Ronald D. Carlson
Watermaster, Water Dist. No. 1
1515 Lincoln Road
Idaho Falls, Idaho 83401

Dear Watermaster:

In accordance with Chapter 6, Section 42-614 of the Idaho Code, and department regulations, the watermaster of each district is required to submit an annual report in TRIPLICATE for each county served, to the Department of Water Resources. The department will forward one copy to the County Treasurer, another copy will be sent to the secretary of the water district, and the third copy will be retained in the files of the Department of Water Resources. Please be certain all of the report is complete.

In accordance with Chapter 6, Section 42-615 of the Idaho Code, and department regulations, the watermaster is required to submit a watermaster's Proposed Budget. The budget is to be made up from the deliveries for the past irrigation season or seasons. This budget must be made in DUPLICATE for each county served, and ALL copies forwarded to the Department of Water Resources.

We are enclosing sufficient forms for making out the Watermaster's Report and the Proposed Budget.

Do not fail to send the Watermaster's Daily Record Books along with the report and budget.

Very truly yours,

LOY H. JOHNSON
Senior Resource Agent

May 22, 1979

Mr. Carlos Randolph
Bureau of Reclamation
P.O. Box 549
Burley, Idaho 83318

Dear Carlos:

On May 2, 1979, we had the opportunity to discuss our computer allocation procedures with Leo Busch and Keith Ebersol of your office, and Dan Yribar and Alan Jensen from the Boise Office. I appreciated this opportunity and am confident that it will help in a better understanding between the Bureau of Reclamation and the State of Idaho.

In reviewing my notes of this meeting, I find several agreements that have been made between the Bureau and Water District 1 and would like to confirm these agreements to avoid any future misunderstandings which may arise.

The Burley Office of the BOR will enter data for the following stations each day for the Water District 1 accounting program:

Jackson Lake
Snake River nr Moran
Palisades
Snake nr Irwin
Snake nr Heise
Snake nr Lorenzo
Henrys Lake
Henrys Fork nr Lake
Island Park
Henrys Fork nr Island Park
Grassy Lake
Grassy Lake Outlet
Henrys Fork at St. Anthony
Teton nr St. Anthony
Henrys Fork nr Rexburg

Willow Creek blw Tex Creek
Ririe
Willow Creek nr Ririe
Snake River nr Shelley
Snake River nr Blackfoot
Falls Irrigation
American Falls
Snake at Neeley
Minidoka North
Minidoka South
Lake Walcott
Snake nr Minidoka
A & B Irrigation
PA Lateral
Milner Low Lift

P.

Mr. Carlos Randolph

N.S. X-Cut Gooding
Reservoir District #2
Twin Falls North
Twin Falls South

Milner Reservoir
Snake at Milner
Minidoka power flows
American Falls Power flows

Each time the Water District's accounting program is used the output will be available to the Burley Office of the BOR through its Data Point 1500 system.

Water District 1, through the use of its allocations program, will calculate and provide to the Bureau the fill it recognizes for each of the Bureau reservoirs. Burley will, in turn, advise us of the storage allocations for the year for each entity holding space in a federal reservoir. Water District 1 will then account for the storage used by each space holder and will, at the end of the season, advise the Bureau of the total storage used. The BOR will then advise Water District 1 of the amount of water that has been used from each of its twenty (20) water right accounts. Given this information, we will then calculate carry-over and adjust each water right account accordingly to allow water again to be credited to each water right at the end of the irrigation season.

I am confident that this agreement will go far to remove some of the uncertainties inherent in past procedures, and will help promote the cooperative effort that is so vital to an efficient distribution system on the Upper Snake.

Very truly yours,

RONALD D. CARLSON
Watermaster

ADOPTED BUDGET AND RESOLUTIONS
PERTAINING TO THE COLLECTION THEREOF

FOR 19 79

WATER DISTRICT NO. 1

STREAM Snake River and tributaries

COUNTY Bonneville, Teton, Madison, Fremont, Bingham

NAME OF SECRETARY Reed Murdock

ADDRESS OF SECRETARY Rt. #5, Box 69, Blackfoot, Idaho 83221

Sections 42-613 and 42-617, Idaho Code Annotated, provide:

"42-613. Said budget when approved shall be filed with the secretary of said meeting and thereupon he shall immediately prepare and file a certified copy thereof with the Director Department of Water Resources and a certified copy with the county auditor of such county or counties designated at said water users' meeting. If more than one county is designated then said budget shall show the amount to be collected in each county and the water users from which each county shall make collection. * * * "

"42-617. * * * All resolutions adopted under the provisions of this section shall be filed with the secretary of said meeting and thereupon he shall immediately prepare and file a certified copy thereof with the Director Department of Water Resources and a certified copy with the county auditor of such county or counties as designated at said water users' meeting. * * * "

Idaho Falls, Idaho, May 8, 19 79

I HEREBY CERTIFY That the within is a true and correct copy of the budget as adopted at the annual Water Users' Meeting of Water District No. 1, held at Idaho Falls, Idaho on the 5th day of March, 19 79, and all resolutions adopted at said meeting pertaining to the time and the manner of collecting the amounts provided for in the said budget.

Watermaster, Water District No. 1

SCANNED

JUL 25 2023

WATER DISTRICT NO. 1

March 5, 1979

Resolution No. 1. That the watermaster continue to apply the best available methods and technology to better assure; more accurate deliveries of natural flow and stored water, improved regulation procedures, to improve the availability of water supply and diversion records to the water users, and to assure that all water users are charged for water deliveries on an accurate and equitable basis.

Resolution No. 2. That the water users continue the cooperative program with the Idaho Department of Water Resources to provide watermaster services as outlined in the Memorandum of Understanding signed by the chairman of the Committee of Nine and the director of the Department of Water Resources on March 4, 1979.

Resolution No. 3. We recommend that Ronald D. Carlson be re-elected watermaster for the ensuing year, including a staff of a deputy, assistant and a clerk, with an aggregate salary of \$45,000.00. This amount represents the entire salary of the clerk, assistant, and deputy, and 67% of the salary of the watermaster. Thirty-three percent of the watermaster's salary and benefits shall be paid from non-water district funding provided by the Idaho Department of Water Resources.

Resolution No. 4. That the duties of the watermaster shall begin on this date and continue for a period of one full year.

Resolution No. 5. Proposed budget for Water District No. 1 for the year beginning April 1, 1979.

Resolution No. 6. To assure a more equitable method of distributing the administrative costs, be it resolved that the water users of Water District No. 1 support pending legislation which would provide for the assessing of a minimum delivery charge on each diversion in the district, as set by the water users at the annual meeting.

Be it further resolved that if a minimum delivery charge is provided for by the Idaho Legislature during this current legislative session the watermaster is hereby authorized to implement such minimum charge as may be set by the Committee of Nine.

Resolution No. 7. Resolved that the watermaster shall prepare a report in accordance with Idaho Code, Section 42-614, which shall become the official billing to the individual water users, canal companies, and irrigation districts, and is hereby authorized to collect all of the expenses of delivering the waters of the district, including his salary and that of his assistants, and shall make all disbursements necessary to the conduct of the business of administering and delivering the waters of the district.

Resolved that no ditch, canal company, or other water users shall have the right to demand and receive water, and the watermaster shall not deliver to such person until receipt of the amount due and payable from such user.

Resolved that copies of the minutes of the annual meeting, the budget as approved, all resolutions approved, and the report prepared in accordance with Section 42-614, shall be filed with the county clerks of Bonneville, Madison, Teton and Fremont Counties.

Resolution No. 8. We recommend that the Committee of Nine be continued with nine regular members, the members representing the Burley and Minidoka Irrigation Projects are to be alternated between the two districts as they may arrange. In addition, advisory members representing the Bureau of Reclamation, Teton Basin, Gooding Canal, and a member from the Burley or Minidoka District, whichever is not currently represented on the regular committee, be included. Any canal company or district desiring to have representatives attend meetings of the Committee of Nine should notify the watermaster, who will then advise them of dates and time of committee meetings so that they may have an opportunity to attend such meetings.

Resolution No. 9. Whereas the operation of the storage pool committee in past years has proved to be of valuable assistance to the watermaster in providing an orderly distribution of rental water:

Therefore, be it resolved, that a pool committee again be appointed by the chairman of the Committee of Nine for the following purposes:

1. To determine general policy regarding source of rental water;
2. To assist the watermaster in the allocation of rental water;
3. To consult with the watermaster on ways to most fully utilize available storage water;
4. To implement a rental program which is consistent with the water user, Idaho Code, Bureau of Reclamation contracts, and provides maximum legal protection for those providing water for distribution through the rental pool.

Resolution No. 10. Whereas it is in the best interest of the water users of Water District No. 1 to account for all diversions which might adversely affect any prior natural flow or storage diversions be it resolved that the watermaster shall collect records of water diversions during the entire year.

Resolution No. 11. Whereas in the operation of Water District No. 1 it is necessary to borrow money at times to meet expenses of operation prior to collection from the canal companies at the close of the irrigation season.

Therefore, be it resolved that the watermaster or his designated representative on the Committee of Nine is hereby authorized to borrow from time to time during the year ending March 31, 1980, such sums as are necessary to pay outstanding bills, signing notes as authorized officer of District No. 1 as security therefore, the total amount of any such outstanding indebtedness at any one time not; however, to exceed \$50,000.00

Resolution No. 12. Whereas it is in the interest of all the water users to have the water rights within Water District No. 1 delivered according to the priority system and whereas the accounting system now used by Water District No. 1 requires that each diversion have assigned to it a specific list of decreed, licensed, and storage entitlement, and whereas those diversions which have no record of water rights on file with the Department of Water Resources or the Water District Office will necessarily be taking storage water any time a diversion takes place.

Now, therefore, be it resolved that no diversion shall be allowed to divert water unless the proper list of rights for that diversion are found in the watermaster's records and proper arrangements have been made to procure storage water from the rental pool prior to the start of the irrigation season.

Resolution No. 13. Whereas, the contracts between the Secretary of the Interior and numerous water users organizations for the payment of a portion of the costs of Palisades Reservoir allocated to irrigation, designate the Committee of Nine as the Advisory Committee to consult with the Secretary on matters concerning rental of water from Palisades Reservoir, and

Whereas, the rental of storage water by those owning rights to storage and space in the USBR reservoirs above Milner Dam is only incidental to the primary purposes of any such entity as well as the Committee of Nine in the performance of their respective responsibilities;

Whereas, it is deemed necessary to provide guidance for the operations of the Water Rental Pool Committee which rents water annually, not only from Palisades Reservoir, but from other Bureau of Reclamation reservoirs in the Upper Snake River Basin,

Now, therefore, be it resolved that this Committee adopt the following points to govern the priorities in the rental of available water and the submittal of water for annual rental:

1. Rental of Available water
 - a) First priority in the rental of available water shall be given to those water users owning rights in the various storage reservoirs of the Bureau of Reclamation in the Snake River Basin above Milner Dam.
 - b) Second priority in the rental of available water shall be given to other irrigation water users in the areas of beneficial use described in the licenses issued by the State of Idaho for use of the waters from the storage reservoirs described in (a) above.
 - c) Priority among water users of each priority listed in (a) and (b) above and who execute leases to rent water during an irrigation season shall be determined by the date on which that water user's executed lease is received at the office of the Upper Snake River Watermaster at Idaho Falls, Idaho; the earlier in the year the executed lease is received by the Watermaster, the higher the priority in that priority group the entity will receive.

2. Acceptance of Water for Rental

- a) Holders of space in Palisades Reservoir or in other reservoirs may notify the Upper Snake River Watermaster by July 1 of each year of water they designate as available for rental from the Water Rental Pool for that year's irrigation season. All such holders will share proportionately in the proceeds from the rental of all or any part of the water offered by July 1 for use in that year.
- b) Holders of space in Palisades Reservoir or other reservoirs who notify the Upper Snake River Watermaster after July 1 of any year of water they desire to designate as available for rental from the Water Rental Pool for that year's irrigation season shall share proportionately in the proceeds from the rental of all or any part of the water rented which was designated for rental after July 1 of that year.
- c) All of the water designated for rental before July 1 of any year will be rented before any of the water designated for rental on or after July 1 will be rented.

Resolution No. 14. Whereas, legislation is being considered to create a water supply bank for the purchase, lease, rental, and sale of water and water rights; and

Whereas, Water District No. 1 acting through the Committee of Nine and the Rental Pool Committee have historically operated such a bank for exchange of stored water; and

Whereas, Water District No. 1 believes that the operation of a water supply bank is in the public interest through more fully using the resource; and

Therefore, be it resolved that water District No. 1 supports legislation creating a water supply bank providing for a local rental committee.

Resolution No. 14 AMENDED. WHEREAS, legislation is being considered to create a water supply bank for the lease and rental of water and water rights; and

WHEREAS, Water District No. 1 acting through the Committee of Nine and the Rental Pool Committee have historically operated such a bank for exchange of stored water; and

WHEREAS, Water District No 1 believes that the operation of a water supply bank is in the public interest through more fully using the resource; and,

Therefore, be it resolved that Water District No. 1 supports legislation creating a water supply bank providing for a local rental committee.

MEMORANDUM

TO: Regional Secretaries
FROM: Rita Fleck *RF*
THRU: Dave Tuthill *DET*
RE: New Proof of Beneficial Use Procedure

May 1, 1979

As you know, the Legislature passed legislation making the proof of beneficial use much simpler. Attached is one of the post cards which now will be used as proof.

Along with the new post cards, we are going to implement a new procedure to handle the proofs. As of the 1st of May, these post cards will be sent out and from then on, will be used to submit proof.

The new procedure is as follows:

The original post card will be date stamped and sent to the state office if received in the region. The region does not need to make a copy of this card.

In the state office, the file will be pulled and Rita will check the correspondence in the file and the information on the card. She will send any pertinent information to the region (copies of amendments, etc.) along with a copy of the post card.

May 1, 1979

Memorandum

Page 2

With the information sent from the state office, ⁽¹⁾ the region will
prepare the field report and the acknowledgment letter. Note that in
^(A) some cases, it may not be necessary to transcribe the permit information
^(B) onto the field report. A copy of the acknowledgment letter should be
⁽²⁾ sent immediately to the state office to be filed.

Reinstatement orders for lapsed permits will be prepared in the
state office and sent to the regions to be sent with the acknowledgment
letters. ⁽¹⁾ The yellow copy of the acknowledgment letter should be returned
⁽²⁾ to the state office.

BUREAU OF RECLAMATION
MINIDOKA PROJECT OFFICE
BOX 549
BURLEY, IDAHO 83318

April 25, 1979

RECEIVED

APR 26 1979

Department of Water Resources

Mr. Steve Allred, Director
Idaho Department of Water Resources
373 West Jefferson
Boise, Idaho 83706

Dear Steve:

Pursuant to the provisions of Chapter 7, Section 41-701 and 41-702 of the Idaho Compiled Statutes, notice is hereby given that the United States, as the owner of Jackson Lake Reservoir, Grassy Lake Reservoir, Island Park Reservoir, Palisades Reservoir, and American Falls Reservoir, desires to use the bed of the Snake River and its tributaries, natural water courses in the State of Idaho, for the purpose of carrying the stored water from said reservoirs to the several projects entitled to use the same, and requests that a special deputy be appointed as provided in said sections to adjust the headgates of the various canals diverting from said stream in such a manner that the parties having the right to the use of such stored water shall secure the volume thereof to which they are entitled.

The dates when the stored water will be discharged, its volume in acre-feet and rate of flow in cubic feet per second will depend upon climatic and runoff conditions and can not be determined at this time. Stored water released from Island Park and Grassy Lake Reservoirs during the season of 1979 will be for the benefit of the Fremont-Madison Irrigation District.

It has been the custom in the past for the Watermaster of District No. 01 to act in the capacity of the special deputy under appointment by your office. The continuation of this custom is requested for the current year.

Sincerely yours,

Carlos C. Randolph

WATER DISTRICT NO. 1

March 5, 1979

Resolution No. 1. That the watermaster continue to apply the best available methods and technology to better assure; more accurate deliveries of natural flow and stored water, improved regulation procedures, to improve the availability of water supply and diversion records to the water users, and to assure that all water users are charged for water deliveries on an accurate and equitable basis.

Resolution No. 2. That the water users continue the cooperative program with the Idaho Department of Water Resources to provide watermaster services as outlined in the Memorandum of Understanding signed by the chairman of the Committee of Nine and the director of the Department of Water Resources on March 4, 1978.

Resolution No. 3. We recommend that Ronald D. Carlson be re-elected watermaster for the ensuing year, including a staff of a deputy, assistant and a clerk, with an aggregate salary of \$45,000.00. This amount represents the entire salary of the clerk, assistant, and deputy, and 67% of the salary of the watermaster. Thirty-three percent of the watermaster's salary and benefits shall be paid from non-water district funding provided by the Idaho Department of Water Resources.

Resolution No. 4. That the duties of the watermaster shall begin on this date and continue for a period of one full year.

Resolution No. 5. Proposed budget for Water District No. 1 for the year beginning April 1, 1979.

Resolution No. 6. To assure a more equitable method of distributing the administrative costs, be it resolved that the water users of Water District No. 1 support pending legislation which would provide for the assessing of a minimum delivery charge on each diversion in the district, as set by the water users at the annual meeting.

Be it further resolved that if a minimum delivery charge is provided for by the Idaho Legislature during this current legislative session the watermaster is hereby authorized to implement such minimum charge as may be set by the Committee of Nine.

Resolution No. 7. Resolved that the watermaster shall prepare a report in accordance with Idaho Code, Section 42-614, which shall become the official billing to the individual water users, canal companies, and irrigation districts, and is hereby authorized to collect all of the expenses of delivering the waters of the district, including his salary and that of his assistants, and shall make all disbursements necessary to the conduct of the business of administering and delivering the waters of the district.

Resolved that no ditch, canal company, or other water users shall have the right to demand and receive water, and the watermaster shall not deliver to such person until receipt of the amount due and payable from such user.

Resolved that copies of the minutes of the annual meeting, the budget as approved, all resolutions approved, and the report prepared in accordance with Section 42-614, shall be filed with the county clerks of Bonneville, Madison, Teton and Fremont Counties.

P.

Resolution No. 8. We recommend that the Committee of Nine be continued with nine regular members, the members representing the Burley and Minidoka Irrigation Projects are to be alternated between the two districts as they may arrange. In addition, advisory members representing the Bureau of Reclamation, Teton Basin, Gooding Canal, and a member from the Burley or Minidoka District, whichever is not currently represented on the regular committee, be included. Any canal company or district desiring to have representatives attend meetings of the Committee of Nine should notify the watermaster, who will then advise them of dates and time of committee meetings so that they may have an opportunity to attend such meetings.

Resolution No. 9. Whereas the operation of the storage pool committee in past years has proved to be of valuable assistance to the watermaster in providing an orderly distribution of rental water:

Therefore, be it resolved, that a pool committee again be appointed by the chairman of the Committee of Nine for the following purposes:

1. To determine general policy regarding source of rental water;
2. To assist the watermaster in the allocation of rental water;
3. To consult with the watermaster on ways to most fully utilize available storage water;
4. To implement a rental program which is consistent with the water user, Idaho Code, Bureau of Reclamation contracts, and provides maximum legal protection for those providing water for distribution through the rental pool.

Resolution No. 10. Whereas it is in the best interest of the water users of Water District No. 1 to account for all diversions which might adversely affect any prior natural flow or storage diversions be it resolved that the watermaster shall collect records of water diversions during the entire year.

Resolution No. 11. Whereas in the operation of Water District No. 1 it is necessary to borrow money at times to meet expenses of operation prior to collection from the canal companies at the close of the irrigation season.

Therefore, be it resolved that the watermaster or his designated representative on the Committee of Nine is hereby authorized to borrow from time to time during the year ending March 31, 1980, such sums as are necessary to pay outstanding bills, signing notes as authorized officer of District No. 1 as security therefore, the total amount of any such outstanding indebtedness at any one time not; however, to exceed \$50,000.00

P.

Resolution No. 12. Whereas it is in the interest of all the water users to have the water rights within Water District No. 1 delivered according to the priority system and whereas the accounting system now used by Water District No. 1 requires that each diversion have assigned to it a specific list of decreed, licensed, and storage entitlement, and whereas those diversions which have no record of water rights on file with the Department of Water Resources or the Water District Office will necessarily be taking storage water any time a diversion takes place.

Now, therefore, be it resolved that no diversion shall be allowed to divert water unless the proper list of rights for that diversion are found in the watermaster's records and proper arrangements have been made to procure storage water from the rental pool prior to the start of the irrigation season.

Resolution No. 13. Whereas, the contracts between the Secretary of the Interior and numerous water users organizations for the payment of a portion of the costs of Palisades Reservoir allocated to irrigation, designate the Committee of Nine as the Advisory Committee to consult with the Secretary on matters concerning rental of water from Palisades Reservoir, and

Whereas, the rental of storage water by those owning rights to storage and space in the USBR reservoirs above Milner Dam is only incidental to the primary purposes of any such entity as well as the Committee of Nine in the performance of their respective responsibilities;

Whereas, it is deemed necessary to provide guidance for the operations of the Water Rental Pool Committee which rents water annually, not only from Palisades Reservoir, but from other Bureau of Reclamation reservoirs in the Upper Snake River Basin,

Now, therefore, be it resolved that this Committee adopt the following points to govern the priorities in the rental of available water and the submittal of water for annual rental:

1. Rental of Available water
 - a) First priority in the rental of available water shall be given to those water users owning rights in the various storage reservoirs of the Bureau of Reclamation in the Snake River Basin above Milner Dam.
 - b) Second priority in the rental of available water shall be given to other irrigation water users in the areas of beneficial use described in the licenses issued by the State of Idaho for use of the waters from the storage reservoirs described in (a) above.
 - c) Priority among water users of each priority listed in (a) and (b) above and who execute leases to rent water during an irrigation season shall be determined by the date on which that water user's executed lease is received at the office of the Upper Snake River Watermaster at Idaho Falls, Idaho; the earlier in the year the executed lease is received by the Watermaster, the higher the priority in that priority group the entity will receive.

P.

2. Acceptance of Water for Rental

- a) Holders of space in Palisades Reservoir or in other reservoirs may notify the Upper Snake River Watermaster by July 1 of each year of water they designate as available for rental from the Water Rental Pool for that year's irrigation season. All such holders will share proportionately in the proceeds from the rental of all or any part of the water offered by July 1 for use in that year.
- b) Holders of space in Palisades Reservoir or other reservoirs who notify the Upper Snake River Watermaster after July 1 of any year of water they desire to designate as available for rental from the Water Rental Pool for that year's irrigation season shall share proportionately in the proceeds from the rental of all or any part of the water rented which was designated for rental after July 1 of that year.
- c) All of the water designated for rental before July 1 of any year will be rented before any of the water designated for rental on or after July 1 will be rented.

Resolution No. 14. Whereas, legislation is being considered to create a water supply bank for the lease and rental of water and water rights; and

Whereas, Water District No. 1 acting through the Committee of Nine and the Rental Pool Committee have historically operated such a bank for exchange of stored water; and

Whereas, Water District No. 1 believes that the operation of a water supply bank is in the public interest through more fully using the resource; and

Therefore, be it resolved that water District No. 1 supports legislation creating a water supply bank providing for a local rental committee.

North Fork Water Users Protective Association

St. Anthony, Idaho

RESOLUTION

Consideration is being given to the designation of vast areas of land in Idaho and neighboring states as wilderness areas, and the designation of streams of those areas as wild and scenic rivers.

AND WHEREAS: The above mentioned designation greatly restricts the users of these areas and streams;

AND WHEREAS: Much of the land in these areas is covered with over-ripe stands of timber that needs to be harvested for both lumber and wood;

AND WHEREAS: With a shortage of fuels, both electrical and fossil fuels now demanding national attention, the general public needs full access to harvest these lands.

AND WHEREAS: Many of the rivers on these areas have undeveloped reservoir sites or existing reservoirs that should be built or could be enlarged, either for power potential or for storage of irrigation water - or both.

AND WHEREAS: Vast areas of land throughout the west have already been designated as wilderness areas, thus depriving the general public of the full and unrestricted use of these areas.

THEREFORE BE IT RESOLVED: That the irrigators here assembled go on record as opposing any additional land being designated as wilderness area, or any additional rivers being designated as wild and scenic rivers.

Mr. Chairman: I move the adoption of this resolution.

Gentlemen:

Enclosed please find a draft of an application to lease which becomes a lease agreement upon execution by the Watermaster on behalf of the lessor of excess water.

Also enclosed is a letter that is sent to the potential lessee upon receipt of his application.

Presumably the only thing that would need to occur after the Pool Committee selection would be to execute the lease and return it to those who are successful lessees, and to return the check (or money) and application to those who are not successful.

Your comments?

Sincerely,

JOHN A. ROSHOLT

Your application to lease _____ acre feet of irrigation storage water for the 1979 irrigation season from willing lessors in Water District No. 1 and your check in the amount of \$_____ has been received.

If water is available this year, your request to lease will be considered under appropriate state law and the rules of the Water District.

You will be notified of our decision by _____, 1979. If there is water to fill your request, you will receive a copy of the executed lease. If there is no water available, your check will be returned.

Signed,

WATERMASTER

P.

LEASE

The undersigned lessee does hereby agree to pay \$_____ in consideration for the lease of _____ acre feet of storage water which is excess to the needs of some waterusers of Water District No. 1 for the irrigation season of 19__.

The undersigned lessee waives any claim to the water herein leased under Article XV, Section IV of the Idaho Constitution and Idaho Code §42-914, and further acknowledges :

- (1) That the use of such leased water by undersigned lessee does not constitute a dedication of the water to lessee's use;
- (2) Said lease does not constitute an abandonment or forfeiture of the right by waterusers of Water District No. 1;
- (3) That the use of leased water by lessee shall be supplemental to other water rights on Snake River held by lessee for beneficial use on the hereinafter described lands; and
- (4) The lessee hereby agrees to comply with all Federal Reclamation Laws and regulations to the extent the same are applicable to the use of this lease water.

Description of Point of Diversion:

Description of lands where water will be beneficially used:

In an effort to make the February 6th meeting as productive as possible, I have prepared the enclosed agenda. If you feel there should be changes or additions made in the agenda please let me know; otherwise, this is the program we will follow.

I am confident everyone on this committee is aware of the water users position in this matter, but to assure that we are all starting from the same position I would like to again point out the items that we feel are essential parts of any rental procedure.

- 1) The water rights of the space holders must be protected in any rental agreement.
- 2) The space holders should be able to at least recover their costs. The water district and canal companies should be entitled to assess a reasonable handling charge.
- 3) Any rental program should allow for maximum flexibility and a minimum of red tape.
- 4) It must be possible to establish a priority system for rental water so those who have been renting the longest will always have the first chance to rent available water.
- 5) The Committee of Nine should have official control over the rental pool.

I hope that we can all put forth the effort to get a viable rental program implemented in time for the coming season. This obviously is an ambitious project but I believe we have the best possible people working to get the job accomplished in that time frame.

Very truly yours,

Kenneth Anderson

WATER DISTRICT NO. 1

John V. Evans
Governor

C. Stephen Allred
Director

1515 Lincoln Road
Idaho Falls, Idaho 83401
(208) 522-5404

During the 1978 Annual Meeting, the water users of Water District 01 adopted the following resolution: Be it resolved "that the watermaster be requested to make such changes in the established water distribution practices as will result in; more accurate deliveries of natural flow and stored water, improved regulation procedures to assure deliveries of all water rights by priority, to improve the availability of water supply and diversion records to the water users, and to assure that all water users are charged for water deliveries on an accurate and equitable basis."

Pursuant to this resolution, we have expanded our data collection effort and have undertaken a review of the water rights for each diversion in Water District 01. The data we now have available indicate you have a pump located with the following water rights:

Natural flow: _____

Storage: _____

I realize that many water right changes have taken place within the District which are not reflected by the district's records. Therefore if you feel the above listing of rights is incorrect, please come in and bring whatever records you have to aid in getting your water rights included in our records.

Based upon the rights listed above

The District's diversion records for 1978 show you diverted _____ AF of storage water. Since your total seasonal diversion exceeded your total rights by _____ AF the difference has been provided from the rental pool. The Rental Pool Committee is making this water available to you for your convenience this year. In the future it will be necessary for rental arrangements to be made in advance.

Your rental cost for the 1978 season is \$ _____. If you have any questions in this matter, please feel free to contact me.

Very truly yours,

RONALD D. CARLSON
Watermaster

COMMITTEE OF NINE

March 4, 1979

The meeting was called to order by Chairman Lester Saunders at 7:00 p.m., in the Conference Room of the Idaho Department of Water Resources, Idaho Falls.

Ron Carlson reviewed the budget for the 1979 season. Reed Murdock moved we accept the budget, seconded and carried.

Resolutions were read by Ron Carlson and passed on unanimously.

Discussion on pumps in river followed. Leo Robison made a motion to assess the pumps and other diversions for water used in 1979. Motion seconded by Homer Jones, passed.

Audit was discussed, no decision was made.

Meeting adjourned at 9:05 p.m.

Reed D. Murdock

REED MURDOCK, Secretary
Committee of Nine

Eastern District Office

MINUTES OF ANNUAL MEETING OF WATER DISTRICT NO. 1

IDAHO FALLS, IDAHO MARCH 5, 1979

RECEIVED

MAR 28 1979

Department of Water Resources
Eastern District Office

The 1979 annual meeting of Water District No. 1 was called to order at 10:00 a.m. in the Westbank Restaurant by Watermaster Ronald D. Carlson, with over 200 water users present.

A motion was made that Lester Saunders be elected temporary chairman. The motion was seconded and passed by unanimous vote. Reed Murdock was elected temporary secretary.

The minutes of the 1978 meeting were read by Reed Murdock, and approved as read.

The chairman declared a recess for selection of the committees on Organization and Order of Business, Credentials and Committee of Nine. Those nominated for the Order of Business Committee were: Keith Nickerson, Neil Bithell, Jerry Dalling, Martin Bergman, Gail Shepherd, Leo Hobdey, Bill Rude, Phil Hanks, and Jim Steele.

Those on the Credentials Committee were: Reed Hansen, Murray Hammond, James Siddoway, Keith Erickson, Frank Kinghorn, Bob Burks, Brian Harris, Pat O'Donald, and Stan Sutton.

Nominees for the Committee of Nine were: Kenneth Anderson, Lester Saunders, Reed Murdock, Reed Oldham, Homer Jones, Clyde Beck, Bill Watts, Clyde Greenwell, Leo Robison; Jay Holbrook, alternate; Charles Roseberry, Merle Kunz, Carlos Randolph and Wendell Johnson as advisory members.

All members previously mentioned were duly elected.

A roll call of canals entitled to vote was read by Reed Murdock. Of 110 canals with a total of 179,762 votes, 55 canals with a total of 142,123 votes were represented.

The report of the Committee on Organization and Order and Order of Business was given by Martin Bergman:

"We recommend that the temporary organization be made permanent and the following be adopted as the order of business of this meeting:

1. Appointment of a temporary organization.
2. Reading of minutes of previous meeting (omitting the resolutions.)
3. Recess for caucus.
4. Roll call of canals shall be held while Committee on Organization, Order of Business, and Committee on Credentials are in caucus.

5. Report of committees.
6. That the temporary organization be made permanent.
7. Financial report of District.
8. Election of Committee of Nine
9. Resolutions
10. Election of watermaster.
11. Unfinished business.
12. New business.
13. Committee of Nine shall serve as a permanent resolution committee and anyone desiring to present a resolution is requested to present it to the Committee of Nine on or before their last meeting prior to Water District No. 1 general meeting.

/s/ Martin Bergman, Chairman

The report of the Committee on Organization and Order of Business was adopted by unanimous vote.

The 1979 report of the Credentials Committee was presented by Keith Erickson.

"We, your Committee on Credentials, recommend the following for your consideration:"

1. That the representatives of different rights be determined by roll call in advance of voting.
2. That the companies or other organizations owning decreed water rights shall be entitled to vote through their duly elected officers or by written proxy. Each stockholder or any company not represented by duly elected officers or by written proxy shall be entitled to vote the stock held by them.
3. That in case two or more officers are present from any canal company, they shall select one man to vote the stock of said company.
4. That power rights be not recognized in voting.
5. That no person be elected to membership and service on the Committee of Nine, Committee on Organization and Order of Business, or Credentials Committee unless he be a landowner and water user in the canal company or irrigation district which he represents during the term of his office.

/s/ Keith Erickson, Chairman

A motion to accept the recommendations of the Credentials Committee was made by Reed Murdock. Motion carried.

Lester Saunders reported on the activities of the Committee of Nine. He indicated that the Committee supported the watermaster's efforts to bring all diversions into the normal accounting process, but were surprised by the number of pumps that had inadequate water rights. The Committee voted to forgive the storage water used illegally during 1978 but advised that those water users be put on notice and regulated during 1979.

The Committee of Nine is concerned about the Water District No. 1 water rental practices. In March of 1978, Kenneth Anderson was appointed as chairman of the Rental Pool Committee. Several meetings were held to develop a rental process which complies with state law and is consistent with Bureau space holder contracts. Lester indicated another meeting of the Rental Committee would be held within 30 days to set price and policy or 1979.

Norman Young, Administrator of the Resources Administration Division of the Idaho Department of Water Resources, spoke of the high priority the Department had given Water District No. 1. Beside the assistance the state has provided in the form of money and equipment to upgrade the accuracy of accounting, three to four man years of staff effort have gone into the preparation of some 18 computer programs used by the Water District in its accounting process.

At the present time, computer terminals are located in both the Water District Office in Idaho Falls and the Bureau of Reclamation Office in Burley. This arrangements allows for more efficient data handling between the BOR and the Water District. Norm indicated that it is important in Water District No. 1 to develop a team effort between the Committee of Nine, the watermaster, the State and the BOR.

Neil Stessman of the Bureau of Reclamation discussed work on Island Park Dam and indicated the modifications on the dam should be completed in February of next year.

Carlos Randolph briefly discussed releases from Ririe Reservoir and invited anyone wanting to discuss the problem to contact him after the meeting.

Leo Bush, BOR, presented slides summarizing the water year from March to September.

Ted Diehl gave a rundown on various bills before the Legislature and Senate that would be of interest to the water users.

Leon Grieve gave the report on the Education Committee, indicating they had held several irrigator's workshops, had made a 28 minute film, and presented a water safety program to many third graders using a film entitled "Otto Otter."

Kent Foster indicated a general meeting for those interested in obtaining storage in Ririe Reservoir would be scheduled in the near future.

Adjourned at 3:15 p.m.

Reed D. Murdock

REED MURDOCK, Secretary
Committee of Nine

Resolutions attached

John Busch, University of Idaho, reported on an on-going water use and seepage study within the District. This study involves working with individual irrigators to best determine their needs and a study of various irrigation systems.

Ronald Carlson briefly outlined the accounting process that was implemented in Water District No. 1 during 1978. This process allows the daily water supplies to be calculated and then distributed, starting with the earliest priority. Any water diverted in excess of the rights being filled will be accounted as storage. This process requires daily data for every diversion.

Mr. Carlson indicated that, while the interest in improving the water distribution and accounting system within Water District No. 1 is primarily to improve the service to the water users of the district, we can not neglect the broader national implications. As the energy and water demands of the nation increase the best assurance against future Federal interference in the uses, allocation and distribution of water within the state is to have a strong, efficient, state controlled program.

Mr. Carlson said, in his opinion a system which includes the cooperative efforts of the water users, Committee of Nine, Water District, Department of Water Resources and the Bureau of Reclamation will be a formidable deterrent to out of state interests who might be eyeing Idaho's water.

Resolutions for the coming year were read by Ronald Carlson and were unanimously accepted by those present with the exception of Resolution No. 14 which was amended to read as follows:

Resolution No. 14. WHEREAS, legislation is being considered to create a water supply bank for the lease and rental of water and water rights; and

WHEREAS, Water District No. 1 acting through the Committee of Nine and the Rental Pool Committee have historically operated such a bank for exchange of stored water; and

WHEREAS, Water District No. 1 believes that the operation of a water supply bank is in the public interest through more fully using the resource; and,

Therefore, be it resolved that Water District No. 1 supports legislation creating a water supply bank providing for a local rental committee.

The amended resolution passed with only one dissenting vote on behalf of the Corbett Slough.

The Committee of Nine indicated their wish to begin the annual meeting at 9:00 a.m. instead of 10:00 a.m.

Dale DePew discussed the repayment of American Falls costs and the litigation with Burley Irrigation District. Until it is settled they can not have a bond sale and the space holders reconstruction costs will continue to accrue interest at + \$6,000. per day.

WATER DISTRICT NO. 1

March 5, 1979

Resolution No. 1. That the watermaster continue to apply the best available methods and technology to better assure; more accurate deliveries of natural flow and stored water, improved regulation procedures, to improve the availability of water supply and diversion records to the water users, and to assure that all water users are charged for water deliveries on an accurate and equitable basis.

Resolution No. 2. That the water users continue the cooperative program with the Idaho Department of Water Resources to provide watermaster services as outlined in the Memorandum of Understanding signed by the chairman of the Committee of Nine and the director of the Department of Water Resources on March 4, 1979.

Resolution No. 3. We recommend that Ronald D. Carlson be re-elected watermaster for the ensuing year, including a staff of a deputy, assistant and a clerk, with an aggregate salary of \$45,000.00. This amount represents the entire salary of the clerk, assistant, and deputy, and 67% of the salary of the watermaster. Thirty-three percent of the watermaster's salary and benefits shall be paid from non-water district funding provided by the Idaho Department of Water Resources.

Resolution No. 4. That the duties of the watermaster shall begin on this date and continue for a period of one full year.

Resolution No. 5. Proposed budget for Water District No. 1 for the year beginning April 1, 1979.

\$104,660.

GRAND TOTAL

\$163,504.

Resolution No. 6. To assure a more equitable method of distributing the administrative costs, be it resolved that the water users of Water District No. 1 support pending legislation which would provide for the assessing of a minimum delivery charge on each diversion in the district, as set by the water users at the annual meeting.

Be it further resolved that if a minimum delivery charge is provided for by the Idaho Legislature during this current legislative session the watermaster is hereby authorized to implement such minimum charge as may be set by the Committee of Nine.

Resolution No. 7. Resolved that the watermaster shall prepare a report in accordance with Idaho Code, Section 42-614, which shall become the official billing to the individual water users, canal companies, and irrigation districts, and is hereby authorized to collect all of the expenses of delivering the waters of the district, including his salary and that of his assistants, and shall make all disbursements necessary to the conduct of the business of administering and delivering the waters of the district.

Resolved that no ditch, canal company, or other water users shall have the right to demand and receive water, and the watermaster shall not deliver to such person until receipt of the amount due and payable from such user.

Resolved that copies of the minutes of the annual meeting, the budget as approved, all resolutions approved, and the report prepared in accordance with Section 42-614, shall be filed with the county clerks of Bonneville, Madison, Teton and Fremont Counties.

Resolution No. 8. We recommend that the Committee of Nine be continued with nine regular members, the members representing the Burley and Minidoka Irrigation Projects are to be alternated between the two districts as they may arrange. In addition, advisory members representing the Bureau of Reclamation, Teton Basin, Gooding Canal, and a member from the Burley or Minidoka District, whichever is not currently represented on the regular committee, be included. Any canal company or district desiring to have representatives attend meetings of the Committee of Nine should notify the watermaster, who will then advise them of dates and time of committee meetings so that they may have an opportunity to attend such meetings.

Resolution No. 9. Whereas the operation of the storage pool committee in past years has proved to be of valuable assistance to the watermaster in providing an orderly distribution of rental water:

Therefore, be it resolved, that a pool committee again be appointed by the chairman of the Committee of Nine for the following purposes:

1. To determine general policy regarding source of rental water;
2. To assist the watermaster in the allocation of rental water;
3. To consult with the watermaster on ways to most fully utilize available storage water;
4. To implement a rental program which is consistent with the water user, Idaho Code, Bureau of Reclamation contracts, and provides maximum legal protection for those providing water for distribution through the rental pool.

Resolution No. 10. Whereas it is in the best interest of the water users of Water District No. 1 to account for all diversions which might adversely affect any prior natural flow or storage diversions be it resolved that the watermaster shall collect records of water diversions during the entire year.

Resolution No. 11. Whereas in the operation of Water District No. 1 it is necessary to borrow money at times to meet expenses of operation prior to collection from the canal companies at the close of the irrigation season.

Therefore, be it resolved that the watermaster or his designated representative on the Committee of Nine is hereby authorized to borrow from time to time during the year ending March 31, 1980, such sums as are necessary to pay outstanding bills, signing notes as authorized officer of District No. 1 as security therefore, the total amount of any such outstanding indebtedness at any one time not; however, to exceed \$50,000.00

Resolution No. 12. Whereas it is in the interest of all the water users to have the water rights within Water District No. 1 delivered according to the priority system and whereas the accounting system now used by Water District No. 1 requires that each diversion have assigned to it a specific list of decreed, licensed, and storage entitlement, and whereas those diversions which have no record of water rights on file with the Department of Water Resources or the Water District Office will necessarily be taking storage water any time a diversion takes place.

Now, therefore, be it resolved that no diversion shall be allowed to divert water unless the proper list of rights for that diversion are found in the watermaster's records and proper arrangements have been made to procure storage water from the rental pool prior to the start of the irrigation season.

Resolution No. 13. Whereas, the contracts between the Secretary of the Interior and numerous water users organizations for the payment of a portion of the costs of Palisades Reservoir allocated to irrigation, designate the Committee of Nine as the Advisory Committee to consult with the Secretary on matters concerning rental of water from Palisades Reservoir, and

Whereas, the rental of storage water by those owning rights to storage and space in the USBR reservoirs above Milner Dam is only incidental to the primary purposes of any such entity as well as the Committee of Nine in the performance of their respective responsibilities;

Whereas, it is deemed necessary to provide guidance for the operations of the Water Rental Pool Committee which rents water annually, not only from Palisades Reservoir, but from other Bureau of Reclamation reservoirs in the Upper Snake River Basin,

Now, therefore, be it resolved that this Committee adopt the following points to govern the priorities in the rental of available water and the submittal of water for annual rental:

1. Rental of Available water
 - a) First priority in the rental of available water shall be given to those water users owning rights in the various storage reservoirs of the Bureau of Reclamation in the Snake River Basin above Milner Dam.
 - b) Second priority in the rental of available water shall be given to other irrigation water users in the areas of beneficial use described in the licenses issued by the State of Idaho for use of the waters from the storage reservoirs described in (a) above.
 - c) Priority among water users of each priority listed in (a) and (b) above and who execute leases to rent water during an irrigation season shall be determined by the date on which that water user's executed lease is received at the office of the Upper Snake River Watermaster at Idaho Falls, Idaho; the earlier in the year the executed lease is received by the Watermaster, the higher the priority in that priority group the entity will receive.

2. Acceptance of Water for Rental

- a) Holders of space in Palisades Reservoir or in other reservoirs may notify the Upper Snake River Watermaster by July 1 of each year of water they designate as available for rental from the Water Rental Pool for that year's irrigation season. All such holders will share proportionately in the proceeds from the rental of all or any part of the water offered by July 1 for use in that year.
- b) Holders of space in Palisades Reservoir or other reservoirs who notify the Upper Snake River Watermaster after July 1 of any year of water they desire to designate as available for rental from the Water Rental Pool for that year's irrigation season shall share proportionately in the proceeds from the rental of all or any part of the water rented which was designated for rental after July 1 of that year.
- c) All of the water designated for rental before July 1 of any year will be rented before any of the water designated for rental on or after July 1 will be rented.

Resolution No. 14. Whereas, legislation is being considered to create a water supply bank for the purchase, lease, rental, and sale of water and water rights; and

Whereas, Water District No. 1 acting through the Committee of Nine and the Rental Pool Committee have historically operated such a bank for exchange of stored water; and

Whereas, Water District No. 1 believes that the operation of a water supply bank is in the public interest through more fully using the resource; and

Therefore, be it resolved that water District No. 1 supports legislation creating a water supply bank providing for a local rental committee.

Resolution No. 14 AMENDED. WHEREAS, legislation is being considered to create a water supply bank for the lease and rental of water and water rights; and

WHEREAS, Water District No. 1 acting through the Committee of Nine and the Rental Pool Committee have historically operated such a bank for exchange of stored water; and

WHEREAS, Water District No 1 believes that the operation of a water supply bank is in the public interest through more fully using the resource; and,

Therefore, be it resolved that Water District No. 1 supports legislation creating a water supply bank providing for a local rental committee.

North Fork Water Users Protective Association

St. Anthony, Idaho

RESOLUTION

Consideration is being given to the designation of vast areas of land in Idaho and neighboring states as wilderness areas, and the designation of streams of those areas as wild and scenic rivers.

AND WHEREAS: The above mentioned designation greatly restricts the users of these areas and streams;

AND WHEREAS: Much of the land in these areas is covered with over-ripe stands of timber that needs to be harvested for both lumber and wood;

AND WHEREAS: With a shortage of fuels, both electrical and fossil fuels now demanding national attention, the general public needs full access to harvest these lands.

AND WHEREAS: Many of the rivers on these areas have undeveloped reservoir sites or existing reservoirs that should be built or could be enlarged, either for power potential or for storage of irrigation water - or both.

AND WHEREAS: Vast areas of land throughout the west have already been designated as wilderness areas, thus depriving the general public of the full and unrestricted use of these areas.

THEREFORE BE IT RESOLVED: That the irrigators here assembled go on record as opposing any additional land being designated as wilderness area, or any additional rivers being designated as wild and scenic rivers.

Mr. Chairman: I move the adoption of this resolution.

(This report must be made in Triplicate and forwarded to the Department of Water Resources
Boise, Idaho, for Approval.)

WATERMASTER'S REPORT

Department of Water Resources
Eastern District Office

From October 1, 1977 To September 30, 1978

Water District No. 1

Name of Watermaster Ronald D. Carlson

P. O. Address 1515 Lincoln Road, Idaho Falls, Idaho, 83401

AFFIDAVIT OF WATERMASTER

STATE OF IDAHO.

COUNTY OF Bonneville } ss.

Ronald D. Carlson, being first duly sworn, deposes and says
that he is (~~Deputy~~) Watermaster on Snake River ~~Creek~~ in District 1, having been
lawfully appointed by the Director, Department of Water Resources C. Stephen Allred
and that the volumes of water, as stated in this report, prorated by him to the several users, are correct;
that the sum of \$ 139,498.78 is justly due as stated.

Ronald D. Carlson

(~~Deputy~~) Watermaster District No. 1

Subscribed and sworn to before me, this 8th day of May, 19 79

Calleen Way
Notary Public.

(SEAL)

My Commission expires 6/15/81

Boise, Idaho, May 8, 19 79

I HEREBY CERTIFY, That Ronald D. Carlson

was lawfully appointed by me (~~Deputy~~) Watermaster of District No. 1, and that his bill
for services rendered prorated to the several users, as herein sworn to, is, to the best of my knowledge
and belief, correct.

C. STEPHEN ALLRED
Director, Department of Water Resources
