DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT

GENERAL INFORMATION AND INSTRUCTIONS

Pursuant to Section 42-222(1), *Idaho Code*, a transfer application may be filed to change the point of diversion, place of use, period of use, or nature of use of all or part of an established water right. Any person proposing to make such a change is required to file a transfer application with the Department. "Such application shall be upon forms furnished by the department and shall describe the [water right] to be changed and the changes which are proposed, and shall be accompanied by the statutory filing fee." *Idaho Code* § 42-222(1).

The Department has developed this application form to assist applicants in satisfying the requirements of Section 42-222(1). This application form requests information about the applicant's authority to file (Part 1), information about the current elements of the water right(s) to be changed (Part 2), information about the changes which are proposed (Part 3), information about the validity of the water right(s) and the effects of the proposed changes (Part 4), and a confirmation that the information provided is accurate (Part 5).

The applicant or their representative must provide a response for all applicable questions, any additional information required, and the proper filing fee before this application will be considered complete. If an application is incomplete or more information is required, the Department will notify the applicant or representative and allow time for the application to be completed. An application that remains incomplete will be returned to the applicant and the filing fee will be refunded.

An application for transfer is limited to the changes proposed for a single water distribution system. A proposal to change two or more separate water distribution systems, that will remain separate after the transfer, must be filed as separate applications. Applicants may provide additional pages to supplement their responses to the questions posed on this application form. Supplemental forms for listing additional water rights, points of diversion, or places of use can be found on the Department's website (idwr.idaho.gov).

If you need assistance understanding the questions on this form, generating current water right reports, determining legal descriptions, or accessing water measurement records feel free to contact the nearest regional office of the Department.

PART 1 – CONTACT INFORMATION, OWNERSHIP RECORDS, AUTHORITY TO FILE

Name(s) of Applicant(s) City of Caldwell
Mailing Address P.O. Box 1179
Email* rmacdonald@cityofcaldwell.org **Phone** 208 455 3000
Name of Representative (if any) Ashley Newbry / Robb MacDonald
Mailing Address P.O. Box 1179
Email* anewbry@cityofcaldwell.org **Phone** 208 455 4672

*If an email address is provided, Department staff will use email as the primary method for corresponding with the applicant and representative about the application.

A. Representative. If the representative is authorized to sign or amend the application on behalf of the applicant, attach documents (such as the Power of Attorney) confirming that authority. Label documents as Attachment 1A. ✓

B. Current Owner. If the applicant is not the current owner of record for all water rights included in this application, attach documents showing that the applicant has the authority to make the proposed changes. Label documents as Attachment 1B. Applicant is the owner.

C. Updating Ownership Records. Applicants needing to update the ownership records for any of the water rights included in this application must attach documents supporting the ownership change. Such documents must trace ownership of the subject water rights or the current place of use for the subject water rights from the current owner of record for the water rights to the applicant. Label documents as Attachment 1C.
We are only submitting water rights owned by City of Caldwell.

D. Business Entities. If the applicant is a business entity (corporation, LLC, partnership, trust, etc.), is the business entity currently registered with the state of Idaho?

☐ Yes. If this application is signed by someone other than a person listed on the most recent annual report filed with the Idaho Secretary of State, attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

☑ No. Attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D. ✓

Local Government.

E. Approval of Irrigation Delivery Entity. Section 42-108, *Idaho Code*, states that a transfer application proposing to change water rights held by an irrigation company or district requires the consent of the irrigation entity. If this application proposes to change water rights held by an irrigation entity, attach a letter of consent from the entity (labeled as Attachment 1E) or have an authorized representative of the entity co-sign the application.

N/A

F. Encumbered Properties. If the current place of use for the water rights included in this application is subject to a lien, deed of trust, mortgage, or contract and the application proposes to change the nature of use of the water rights or to move water rights off the current place of use, attach a statement of consent for the change signed by the lien holder, trustee, mortgagor or contract holder. Label documents as Attachment 1F.

N/A

PART 2 – WATER RIGHTS BEFORE PROPOSED CHANGES

A. Current Water Rights. For each water right proposed to be changed, attach a current water right report obtained from any Department office or from the Department's website (idwr.idaho.gov). Label water right reports as Attachment 2A.

B. Map of Current System. Attach a map of the current point(s) of diversion and place(s) of use for the water rights to be changed. The map should clearly depict the elements of the water rights to be changed. For example, if this application proposes to change the point of diversion for a water right, the map should display the current location of the point of diversion. For irrigation water rights, the map should also identify the location of the irrigated acres to be changed. Label map as Attachment 2B.

C. Current Location of Irrigated Acres. If this application proposes to change the place of use or nature of use for only a portion of an irrigation water right, use the following table to identify the current location of the irrigated acres to be changed. If additional pages are required, label additional pages as Attachment 2C. If this application proposes to change or rearrange the entire place of use for irrigation water right(s), skip to Part 3.

☐ **N/A. This application does not propose to change the place of use or nature or use of an irrigation water right or this application proposes to change the place of use or nature of use for an entire irrigation right.**

PART 3 – DESCRIPTION OF PROPOSED CHANGES

A. Purpose of Transfer. Section 42-222(1), *Idaho Code*, states that transfer applications may only be filed to change the point of diversion, place of use, period of use, or nature of use of an established water right. Section 42-248(3), *Idaho Code*, authorizes water right ownership changes to be included on transfer applications. Identify the changes proposed in this application:

- ☐ Change point(s) of diversion
- ☑ Add point(s) of diversion
- ☐ Change nature of use
- ☐ Change place of use
- ☐ Change period of use
- ☐ Update water right ownership records

B. Proposed Changes. Describe the proposed changes in narrative form:

City of Caldwell wishes to add a point of diversion to multiple water rights.

P 89462

C. Summary of Proposed Changes.

1. Water Rights. Use the following table to list all water rights, or portions thereof, that are proposed to be changed as they would appear after the proposed changes. In the Amount column, list the volume (in acre-feet) for storage uses or the rate (in cubic feet per second) for all other uses.

All	Part	Right Number	Amount (cfs/af)	Nature of Use	Period of Use	Source

☐	☐				to	

See attached list of WR's to which we would like to add one P.O.D.

2. Total Amounts. Calculate the total quantity, in cfs or af, of water rights that are proposed to be changed through this application. For an application proposing to only change the place of use for irrigation rights, the total quantity of water is calculated by comparing the current place of use to the proposed place of use, summing the number of acres increased in each legal subdivision, and quantifying the proportional amount of diversion rate for the increased acres. For an application proposing to change or add points of diversion for irrigation or any other beneficial use, the total amount is the total diversion rate for the changed portion of the right.

Total Amount of Water Rights Proposed to be Changed: 0 **cfs and/or** 0 af.

3. Point(s) of Diversion. Use the following table to list all the proposed points of diversion for the water rights to be changed, including any current points of diversion that will continue to be used as part of the proposed water distribution system.

The legal description for the proposed point(s) of diversion must be to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System (PLSS). PLSS information is typically available from USGS topo maps, property deeds, tax bills or various mapping tools on the Department's website.

For points of diversion within platted subdivisions, list the lot and block number in the "Diversion Name/Number" column. An application proposing an injection into a stream and a re-diversion from that stream must list the source for the original diversion as the source for the injection and re-diversion points. If this application proposes construction of a new diversion structure (for example, a new ground water well or a new pump station on a creek), please indicate the status in the appropriate column.

☐ **N/A. This application does not propose to add or change any points of diversion.**

4. Place of Use. The proposed place of use must be described to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System. Government lot numbers can be noted in parenthesis below the approximate quarter-quarter location of the government lot. For water rights held by irrigation districts, municipal providers or irrigation companies, the proposed place of use may be generally described as authorized by Sections 42-202B, 42-219 and 42-222B, *Idaho Code*.

☑ **N/A. This application does not propose to change a place of use.**

5. Map of Proposed System. Attach a map showing the location of the points of diversion, reservoirs, dams, canals, ditches, pipelines and other works proposed to be used to divert and convey water. Also show the location of the place of use, including any lands to be irrigated. The map should delineate the legal subdivisions including townships, ranges, sections, quarter-quarters and government lots. Label map as Attachment 3C.

PART 4 – ADDITIONAL INFORMATION

Section 42-222(1), *Idaho Code*, establishes the criteria used to evaluate transfer applications. An applicant bears the burden of demonstrating that the water right to be changed is a valid right, that the proposed use is a beneficial use, and that the proposed changes will not injure other water rights, will not enlarge the use of the original rights, are in the local public interest, and are consistent with the conservation of water resources within the state of Idaho. To satisfy this burden, an applicant must provide sufficient data and information for the Department to evaluate the effects of the proposed change. The Department may deny an application if the

applicant fails to provide sufficient data and information to determine whether the criteria from Section 42-222(1) are satisfied.

In addition to the information requested in Parts 1-3 of this application, the following information must be provided for an application to be considered complete. Department staff may request additional information or clarification as the application is processed.

A. Validity of Water Rights

1. If one or more of the water rights proposed to be changed is a statutory claim, established pursuant to Section 42-248, *Idaho Code*, attach evidence supporting the priority date claimed. Label documents as Attachment 4A-1. For statutory claims, the Department may conduct a field inspection as part of the application review process to evaluate the elements listed on the statutory claim.

2. Has any portion of the water right(s) proposed to be changed undergone a period of five or more consecutive years of non-use?

☐ Yes. Attach a statement describing the portion of the right(s) that were not used and the length of time of the non-use. In addition, identify any exception or defense to forfeiture and provide a detailed description as to why the water rights have not been lost and forfeited for non-use. Label documents as Attachment 4A-2.

☑ No.

B. Injury to Other Water Rights

1. Identify any other water right(s) diverted at the current point(s) of diversion.

Only the City's water Rights will be diverted at the current and future P.O.D.(s).

2. Identify any other water right(s) diverted at the proposed point(s) of diversion.

Municipal App w/ MPOD's. Note the list of WR's in my attachment "Part 3, Attachment C1"

3. Is the proposed point of diversion within a state water district? ☐ Yes. Water District #____. ☑ No.

4. Are the proposed points of diversion equipped with Department-approved measuring devices? ☑ Yes. ☐ No.

5. If this application proposes to divert a surface water right from a ground water well, attach a technical analysis evaluating the hydraulic connection between the proposed ground water point of diversion and the source of water listed on the right to be changed. Label technical analysis as Attachment 4B-5.

Not Applicable.

6. If this application proposes to change the point of diversion for a ground water right in the Eastern Snake Plain Aquifer (ESPA), attach a technical analysis of the anticipated depletions to reaches of the Snake River that are hydraulically connected to the ESPA using the Department's current ground water model for the ESPA. The technical analysis must evaluate depletion in a time-series format, evaluating impacts at transient and steady state time steps. To assist applicants in preparing the required technical analysis, the Department has developed a transfer tool interface for the ESPA Model. The transfer tool and user instructions can be downloaded from the Department's website (idwr.idaho.gov). If the proposed and current points of diversion are in the same or adjacent model cells no technical analysis is required, unless specifically requested by the Department. Label technical analysis as Attachment 4B-6. Not Applicable.

C. Enlargement in Use

1. Identify any other water rights used at the current place of use, including the number of shares in a canal company or acres assessed by an irrigation district. NA

"Other Water Rights" within Caldwell City Limits.

2. Identify any other water rights used at the proposed place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

Place of use is not proposed to be revised.

3. If this application proposes to change the place of use or nature of use for irrigation water rights, will the current place of use, for the portion of the right to be changed, continue to be irrigated?

☐ Yes. Identify the water right(s) to be used for the continued irrigation.

☐ No. The place of use for the portion to be changed will no longer be irrigated.

☑ N/A. The application does not propose to change the place of use for irrigation rights.

NA

4. If this application proposes to change the place of use for an irrigation water right that is combined with other irrigation rights at the current place of use but does not propose to change the place of use for all the stacked irrigation rights, attach evidence of the historical consumptive use occurring under all water rights at the current place of use. For irrigation rights, this should include at least five years of diversion data and/or crop data and estimates of evapotranspiration. Label the information as Attachment 4C-4. Evapotranspiration data may be available on the Department's website (http://et-idwr.idaho.gov)

NA

5. If the application proposes to change the nature of use for a water right, attach evidence of the historical consumptive use occurring under the portion of the water right to be changed. For irrigation rights, this should include diversion data, crop data and estimates of evapotranspiration. Label the information as Attachment 4C-5. Evapotranspiration data may be available on the Department's website (http://et-idwr.idaho.gov)

NA

6. If the application proposes to change the nature of use of a water right to municipal use for reasonably anticipated future needs, complete the form titled "Municipal Water Right Application Checklist" found on the Department's website (idwr.idaho.gov). Label the form as Attachment 4C-6.

NA

7. To your knowledge, are any portions of the water rights proposed to be changed:

Yes	No	
☐	☑	currently leased to the Water Supply Bank? If yes, complete the form titled "Application for Transfer of Water Right Attachment WSB" found on the Department's website (idwr.idaho.gov). Label the Form as Attachment 4C-7.
☐	☑	currently used in a mitigation plan limiting the use of water under the right?
☐	☑	subject to an agreement not to divert (CREP)?
☐	☑	currently enrolled in a federal set-aside program (CRP)?

D. Local Public Interest

The department must consider whether the proposed changes are in the local public interest as defined in Section 42-202B(3), *Idaho Code*. Some of the local public interest factors that may be considered in conjunction with a transfer application are (1) Recreation, fish, and wildlife impacts, (2) Water quality or contamination concerns, (3) Local and state ordinances, regulations, or policies related to water use, (4) Goals, requirements and limits set forth in the State Water Plan. If you choose to provide information about local public interest factors, label the information as Attachment 4D. This application proposes development of the City of Caldwell public drinking water system.

E. Conservation of Water Resources

Describe the diversion works and water delivery system. This may include sizes and dimensions of pumps, pipelines, headgates, ditches, dams, impoundments and irrigation equipment.

Groundwater well on City Property. Propose submersible or vertical turbine pump w/ SCADA controls.

PART 5 – FILING FEE AND SIGNATURE

A. Filing Fee. Filing fees for transfer applications are set forth in Section 42-221.O, *Idaho Code*. A table summarizing the filing fees for transfer applications is also found on the Department's website (idwr.idaho.gov). Any application proposing to change the nature of use for one or more rights requires an additional filing fee of $250. Applications proposing to update the ownership records for water rights must also include the appropriate filing fee to update the ownership records. For any application relying on the filing fee set forth in Section 42-221.O.8, *Idaho Code*, attach a statement describing how the application qualifies under Section 42-221.O.8. Label documents as Attachment 5A.

B. Affidavit of Applicant or Representative:

I hereby assert that no one will be injured by the proposed changes and that the proposed changes do not constitute an enlargement in use of the original right(s). The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Conditions

Code	Condtions
124	Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.
180	A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
102	The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
212	Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
01Q	After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
004	The issuance of this right does not grant any right-of-way or easement across the land of another.
	Water bearing zone to be appropriated is 260 to 416 feet.
046	Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.
226	To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, this right retains its original priority for well locations authorized under this right as identified in license dated 08/17/2001.
	Transfer 85741 authorizes the following additional well(s) as point(s) of diversion under this right as of the date of the approval: Well 1-A is located in T04N R03W S22 NENE. RE: Certifying Official and Duly Authorized Representatives for the City of Caldwell

To Whom It May Concern:

The Idaho Department of Environmental Quality requires the Mayor of a City to act as the Certifying Official on POTW IPDES permits. As the Mayor of the City of Caldwell, I confirm that I meet the requirements at IDAPA 58.01.25.090.01.c. as a principal executive officer of the City of Caldwell.

In addition, City Council and I have appointed Robb MacDonald to serve in the capacity of Public Works Director for the City of Caldwell. He also meets the requirements at IDAPA 58.01.25.090.01.c. as a principal executive officer of the City of Caldwell.

With regard to the City's IPDES Wastewater permit ID0021504, I am qualified to be a Certifying Official, which is a principal executive officer with the authority to sign and submit a permit application or a notice of intent on the City's behalf. I authorize the following individuals to serve as duly authorized representatives on the City's wastewater discharge permit(s):

Tony Harmon – Wastewater Division Superintendent
Gustav Betterley – Wastewater Division Assistant Superintendent
Ashley Newbry, PE – Deputy Public Works Director (Water)
Robb MacDonald, PE, MSCE – Public Works Director

I recognize that a duly authorized representative has responsibility for the overall operation of the regulated facility or activity or over responsibility for environmental matters for the City or Facility. A duly authorized representative can submit any report or information required by an IPDES permit, notice of intent, monitoring and reporting provisions, and any other information requested by the Department.

This letter shall act as my authorization in writing, from a Certifying Official to DEQ.

Thank you,

Jarom Wagoner, ~~AICP~~

MUNICIPAL WATER RIGHT APPLICATION CHECKLIST

This checklist must be completed and submitted with an application to appropriate water for municipal purposes. There are two types of permits for municipal water use. The first type of municipal permit provides water for reasonably anticipated future needs (**RAFN**) over a defined planning horizon.[1] The second type of municipal permit, called **non-RAFN**, provides water solely for use to meet needs that will arise in the near-term (five years).[2] Each type of municipal water use has a distinct set of review requirements.

Applicant Name: City of Caldwell

1. Type of Municipal Provider. Applicant must qualify as a Municipal Provider to obtain a water right for municipal purposes. See Idaho Code § 42-202B(5). Check one:

   - [x] Type 1 - Municipality
   - [ ] Type 2 - Franchise or political subdivision supplying water for municipal purposes
   - [ ] Type 3 - Corporation or association regulated as a "public water supply" system by IDEQ

   - [ ] Attach documentation of qualification as a Municipal Provider. See Idaho Code § 42-202(2).
     - [ ] Check here if you are a Type 3 provider proposing to develop a new municipal system but have not yet received recognition as a Public Water Supply by Idaho DEQ.

2a. List existing water rights (permits, licenses, decrees, and beneficial use claims) available to the applicant for municipal needs. These rights may or may not have a purpose of use expressly defined as "municipal." Explain the inclusion or exclusion of water rights used within the service area, but not currently owned by the applicant. Include a separate attachment as needed.

Right Number	Nature of Use	Diversion Rate (cfs)	Annual Volume (acre-feet)	Service Area
see attachment				City of Caldwell
	Total	*	*	

* Be sure to account for any combined volume and/or diversion rate limits in the approval conditions of each right listed.

2b. List any overlapping water providers within your service area, such as irrigation districts, canal companies, or municipal providers:

Pioneer Irrigation Dist., Black Canyon Irrg, Golden Gate Irrg Dist

3a. Currently or within five years will your municipal water system demand exceed the total diversion rate or annual volume authorized by the water rights listed in item #2a?

- [ ] Yes, see item #4
- [x] No, see item #3b

3b. Are you planning to replace an existing point of diversion, but will not develop a new water source nor exceed the total authorized diversion rate and volume of your current water rights?

- [x] Yes. Please file an Application for Transfer of Water Right *instead* of an Application for Permit.
- [ ] No, I am filing this Application for Permit for reasonably anticipated future needs (RAFN) pursuant to Idaho Code § 42-202B(8). See item #4.

---

[1] For a thorough discussion of RAFN water rights, see IDWR's *Recommendations for the Processing of Reasonably Anticipated Future Needs (RAFN) Municipal Water Rights at the Time of Application, Licensing, and Transfer* (Application Processing Memorandum No. 74).
[2] For a thorough discussion of non-RAFN water rights, see IDWR's Application Processing Memorandum No. 18.

4. Please specify the term for which you are making an application for permit. See Idaho Code § 42-202B(7). Check one:

   ☑ Non-RAFN: (planned water system improvements and beneficial use of the entire quantity of water will occur within 5 years). Go to item #5.

   ☐ RAFN (Full water usage will occur over a planning horizon longer than five years).
   Specify planning horizon:_____years. Ending year of planning horizon: 20_____. Skip to item #6.

5. Non-RAFN application. Per Water Appropriation Rule 40.05.d.i, attach a water requirement narrative to your application. It should include the following information:

   ☑ Attach a map of the municipal water service area defined by Idaho Code §42-202B(9). If applicable, map should delineate neighboring service areas associated with other municipal water providers.

   ☑ Current water demand within the municipal service area expressed in average day demand, maximum day demand, and peak hour demand.

   ☑ The required diversion rate during the peak and the average use period at the end of your project (5 years maximum). Typically, these values would be average day demand, maximum day demand, peakhour demand, and supporting information. State the capacity of any reservoirs which will be used to meet peak demand. Do not include demand solely for fire protection. If your fire protection demand exceeds your other municipal needs, you may request an appropriation for fire protection as a separate beneficial use.

   ☑ Proposed future annual diversion volume needed by the end of your project (required only for providers not serving an incorporated municipality). Include a copy of your approved preliminary plat and the calculation method used to reach the requested volume. N/A

   ☑ Current and proposed capacity of entire diversion system (pumps).

   ☑ If you are a Type 3 municipal provider, do you have a plan for assigning ownership of the water right permit to a subdivision HOA or other local entity? If so, attach a relevant excerpt from your CC&Rs or a description of the ownership change agreement between the HOA and the developer. N/A

6. RAFN application.

   ☐ Attach a map of the current municipal water service area and the service area as it will be at the end of the planning horizon. Provide justification for inclusion of areas currently served by another municipal provider or by large industrial, commercial, or domestic water systems. Areas overlapped by conflicting comprehensive land use plans may not be included. See Idaho Code §§ 42-202(2) and 42-202B(9).

   ☐ Attach justification for the proposed planning horizon. The planning horizon should be consistent with water infrastructure planning standards and current land use planning documents for the service area. See Idaho Code §§ 42-202(2) and 42-202B(7).

   ☐ Attach a population projection within the service area over the planning horizon. The population projection should be based on planning and demographic studies, standard statistical methods, and evaluation of geography and other limiting factors. See Idaho Code §§ 42-202(2) and 42-202B(8).

   ☐ Attach an evaluation of the water demand within the service area at the end of the planning horizon. Evaluate unaccounted for water (UAW) separate from municipal use. Do not include demand solely for fire protection. See Idaho Code §§ 42-202(2) and 42-202B(8). If your fire protection demand exceeds your other municipal needs, you may request an appropriation for fire protection as a separate beneficial use.

   ☐ Attach a gap analysis: [Municipal Demand in Ending Year] x [UAW Factor] – [Sum of Existing WR Diversion Rates] = RAFN Application Diversion Rate.

MUNICIPAL WATER RIGHT APPLICATION CHECKLIST

Question 1. "Attach documentation of qualification as a Municipal Provider." See Idaho Code 42-202(2)

Idaho Code 42-202(2): An application proposing an appropriation of water by a municipal provider for reasonably anticipated future needs shall be accompanied by sufficient information and documentation to establish that the applicant qualifies as a municipal provider and that the reasonably anticipated future needs, the service area and the planning horizon are consistent with the definitions and requirements specified in this chapter. The service area need not be described by legal description nor by description of every intended use in detail, but the area must be described with sufficient information to identify the general location where the water under the water right is to be used and the types and quantity of uses that generally will be made.

RE: This application is for non-RAFN purposes only. Please reach out to anewbry@cityofcaldwell if you need a map (shapefile) of the corporate limits of City of Caldwell associated with this application.

RE: Transfer No. 89462
Water Right Nos. 63-3441 and 29 others

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the PRESS TRIBUNE on 3/6/2025 and 3/13/2025. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Lynne Evans
Administrative Assistant

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: https://research.idwr.idaho.gov/apps/waterrights/wrajsearch/wradjsearch.aspx. Please review the application, then complete the attached recommendation form and return it to this office by March 24, 2025.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has passed. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by March 24, 2025, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

7910, 63-8008, 63-8299, 63-8986, 63-8987, 63-9358, 63-10316, 63-10317, 63-10674, 63-31283, 63-31550, 63-32024, 63-32025, 63-32026, 63-32027, 63-32028, 63-32029, 63-32030, 63-32031, 63-32032, 63-32033, 63-32038. The purpose of the transfer is to change a portion of the above rights as follows:
City of Caldwell wishes to add a point of diversion to multiple municipal water rights. The proposed well (Well 22) is to be constructed in the northwest of parcel R3568200000, which Canyon County tax parcel data lists as currently owned by the City of Caldwell. The proposed water bearing zone for Well 22 is 200 to 500 feet.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact the Western Region office at (208)334-2190; or for a full description of the rights and proposed changes, please see https://idwr.idaho.gov/water-rights/research/. Protests may be submitted based on the criteria of Idaho Code §§ 42-203A and 42-222. Any protest against the approval of the above applications must be filed with the Director, Dept. of Water Resources, Western Region, 2735 W AIRPORT WAY, BOISE ID 83705-5082 together with a protest fee of $25.00 for each application on or before 3/24/2025. The protestant must also send a copy of the protest to the applicant.

Subject: Additional Information Requested Transfer 89462- Adding Well 22- City of Caldwell

Good Morning Robb & Ashley,

I am just wrapping up the review of the City of Caldwell Transfer 89462, adding a POD (well #22) to the City municipal rights. I have found an item in need of further information. As the proposed well is within Basin 63, current guidance requires that the proposed water bearing zone be reported for advertisement. Could you please respond to this email stating the water bearing zone proposed for Well #22?

Feel free to reach out with any questions or concerns. Thank you.

Regards,

Bob Howe

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application without the full required payment of the fee. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the full fee is paid. Therefore, IDWR is returning your application.

Please consult the enclosed fee schedule to determine the required fee. The fee is based on the total amount of water described by your application. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the fee.

You may re-submit the application together with full payment of the fee within 30 days or a refund will be granted for the partial payment. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Thank you for your attention to this matter.

Sincerely,

Western Region Water Rights Staff
