I HEREBY CERTIFY, That _____ was lawfully appointed by me Watermaster of District No. _____, and that his bill for services rendered prorated to the several users, as herein sworn to, is to the best of my knowledge and belief, correct.

Director, Department of Water Resources

SUMMARY

WATER DISTRICT 120

2015 WATERMASTER REPORT

Measurements were conducted by Water District 120 staff in accordance with the Water District 120 Resolutions and IDWR guidelines. Specific measurement information for the diversions within the district can be found in IDWR's WMIS database. Water district staff also took periodic ground water level measurements at wells scattered throughout the district. This data is stored in IDWR's file and is available to the public. In addition to measurement activities, water district staff reviewed aerial photos and diversion records to identify and any enforcement issues within the district and contacted water users as necessary to address the apparent violations. Financial reports, minutes, resolutions, and assessment records are summarized and attaché in separate documents. – James Cefalo

MINUTES OF ANNUAL MEETING

Meeting Minutes Water District 120
Annual Meeting
February 9, 2015

Meeting called to order at 1:15pm by Tim Deeg.

An inclusive motion was made by LaVerelle Stecklein, seconded by Gaylen Van Orden, and so moved nominating Tim Deeg Meeting Chair and Mandy Gunderson Secretary.

Steve Howser moved to approve the 2014 Annual Meeting Minutes as written, the motion was seconded, and the motion carried unanimously.

Wendy Murphy presented the financial report as of October 31, 2014. The Balance Sheet reflected \$185,512 in checking and savings and \$59 balance in accounts receivables. There was a liability to IDWR at the end of the year for \$10,915. Total Liabilities and Equity were \$185,571. The income for 2014 was \$51,749; expenses totaled \$87, 532. The Board had planned to operate at a net loss of \$33,000, and the loss was actually \$35,783. Gaylen Van Orden moved to approve the financial report as presented. LaVerelle Stecklein seconded the motion and the motion carried unanimously.

James Cefalo reported briefly regarding the staffing of the eastern region. Heather Bohac and Allison Torres were introduced, handling the measurements for the district in 2014, and anticipated that they would do so again in 2015. Heather presented a summary of 2014 field work. There were 138 site visits that were performed and 128 wells were measured. Ten of the wells were either not running or not accessible. While those ten wells were not accessible, they are top priority for measurements for the 2015 visit list. After review of the water rights, fifty-six diversions were eliminated from the water district due to their status as surface water points of diversion or sloughs. Goals for 2105 were presented: the 10 missed wells should be measured, along with an additional 153 wells; repairs/upgrades to flow meters need to be reviewed, and continue the depth to water table measurements twice a year (Spring and Fall). The locations of the wells were examined and all data is up-to-date for the year on Hydro online. Concerns were raised about whether the well measurements were adequate for creating trend information, or if it is a duplication of work that IDWR is doing. The water users generally agreed that wells that were extremely close to those that either IDWR or USGS was already measuring do not have to be measured going forward. Snow water equivalent trends were examined. Motion to accept WM report was made by Steve Howser, Terrell Sorensen seconded, and unanimously carried.

Resolutions were presented by James Cefalo. The Resolutions are basically the same as last year with a slight change in the rates to be assessed. The Advisory Board recommended a change in the rates as originally proposed in Resolution #7: increasing the rates from a minimum assessment of \$25 to \$30; an increase in the diversion administrative fee from \$0.02 to \$0.03 per acre-foot for measured wells by either ground water districts monitored by other districts and by Water District 120; and an increase in the diversion fee from \$0.30 to \$0.35 per acre-foot diverted for ground water districts monitored by Water District 120. Those rates are reflected

accurately in the proposed budget for 2015. The proposal therefore generates \$36,000 from measurement work and \$28,000 from Watermaster work, for a total of \$64,000 in total assessment income. The Water District is proposing to run on a net loss again this year, and spend some additional money from the bank account. The Motion to accept the Resolutions was made by Terrell Sorenson, seconded by Steve Howser, and passed unanimously.

Additional special resolutions were also discussed. James Cefalo explained that the first resolution proposes an incentive for water users to install a department-approved flow meter, by not assessing a measurement of that diversion as long as the flow meter is properly functioning. James pointed out that there are already customers who would already qualify for this exception based on their own necessity for water use. James confirmed that these usages would already qualify, but that this is an easy way to get the meters installed since they will assist with measurements by the Watermaster's staff. James stated that the types of meters that are acceptable are listed on the website and that the companies that produce the flow meters have the information about how to properly install meters. Additionally, James related that several of the other water districts that are considering this resolution have decided to discuss it as a change for the 2016 fiscal year.

The second resolution concerns the problem with the wrong power data being associated with the wrong wells and therefore, data errors were being recorded so that an audit was required. The resolution suggests that if there are a large number of errors in a particular district's reports, that district would be required to pay for the costs of that reanalysis. Tim Shurtz had concerns that the district wants to remain in control of its costs and wants to know how the district would be able to correct these problems if they were occurring. A water user wanted to know whether this assessment information would be public, and whether that information would be available online. Wendy responded that all local entities have to put the data online with legislative services started in 2015. Tim Deeg stated that there are requirements for advertising meetings, and that as such, there should be a way to publicize this information as well. Tim Deeg and James discussed the idea that a formal report regarding errors might be a necessity to show that a Board is performing up to standard, especially since it gives the users more information before elections. James clarified that these errors would have to be documented and listed specifically so that any billing would be clear resulting from errors, and one of the additional proposals from the other districts was to drop the "a significant number of" language, so that the Watermaster would simply bill for the costs incurred to correct any errors.

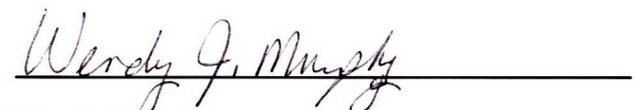

James then turned to the third resolution and discussed the fact that some diversions have not been measured by the district for a period of time. The third resolution is a proposal to deal with diversions that have not been measured in five years, allowing the Watermaster and his staff to step in and do so in year six, then charging the district for those costs. Heather pointed out that diversions that aren't properly measured and are therefore listed as a zero are not paying their fair share of assessments to the district. Steve Howser moved to adopted all three resolutions, indicating that the first resolution would be for the 2016 cycle, and the words "significant number of" would be removed from the second resolution. The motion was seconded, and without further discussion, motion carried unanimously.

A discussion occurred regarding the potential issue of rationing and shortages for the future. Overall, the water table has maintained its stability in the last 10 years, and this district does not seem to be in danger of needing to ration in the near future. Tim Deeg indicated WD120 does monitor the water use of every irrigator. An analysis James did for Tim Deeg this last year indicates we are using about 1.9 acre-feet per acre or about ½ of the water right allowance. Additionally, there was a brief discussion of cease and desist orders by James. Violations usually occur on less than 200 acres per year.

There was a brief discussion of the membership of the Advisory Committee. Steve Howser made the motion to accept the Committee as listed in the resolutions, Terrell Sorensen seconded and the motion carried unanimously.

Tim Deeg presented the Chairman's report, discussing the Rangen Fish Hatchery Pump Project and the Magic Springs Project with a slide presentation. IGWA has been engaged in trying to complete the Rangen Pump Project. The Rangen Fish Hatchery made a delivery call a number of years ago. The director ordered that SWID, Magic Valley GWD, and NS GWD needed to supply mitigation water to Rangen in a phased in process over the course of 5 years, starting at 3.4 cfs ramping up to a total of almost 10 cfs. IGWA was able to complete the first process by using mitigation water through conversions that had been done, leakage through the sand pond, and a pipeline project. IGWA then choose a mitigation project that allowed pumping out of magic springs, up and over the rim and send it two miles to Rangen, up river. Pumping out of magic springs wouldn't injure other users. The director's order required the project to be completed by January 19th. Some pipe issues caused a delay in meeting the director's date. A stay was provided by the courts for completion after January 19th.

No other business was presented and meeting was adjourned at 2:46pm.

2014 Goals

- Measure 138 Wells
- Water Master Services
 - Over Diversions, NOV's, etc.
- Report Yearly Water Use

2014 Accomplishments

- Site Visits 2014 Wells (138)
 - 128 Measured
 - Not Running/No Access (10)
- Reviewed WD 120 Members
 - Waived From Measurement \approx 20 PODs (<0.24 cfs)
 - Eliminated Surface Water PODs (56)
 - Added Min Water Users (<0.24 cfs) In Districts

Record Keeping

How do we use measurement data we collect?

- Transfers/ WSB Leases
- Over Diversion Checks

Available online
<https://www.idwr.idaho.gov/apps/wm/WMIS/>

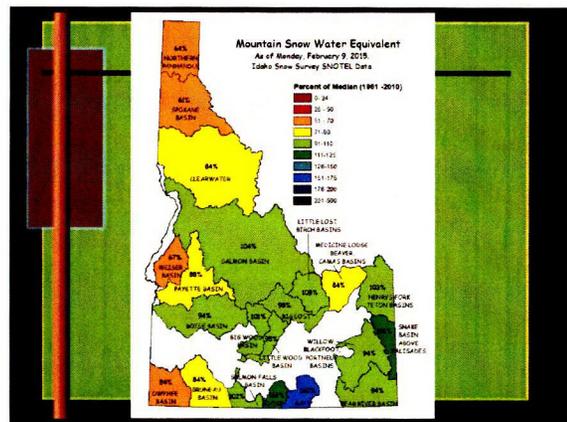

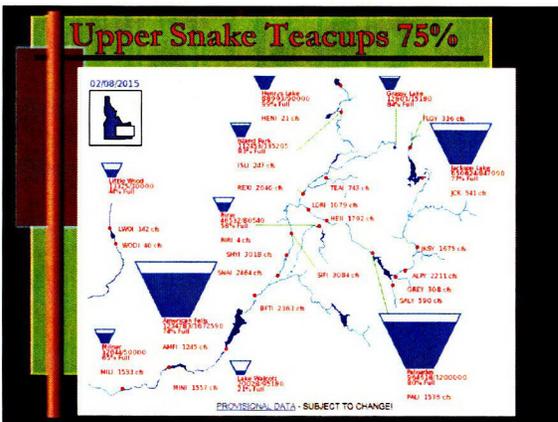

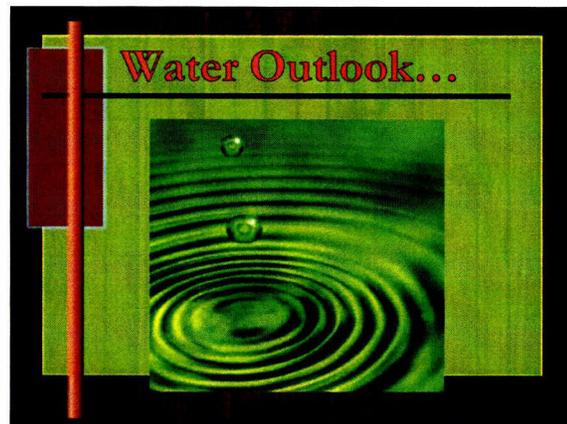

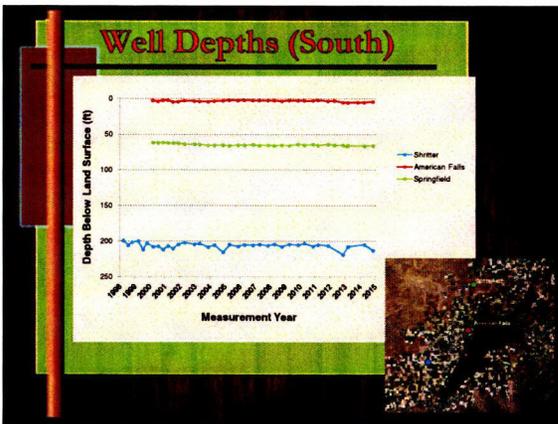

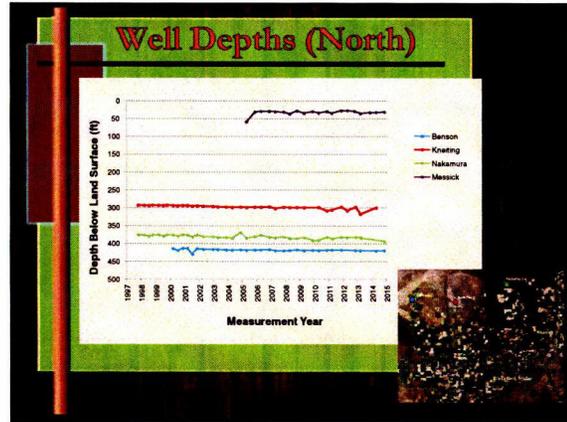

2015 Objectives

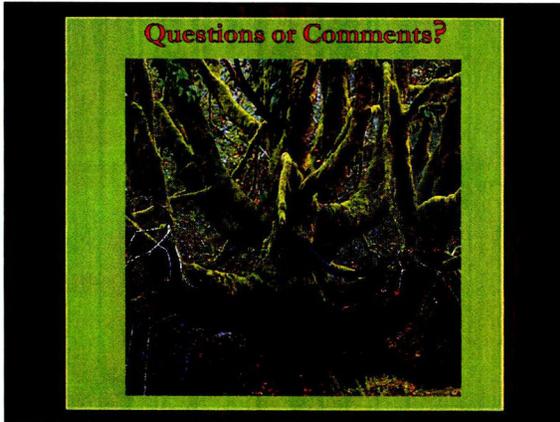

- Revisit 2014 Diversions (10)
- Measure 2015 wells (153)
- Work with GWDs on database cleanup & measurements
- Notify water users about systems requiring flow meters

"Complex" Systems

- 3+ Operating Conditions
- VFD

State Measurement Guidelines Require a Flow Meter

APPROVED RESOLUTIONS

Water District 120 2015 Resolutions

1. The annual Water District 120 meeting shall hereafter be held on the second Monday of February, of each year unless the Director of IDWR or the Water District 120 advisory committee should find it necessary to change the meeting date or unless changed by resolution of the district at any annual meeting.
2. The watermaster shall perform the duties as required by Chapter 6, Title 42, Idaho Code and in accordance with:
 - 1) The duties described in the Final Order Creating Water District 120, signed by the Director of the IDWR, February 19, 2002, including:
 - a) Curtail illegal diversions;
 - b) Measure and report the diversions under water rights;
 - c) Enforce the provisions of the stipulated agreements approved by the Director, and;
 - d) Curtail out-of-priority diversions determined by the director to be causing injury to senior priority water rights if not covered by a stipulated agreement or a mitigation plan approved by the Director.
 - 2) Direction and guidance provided by the Director of IDWR pursuant to Idaho Water Law.
 - 3) The annual water district resolutions as adopted herein.
3. James Cefalo be elected the watermaster for Water District 120. The Director of IDWR shall appoint James Cefalo, an employee of IDWR, to provide watermaster services for the ensuing year.
4. As provided in Idaho Code § 42-608(4), the watermaster shall serve throughout the entire year after election at this meeting and upon appointment by the Director.
5. The attached budget represents the expenses to be incurred by Water District 120 in the current year (November 1 – October 31). The attached budget is hereby adopted as a component of these resolutions.
6. Water District 120 includes one or more ground water districts, irrigation districts or other geographical areas where the source of water or nature of water use is common among water right owners and users. The following ground water districts and irrigation districts may already be measuring and reporting diversions on their own to promote efficiency in the administration of water rights and water management.
 - 1) Aberdeen-American Falls Ground Water District
 - 2) Bingham Ground Water District
 - 3) Bonneville-Jefferson Ground Water District
 - 4) Falls Irrigation

7. Water Users within Water District 120 shall be assessed as follows. For purposes of these resolutions, the diversion rate for a point of diversion shall be calculated based on the cumulative diversion rate authorized under all water rights pertaining to the point of diversion.
 - a) Diversions meeting the definition of “domestic purposes” as set forth in Idaho Code §42-111 will not be assessed.
 - b) Diversions, with water rights authorizing equal to or less than 0.24 cfs or 5.0 acres of irrigation shall receive a minimum assessment of \$25. These minimum assessment diversions will not be measured by Water District 120 or the ground water districts or irrigation districts described above.
 - c) Diversions, with water rights exceeding 0.24 or 5.0 acres of irrigation, that are measured by one of the ground water districts or irrigation districts described above, will be assessed an administrative fee of \$0.02 per acre-foot diverted based on a 5-year rolling average.
 - d) Diversions, with water rights exceeding 0.24 cfs or 5.0 acres of irrigation, that are not measured by one of the ground water districts or irrigation districts described above, will be regularly measured and monitored by Water District 120 staff. The assessment for such diversions will include:
 - 1) \$60.00 per diversion;
 - 2) \$0.30 per acre-foot diverted based on a 5-year rolling average; and
 - 3) An administrative fee of \$0.02 per acre-foot diverted, based on a 5-year rolling average.
8. BE IT RESOLVED that the Water District 120 budget will be approved for a fiscal year that begins November 1 and ends October 31.

BE IT FURTHER RESOLVED that the Water District 120 advisory committee shall hereby be authorized to adopt an interim water district budget for the period between November 1 and the next annual meeting.

9. Be it also resolved, that the Watermaster is authorized pursuant to Idaho Code § 42-618, to withhold or suspend deliveries of water to any water user who has not paid their assessment charge by January 1 of the year following the billing date.
10. The water users of Water District 120 hereby empower the elected advisory committee to enter into a Memorandum of Understanding between the Water District and the Director of IDWR that will provide for the following:
 - a) Compensation of the watermaster and all related water district expenses for the 2015 fiscal year shall be provided by the water district.
 - b) The budget for Water District 120 for the ensuing year will be set at this annual meeting in resolution 10. Appointment of a district treasurer for fiscal year 2015 will occur during a regular or special meeting of the advisory

committee of Water District 120 before assessments from the water district are sent.

- c) The watermaster shall maintain an office for the ensuing year within the IDWR Eastern Regional Office, located in Idaho Falls, Idaho.
 - d) IDWR will provide office space, vehicles and the use of all necessary office and field equipment in exchange for compensation as set in the 201~~5~~⁴ budget. This arrangement shall not give Water District 120 any ownership interest in any IDWR office space and equipment. However, equipment purchased by Water District 120 will remain owned by Water District 120
 - e) Districts identified in item 6 are expected to fund, at their own expense during the 2015 fiscal year, personnel and equipment necessary for measurement and reporting of diversions within these districts.
11. These districts designated above may have employees who measure and report diversions to the water master of Water District 120 and IDWR. The water master of Water District 120 may therefore appoint employees or agents of these districts as assistant watermasters for purposes of measuring and reporting water use to the watermaster of Water District 120. The water district watermaster and the Director of IDWR will provide direction and guidance to assistant watermasters for measuring and reporting of diversions in these districts, including but not limited to the following:
- a) Each district responsible for data collection shall provide an annual report of diversion data to the water district watermaster in accordance with Idaho Code § 42-606, § 42-708, § 42-709, and the direction provided by the Director of IDWR.
 - b) Assistant watermasters shall cooperate and coordinate with the water district watermaster and IDWR in sharing water use information.
 - c) The regulation of diversions, including curtailment of diversions and other water right enforcement actions, shall be the primary responsibility of the water district watermaster and IDWR.
 - d) The designated districts will first be given the opportunity to resolve unauthorized diversions, or other enforcement matters before action is taken by the watermaster or IDWR.
 - e) To the extent that assistant watermasters may otherwise be involved in the regulation or enforcement of diversions, such involvement will be under the instruction of the watermaster and the Director of IDWR.

12. WHEREAS, the water district meets in regular annual session, as provided by state law, and;

WHEREAS, an advisory committee shall be elected at each regular annual session to represent the interests of the water users and to provide input to the watermaster and the Director of IDWR, and;

WHEREAS Idaho Code 42-605 provides for voting by water users and election of an advisory committee,

BE IT RESOLVED that the credentials for voting in any district meeting and for serving on the district advisory committee will be as follows:

- a) The advisory committee shall consist of 11 members, of which no more than 3 of these shall represent non-irrigation water users. And be it further resolved that when available there shall be at least three committee members from both the Aberdeen-American Falls Ground Water District and the Bingham Ground Water District and at least two committee members from the Bonneville-Jefferson Ground Water District.
 - b) Must be a water user of the district as evidenced by a valid water right or an assessment for water delivery the previous year.
 - c) Must have paid all assessments owed to the water district.
13. Copies of the minutes of the annual meeting, the budget as approved, all resolutions approved, and the report prepared in accordance with Idaho Code § 42-615, shall be filed with the director of the Department of Water Resources in accordance with Idaho Code § 42-617.
14. The watermaster of Water District 120 shall be responsible for submitting to IDWR annual reports showing water use and such other information that may be deemed necessary by the Director of IDWR in accordance with Idaho Code § 42-606, § 42-708, and § 42-709.
15. The watermaster and assistant watermasters are authorized under Idaho Code § 42-1701(5) to make reasonable entry on lands within the district to carry out the duties of the watermaster as instructed by IDWR. These duties include but are not limited to:
- a) Monitoring diversion and measuring rate and volume of water diverted from ground water and other public water sources.
 - b) Measuring the depth to water in wells.
 - c) Monitoring the place, period, and nature of use of water to identify unauthorized diversion and use and to determine compliance with mitigation provisions required by agreement or order of IDWR.
16. Audit of Records
- Every year, the watermaster shall review a portion of the measurement data provided by each of the ground water districts to ensure that the data provided is accurate and that measurements are being conducted properly. If the watermaster

finds errors, the ground water district responsible for the errors will be assessed directly for the cost incurred by the watermaster to correct the data.

17. Past Due Measurements

For those diversion that are measured and reported by the ground water districts, if there is a diversion that has not been measured for more than five years, the watermaster has the authority to measure that diversion and charge the appropriate ground water district for the cost of measurement, using the assessment rates listed in Resolution #7.

The following list represents the current WD 120 advisory committee and alternates. Please note that not all of the advisors are members of the ground water districts. They are listed according to geographic area.

OTHER MINUTES

Meeting Minutes Water District 120
Advisory Committee Meeting
February 4, 2015

Meeting called to order at 1:40 pm by Tim Deeg. Those in attendance were: Tim Deeg, James Cefalo, LaVerelle Stecklein, Gaylen Van Orden, Allison Torres, Marshall Jensen, Terrell Sorenson, Heather Bohac, Wendy Murphy, Mandy Gunderson, and Craig Evans.

The Board reviewed the minutes of the previous meeting. Terrell Sorenson moved to accept the minutes, Gaylen Van Orden seconded, the motion passed unanimously.

James Cefalo gave the Watermaster's report. Heather Bohac reported briefly regarding the diversions measured. There was discussion regarding the issue of small water users and whether they should be accessed by a ground water district (GWD) or the water district (WD). James recommended that these users should be part of the GWD, rather than the WD, since the GWD is more able to enforce for non-payment of assessments. There are approximately 113 minimum water users that should be billed by the GWD rather than the WD. There are 79 additional water users that may/may not fall into that category.

Heather and Allison did an in depth review of the water rights in Water District 120 and removed some surface water rights from the district's assessment roles. Additionally, there are 291 water rights that are not receiving billing from the WD that fall under the WD's authority, including approximately 130 commercial, 27 industrial, 2 municipal, 93 stock water, and 39 domestic rights. Most of these qualify as minimum charges. James explained that he will bring these rights into the WD to begin billing them and provide a list to the GWDs of the users that should be excluded from the WD and therefore included in their billing.

There is an issue with Bingham GWD that data is not being entered correctly, and still had problems after a second review. Data was being entered under the wrong numbers; it took two to three weeks for Heather and Allison to make site visits in order to correct the data and eliminate any duplicates. James expressed concern that the time utilized in this process is being assessed all of the WD users, rather than the GWD that has caused the problem. Terrell Sorenson and Tim Deeg stated that a certain amount of data review should be a regular function of the Watermaster, but should the Watermaster need to do further audits because the data is faulty, then the GWD should be billed for the work. James also noted that some wells have not been measured in 10 years, which can cause problems when a user wants to transfer those rights. Tim Deeg requested a draft resolution that would encompass the review issue so that this problem can be addressed by the Watermaster, if necessary. James agreed to draft a resolution and present it at the Annual Meeting.

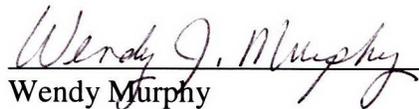

James then discussed the resolution regarding an incentive to users who properly install flow meters, since they save time and effort for the Watermaster and his staff. Meters are expensive to purchase and properly install, but are worthwhile for the Watermaster. WD 110 has looked at a similar proposal, and has opted to wait on this for one year. Heather estimated that approximately ten users would probably qualify right away for this benefit. It was recommended to present the resolution at the annual meeting.

The 2015 Draft Resolutions were reviewed. The special resolution for 2014 will be removed, and the dates will be updated. Wendy Murphy then reviewed the proposed budget with the Board. The checking account at the end of the fiscal year reflected a total of \$185,512. Accounts receivable for the year is an outstanding \$59 total. Accounts Payable was \$10,915 all of which is due to IDWR. The total net loss was \$35,783, with total equity standing at \$174,656. The income and expenses were also presented. The total income stood at \$51,749 when it was projected to be \$57,853. Expenses were projected to be \$91,190, but were actually \$87,532. The budget for 2015 expenses is \$99,330 to reflect the governor's proposal of 3% salary increase. The Board discussed whether to raise the basic assessment fee and the rates for assessment, and determined that they would propose an increase to \$30 for the minimum assessment fee, an increase to \$0.03 for the AF Watermaster assessment rates, and an increase to \$0.35 for the measurement AF rate. The motion was made by Terrell, seconded by Gaylen Van Orden, and passed unanimously.

Wendy advised that a House Bill 560 in from last year requires that the GWDs and WDs must report their financials (budgets) to the State, uploaded to the Legislative Services website. This requires all government entities to report whether or not there has been an audit.

Tim Deeg briefed the board on the pipeline for the Rangen call. He will give a presentation at the annual meeting. The trim line has been removed from the court rulings.

Meeting was adjourned at 2:50pm.

Wendy Murphy

Meeting Minutes Water District 120
Advisory Committee Meeting
February 4, 2015

Meeting called to order at 1:40 pm by Tim Deeg. Those in attendance were: Tim Deeg, James Cefalo, LaVerelle Stecklein, Gaylen Van Orden, Allison Torres, Marshall Jensen, Terrell Sorenson, Heather Bohac, Wendy Murphy, Mandy Gunderson, and Craig Evans.

Other Business	Tim Deeg

Additional Information

Meeting Minutes Water District 120
Annual Meeting
February 9, 2015

Meeting called to order at 1:15pm by Tim Deeg.

An inclusive motion was made by LaVerelle Stecklein, seconded by Gaylen Van Orden, and so moved nominating Tim Deeg Meeting Chair and Mandy Gunderson Secretary.

Steve Howser moved to approve the 2014 Annual Meeting Minutes as written, the motion was seconded, and the motion carried unanimously.

Wendy Murphy presented the financial report as of October 31, 2014. The Balance Sheet reflected \$185,512 in checking and savings and \$59 balance in accounts receivables. There was a liability to IDWR at the end of the year for \$10,915. Total Liabilities and Equity were \$185,571. The income for 2014 was \$51,749; expenses totaled \$87, 532. The Board had planned to operate at a net loss of \$33,000, and the loss was actually \$35,783. Gaylen Van Orden moved to approve the financial report as presented. LaVerelle Stecklein seconded the motion and the motion carried unanimously.

James Cefalo reported briefly regarding the staffing of the eastern region. Heather Bohac and Allison Torres were introduced, handling the measurements for the district in 2014, and anticipated that they would do so again in 2015. Heather presented a summary of 2014 field work. There were 138 site visits that were performed and 128 wells were measured. Ten of the wells were either not running or not accessible. While those ten wells were not accessible, they are top priority for measurements for the 2015 visit list. After review of the water rights, fifty-six diversions were eliminated from the water district due to their status as surface water points of diversion or sloughs. Goals for 2105 were presented: the 10 missed wells should be measured, along with an additional 153 wells; repairs/upgrades to flow meters need to be reviewed, and continue the depth to water table measurements twice a year (Spring and Fall). The locations of the wells were examined and all data is up-to-date for the year on Hydro online. Concerns were raised about whether the well measurements were adequate for creating trend information, or if it is a duplication of work that IDWR is doing. The water users generally agreed that wells that were extremely close to those that either IDWR or USGS was already measuring do not have to be measured going forward. Snow water equivalent trends were examined. Motion to accept WM report was made by Steve Howser, Terrell Sorensen seconded, and unanimously carried.

Resolutions were presented by James Cefalo. The Resolutions are basically the same as last year with a slight change in the rates to be assessed. The Advisory Board recommended a change in the rates as originally proposed in Resolution #7: increasing the rates from a minimum assessment of \$25 to \$30; an increase in the diversion administrative fee from \$0.02 to \$0.03 per acre-foot for measured wells by either ground water districts monitored by other districts and by Water District 120; and an increase in the diversion fee from \$0.30 to \$0.35 per acre-foot diverted for ground water districts monitored by Water District 120. Those rates are reflected

accurately in the proposed budget for 2015. The proposal therefore generates \$36,000 from measurement work and \$28,000 from Watermaster work, for a total of \$64,000 in total assessment income. The Water District is proposing to run on a net loss again this year, and spend some additional money from the bank account. The Motion to accept the Resolutions was made by Terrell Sorenson, seconded by Steve Howser, and passed unanimously.

Additional special resolutions were also discussed. James Cefalo explained that the first resolution proposes an incentive for water users to install a department-approved flow meter, by not assessing a measurement of that diversion as long as the flow meter is properly functioning. James pointed out that there are already customers who would already qualify for this exception based on their own necessity for water use. James confirmed that these usages would already qualify, but that this is an easy way to get the meters installed since they will assist with measurements by the Watermaster's staff. James stated that the types of meters that are acceptable are listed on the website and that the companies that produce the flow meters have the information about how to properly install meters. Additionally, James related that several of the other water districts that are considering this resolution have decided to discuss it as a change for the 2016 fiscal year.

The second resolution concerns the problem with the wrong power data being associated with the wrong wells and therefore, data errors were being recorded so that an audit was required. The resolution suggests that if there are a large number of errors in a particular district's reports, that district would be required to pay for the costs of that reanalysis. Tim Shurtz had concerns that the district wants to remain in control of its costs and wants to know how the district would be able to correct these problems if they were occurring. A water user wanted to know whether this assessment information would be public, and whether that information would be available online. Wendy responded that all local entities have to put the data online with legislative services started in 2015. Tim Deeg stated that there are requirements for advertising meetings, and that as such, there should be a way to publicize this information as well. Tim Deeg and James discussed the idea that a formal report regarding errors might be a necessity to show that a Board is performing up to standard, especially since it gives the users more information before elections. James clarified that these errors would have to be documented and listed specifically so that any billing would be clear resulting from errors, and one of the additional proposals from the other districts was to drop the "a significant number of" language, so that the Watermaster would simply bill for the costs incurred to correct any errors.

James then turned to the third resolution and discussed the fact that some diversions have not been measured by the district for a period of time. The third resolution is a proposal to deal with diversions that have not been measured in five years, allowing the Watermaster and his staff to step in and do so in year six, then charging the district for those costs. Heather pointed out that diversions that aren't properly measured and are therefore listed as a zero are not paying their fair share of assessments to the district. Steve Howser moved to adopted all three resolutions, indicating that the first resolution would be for the 2016 cycle, and the words "significant number of" would be removed from the second resolution. The motion was seconded, and without further discussion, motion carried unanimously.

A discussion occurred regarding the potential issue of rationing and shortages for the future. Overall, the water table has maintained its stability in the last 10 years, and this district does not seem to be in danger of needing to ration in the near future. Tim Deeg indicated WD120 does monitor the water use of every irrigator. An analysis James did for Tim Deeg this last year indicates we are using about 1.9 acre-feet per acre or about ½ of the water right allowance. Additionally, there was a brief discussion of cease and desist orders by James. Violations usually occur on less than 200 acres per year.

There was a brief discussion of the membership of the Advisory Committee. Steve Howser made the motion to accept the Committee as listed in the resolutions, Terrell Sorensen seconded and the motion carried unanimously.

Tim Deeg presented the Chairman's report, discussing the Rangen Fish Hatchery Pump Project and the Magic Springs Project with a slide presentation. IGWA has been engaged in trying to complete the Rangen Pump Project. The Rangen Fish Hatchery made a delivery call a number of years ago. The director ordered that SWID, Magic Valley GWD, and NS GWD needed to supply mitigation water to Rangen in a phased in process over the course of 5 years, starting at 3.4 cfs ramping up to a total of almost 10 cfs. IGWA was able to complete the first process by using mitigation water through conversions that had been done, leakage through the sand pond, and a pipeline project. IGWA then choose a mitigation project that allowed pumping out of magic springs, up and over the rim and send it two miles to Rangen, up river. Pumping out of magic springs wouldn't injure other users. The director's order required the project to be completed by January 19th. Some pipe issues caused a delay in meeting the director's date. A stay was provided by the courts for completion after January 19th.

No other business was presented and meeting was adjourned at 2:46pm.

Water District 120
20152016 Resolutions

1. The annual Water District 120 meeting shall hereafter be held on the second Monday of February, of each year unless the Director of IDWR or the Water District 120 advisory committee should find it necessary to change the meeting date or unless changed by resolution of the district at any annual meeting.
2. The watermaster shall perform the duties as required by Chapter 6, Title 42, Idaho Code and in accordance with:
 - 1) The duties described in the Final Order Creating Water District 120, signed by the Director of the IDWR, February 19, 2002, including:
 - a) Curtail illegal diversions;
 - b) Measure and report the diversions under water rights;
 - c) Enforce the provisions of the stipulated agreements approved by the Director, and;
 - d) Curtail out-of-priority diversions determined by the director to be causing injury to senior priority water rights if not covered by a stipulated agreement or a mitigation plan approved by the Director.
 - 2) Direction and guidance provided by the Director of IDWR pursuant to Idaho Water Law.
 - 3) The annual water district resolutions as adopted herein.
3. James Cefalo be elected the watermaster for Water District 120. The Director of IDWR shall appoint James Cefalo, an employee of IDWR, to provide watermaster services for the ensuing year.
4. As provided in Idaho Code § 42-608(4), the watermaster shall serve throughout the entire year after election at this meeting and upon appointment by the Director.
5. The attached budget represents the expenses to be incurred by Water District 120 in the current year (November 1 – October 31). The attached budget is hereby adopted as a component of these resolutions.
6. Water District 120 includes one or more ground water districts, irrigation districts or other geographical areas where the source of water or nature of water use is common among water right owners and users. The following ground water districts and irrigation districts may already be measuring and reporting diversions on their own to promote efficiency in the administration of water rights and water management.
 - 1) Aberdeen-American Falls Ground Water District
 - 2) Bingham Ground Water District
 - 3) Bonneville-Jefferson Ground Water District
 - 4) Falls Irrigation

7. Water Users within Water District 120 shall be assessed as follows. For purposes of these resolutions, the diversion rate for a point of diversion shall be calculated based on the cumulative diversion rate authorized under all water rights pertaining to the point of diversion.

- a) Diversions meeting the definition of “domestic purposes” as set forth in Idaho Code §42-111 will not be assessed.
- b) Diversions, with water rights authorizing equal to or less than 0.24 cfs or 5.0 acres of irrigation shall receive a minimum assessment of \$25. These minimum assessment diversions will not be measured by Water District 120 or the ground water districts or irrigation districts described above.
- c) Diversions, with water rights exceeding 0.24 or 5.0 acres of irrigation, that are easured by one of the ground water districts or irrigation districts described above, will be assessed an administrative fee of \$0.02 per acre-foot diverted based on a 5-year rolling average.
- d) Diversions, with water rights exceeding 0.24 cfs or 5.0 acres of irrigation, that are not measured by one of the ground water districts or irrigation districts described above, will be regularly measured and monitored by Water District 120 staff. The assessment for such diversions will include:
 - 1) \$60.00 per diversion;
 - 2) \$0.30 per acre-foot diverted based on a 5-year rolling average; and
 - 3) An administrative fee of \$0.02 per acre-foot diverted, based on a 5-year rolling average.

8. BE IT RESOLVED that the Water District 120 budget will be approved for a fiscal year that begins November 1 and ends October 31.

BE IT FURTHER RESOLVED that the Water District 120 advisory committee shall hereby be authorized to adopt an interim water district budget for the period between November 1 and the next annual meeting.

9. Be it also resolved, that the Watermaster is authorized pursuant to Idaho Code § 42-618, to withhold or suspend deliveries of water to any water user who has not paid their assessment charge by January 1 of the year following the billing date.

10. The water users of Water District 120 hereby empower the elected advisory committee to enter into a Memorandum of Understanding between the Water District and the Director of IDWR that will provide for the following:

- a) Compensation of the watermaster and all related water district expenses for the ~~2015~~2016 fiscal year shall be provided by the water district.
- b) The budget for Water District 120 for the ensuing year will be set at this annual meeting in resolution 10. Appointment of a district treasurer for fiscal year ~~2015~~2016 will occur during a regular or special meeting of the advisory

committee of Water District 120 before assessments from the water district are sent.

- c) The watermaster shall maintain an office for the ensuing year within the IDWR Eastern Regional Office, located in Idaho Falls, Idaho.
 - d) IDWR will provide office space, vehicles and the use of all necessary office and field equipment in exchange for compensation as set in the ~~2015~~2016 budget. This arrangement shall not give Water District 120 any ownership interest in any IDWR office space and equipment. However, equipment purchased by Water District 120 will remain owned by Water District 120
 - e) Districts identified in item 6 are expected to fund, at their own expense during the ~~2015~~2016 fiscal year, personnel and equipment necessary for measurement and reporting of diversions within these districts.
11. These districts designated above may have employees who measure and report diversions to the water master of Water District 120 and IDWR. The water master of Water District 120 may therefore appoint employees or agents of these districts as assistant watermasters for purposes of measuring and reporting water use to the watermaster of Water District 120. The water district watermaster and the Director of IDWR will provide direction and guidance to assistant watermasters for measuring and reporting of diversions in these districts, including but not limited to the following:
- a) Each district responsible for data collection shall provide an annual report of diversion data to the water district watermaster in accordance with Idaho Code § 42-606, § 42-708, § 42-709, and the direction provided by the Director of IDWR.
 - b) Assistant watermasters shall cooperate and coordinate with the water district watermaster and IDWR in sharing water use information.
 - c) The regulation of diversions, including curtailment of diversions and other water right enforcement actions, shall be the primary responsibility of the water district watermaster and IDWR.
 - d) The designated districts will first be given the opportunity to resolve unauthorized diversions, or other enforcement matters before action is taken by the watermaster or IDWR.
 - e) To the extent that assistant watermasters may otherwise be involved in the regulation or enforcement of diversions, such involvement will be under the instruction of the watermaster and the Director of IDWR.

12. WHEREAS, the water district meets in regular annual session, as provided by state law, and;

WHEREAS, an advisory committee shall be elected at each regular annual session to represent the interests of the water users and to provide input to the watermaster and the Director of IDWR, and;

WHEREAS Idaho Code 42-605 provides for voting by water users and election of an advisory committee,

BE IT RESOLVED that the credentials for voting in any district meeting and for serving on the district advisory committee will be as follows:

- a) The advisory committee shall consist of 11 members, of which no more than 3 of these shall represent non-irrigation water users. And be it further resolved that when available there shall be at least three committee members from both the Aberdeen-American Falls Ground Water District and the Bingham Ground Water District and at least two committee members from the Bonneville-Jefferson Ground Water District.
- b) Must be a water user of the district as evidenced by a valid water right or an assessment for water delivery the previous year.
- c) Must have paid all assessments owed to the water district.

BE IT FURTHER RESOLVED that the water users of Water District 120 waive mailed notice of the annual meeting and instead authorize direct publication of the meeting notice for two (2) consecutive weeks in at least three newspapers located throughout the water district.

James C. C. C. do agreement.

13. Copies of the minutes of the annual meeting, the budget as approved, all resolutions approved, and the report prepared in accordance with Idaho Code § 42-615, shall be filed with the director of the Department of Water Resources in accordance with Idaho Code § 42-617.
14. The watermaster of Water District 120 shall be responsible for submitting to IDWR annual reports showing water use and such other information that may be deemed necessary by the Director of IDWR in accordance with Idaho Code § 42-606, § 42-708, and § 42-709.
15. The watermaster and assistant watermasters are authorized under Idaho Code § 42-1701(5) to make reasonable entry on lands within the district to carry out the duties of the watermaster as instructed by IDWR. These duties include but are not limited to:
 - a) Monitoring diversion and measuring rate and volume of water diverted from ground water and other public water sources.
 - b) Measuring the depth to water in wells.
 - c) Monitoring the place, period, and nature of use of water to identify unauthorized diversion and use and to determine compliance with mitigation provisions required by agreement or order of IDWR.

The following list represents the current WD 120 advisory committee and alternates. Please note that not all of the advisors are members of the ground water districts. They are listed according to geographic area.
